Secrets of the Killing State Corinna Barrett Lain,2025-04-22 Lethal injection is nothing like what you think These are the Secrets of the Killing State This is its untold story a story of incompetence law breaking lies and malfeasance all covered by a heavy layer of secrecy *Mass Starvation* Alex de Waal,2017-12-08 The world almost conquered famine Until the 1980s this scourge killed ten million people every decade but by early 2000s mass starvation had all but disappeared Today famines are resurgent driven by war blockade hostility to humanitarian principles and a volatile global economy In Mass Starvation world renowned expert on humanitarian crisis and response Alex de Waal provides an authoritative history of modern famines their causes dimensions and why they ended He analyses starvation as a crime and breaks new ground in examining forced starvation as an instrument of genocide and war Refuting the enduring but erroneous view that attributes famine to overpopulation and natural disaster he shows how political decision or political failing is an essential element in every famine while the spread of democracy and human rights and the ending of wars were major factors in the near ending of this devastating phenomenon Hard hitting and deeply informed Mass Starvation explains why man made famine and the political decisions that could end it for good must once again become a top priority for the international community **H.R. 4455, a Proposal to Amend the Export-Import Bank Act of 1945** United States.
