**Discovering Body Language** Alan Elangovan, 2024-05-01 *Discovering Body Language DBL For Your EYES Only* is a classic it gives a timeless message about the use of body language in different circumstances The book surmises both the positive and negative messages that people portray through the course of conversation The aim of this book is to sharpen your eyes to see the hidden A lot of people do not know the signs of deception even if they are glaring and that is why such individuals fall prey of unwanted circumstances If you make this book your companion then it becomes your inner sight to have a thorough understanding of people's thoughts and intents towards you This book only discusses an aspect of the areas covered in *The Encyclopedia of Body Language* a best seller by the author In the latter the author holistically x-rayed all aspects of body language and readers can convert body language knowledge to profit It is a book that sets captives of communication free The greatest giveaway of this book is that you will know how to read body language effectively The author does not offer limited knowledge here Rather he gives every reader the master key to make informed decisions by listening to the body language of their co-interlocutors
