Brook,2000-09-12 Passage of the Civil Service Reform Act was controversial and there is still controversy over its effectiveness A book of this sort will be well received and anxiously read by specialists in public administration public policy and public personnel administration H George Frederickson University of Kansas The Civil Service Reform Act of 1978 was the most far reaching reform of the federal government personnel system since the merit system was created in 1883 The Future of Merit reviews the aims and rates the accomplishments of the 1978 law and assesses the status of the civil service How has it held up in the light of the National Performance Review What will become of it in a globalizing international system or in a government that regards people as customers rather than citizens Contributors examine the Senior Executive Service whose members serve between presidential appointees and the rest of

the civil service These crucial executives must transform legislative and administrative goals into administrative reality but are often caught between opposing pressures for change and continuity In the concluding chapter Hugh Heclo many of whose ideas informed the 1978 reform act argues that the system today is often more responsive to the ambitions of political appointees and the presidents they serve than to the longer term needs of the polity On the other hand the ambition of creating a government wide cadre of career general managers with highly developed leadership skills has not been fulfilled Other contributors helped to frame the 1978 act helped to implement it or study it as scholars of public administration Dwight Ink Carolyn Ban Joel D Aberbach Bert A Rockman Patricia W Ingraham Donald P Moynihan Hal G Rainey Ed Kellough Barbara S Romzek Mark W Huddleston Chester A Newland and Hugh Heclo Six former directors of the Office of Personnel Management commented on early versions of these chapters at a 1998 conference

Organizational Assessment and Improvement in the Public Sector Kathleen M. Immordino,2009-10-13 Calls for performance measures and metrics sound good but public sector organizations often lack the tools required to assess the organization as a whole and create true change In order to implement an integrated cycle of assessment planning and improvement government agencies at all levels need a usable framework for organizational assessment that speaks to their unique needs *Organizational Assessment and Improvement in the Public Sector* provides that framework an understanding of assessment itself and a methodology for assessment focused on the public sector The book introduces the concept of organizational assessment its importance and its significance in public sector organizations It addresses the organizational theory that underlies assessment including change management organizational and individual learning and organizational development Building on this the author focuses on the processes and demonstrates how the communication that results

from an assessment process can create a widely accepted case for change She presents a model grounded in the Malcolm Baldrige National Quality Program criteria but adapted for the culture of government organizations She also addresses the criteria that form the basis for assessment and implementation and provides examples and best practices Facing decreasing budgets and an increasing demand for services government agencies must increase their capabilities maximize their available fiscal and human resources and increase their effectiveness and efficiency They often operate in an atmosphere that prizes effectiveness but measures it in silos assigned to individual programs and a structure that encourages people to do more with less while systematically discouraging efficiency Stressing the significant and important differences between a business and a government this book supplies the knowledge and tools necessary to create a culture of assessment in government organizations at all levels **Bibliography of Agriculture with Subject Index** ,1994 *Financial Services and General Government Appropriations for 2012* United States.
