Lethal Commerce Jeffrey Boutwell, Michael T. Klare, Laura W. Reed, 1995-01-01 *Lethal Commerce* Jeffrey Boutwell, Michael T. Klare, Laura W. Reed, 1995 *Postinternationalism and Small Arms Control* Damien Rogers, 2016-04-08

Even though impacts generated by the widespread availability and ongoing use of small arms and light weapons have not reached a magnitude sufficient to radically reorder contemporary world affairs awareness of the nature and extent of these impacts has compelled some international actors to take decisive action Damien Rogers examines how the international community has responded to the challenge of controlling small arms and light weapons since the early 1990s Using a postinternationalist analytic framework he specifically focuses on the maturing relationships between particular actors of world affairs and the nascent interconnectivity between their strategies for and approaches toward controlling these weapons Furthermore the book identifies ways in which the captains of small arms industry arms brokers and chief users of these weapons are able to mitigate resist or elude the intended effects of those responses **The International Arms Trade** Rachel Stohl, Suzette Grillot, 2013-04-29 The multi billion dollar business of the international conventional arms trade involves virtually every country in the world Around the globe people s lives are being irrevocably changed by the effects of guns tanks and missiles These weapons have the potential to cause a deadly and current threat one responsible for hundreds of thousands of deaths a year This succinct and accessible new book explores the complexities and realities of the global conventional weapons trade The first book on the subject in nearly a decade The International Arms Trade provides an engaging introduction to the trade the effects and the consequences of these weapons The authors trace the history of the arms trade and examine how it has evolved since the end of the Cold War In particular they assess the role of the largest arms exporters and importers the business of selling conventional arms around the world and shed new light on the illicit arms trade and the shadowy dealers who profit from their deadly commerce The book also looks closely at the devastating effect the business can have on countries societies and individuals and concludes with an evaluation of the various existing control strategies and the potential for future control opportunities The International Arms Trade will be invaluable for students and scholars of international relations and security studies and for policymakers and anyone interested in understanding more about the conventional arms trade Controlling Small Arms Peter Batchelor, Kai Michael Kenkel, 2013-11-20 This edited volume takes stock of the state of research and policy on the issue of Small Arms and Light Weapons SALW ten years after the UN first agreed to deal with the problem The end of the Cold War originated a series of phenomena that would subsequently come to dominate the political agenda Perhaps most symptomatic of the ensuing environment is the marked escalation in the scale and dynamics of armed violence driven by the proliferation of SALW Events in Rwanda Somalia and Bosnia seared into global consciousness the devastating effects of this phenomenon and of the necessity to engage actively in its limitation and prevention This edited volume explores and outlines the research and policy

on the SALW issue at this critical juncture In addition to providing a detailed telling of the genesis and evolution of SALW research and advocacy the volume features a series of essays from leading scholars in the field on both advances in research and action on SALW It reflects on what has been achieved in terms of cumulative advances in data methodology and analysis and looks at the ways in which these developments have helped to inform policy making at national regional and international levels Alongside situating and integrating past and present advances in advocacy and international action Controlling Small Arms also outlines future directions for research and action This book will be of much interest to students of small arms peace and conflict studies peacebuilding security studies and IR

Small Arms Control Jayantha Dhanapala, Mitsuro Donowaki, Lora Lumpe, 2019-01-04 First published in 1999 the papers collected in this volume were originally prepared for four workshops organized by the UN Department for Disarmament Affairs to inform the work of the Panel of Governmental Experts on Small Arms These workshops were held during 1995 96 Some of the authors updated their papers for publication in early 1998 Lora Lumpe senior fellow with the Norwegian Initiative on Small Arms Transfers in Oslo and Tamar Gabelnick Acting Director of the Arms Sales Monitoring Project at the Federation of American Scientists in Washington DC edited the presentations for this book

Vital Signs 1998-1999 Lester R. Brown, 2014-04-08 First Published in 1998 In this seventh annual edition of VITAL SIGNS the team at the Worldwatch Institute bring together an eclectic selection of disparate trends to offer a unique multifaceted view of our rapidly changing world This vital resource and reference guide traces the scientific social economic and environmental trends that have and continue to shape our world Among the trends covered for the first time in VITAL SIGNS 1998 99 are frontier forests plantation forestry satellite launches minerals exploration small arms proliferation and female education This year's edition points out that global emissions of carbon the leading contributor to global climate change hit another new high while wind power has grown an amazing 26 per cent per year and sales of solar cells jumped a phenomenal 43 per cent in 1997 VITAL SIGNS is the most comprehensive source of environmental and social information available

Arming the Periphery E. Chew, 2012-06-12 A major historical study of the global arms trade revolving around the transfer of small arms from metropolitan Europe to the turbulent frontiers of Indian Ocean societies during the long nineteenth century c 1780 1914

Small Arms and Security Denise Garcia, 2006-09-27 This book examines the emergence of new international norms to govern the spread of small arms and the extent to which these norms have been established in the policies and practices of states regions and international organizations It also attempts to establish criteria for assessing norm emergence and to assess the process of norm development by comparing what actually happens at the multilateral level If norm making on small arms and related multilateral negotiations have mostly dealt with illicit arms and most of the norms examined here fall on the arms supplier side of the arms equation the author argues that the creation of international norms and the setting of widely agreed standards amongst states on all aspects of the demand for availability

and spread of both legal and illegal small arms and light weapons must become central to the multilateral coordination of policy responses in order to tackle the growing violence associated with small arms availability Small Arms and Security will be of interest to researchers and professionals in the fields of peace and conflict studies global governance international security and disarmament **International Law and International Relations** Thomas J. Biersteker, Peter J.

Spiro, Chandra Lekha Sriram, Veronica I. Raffo, 2006-10-19 This unique volume examines the opportunities for and initiates work in interdisciplinary research between the fields of international law and international relations disciplines that have engaged little with one another since the Second World War Written by leading experts in the fields of international law and international relations it argues that such interdisciplinary research is central to the creation of a knowledge base among IR scholars and lawyers for the effective analysis and governance of macro and micro phenomena International law is at the heart of international relations but due to challenges of codification and enforceability its apparent impact has been predominantly limited to commercial and civil arrangements International lawyers have been saying for years that law matters in international affairs and now current events are proving them right International Law and International Relations makes a powerful contribution to the theory and practice of global security by initiating a research agenda building an empirical base and offering a multidisciplinary approach that provides concrete answers to real world problems of governance This book will be of great interest to all students of international law international relations and governance

Constructing Regional Security W. Durch, 2016-04-30 In this book William Durch examines conventional weapons proliferation since World War II the role of arms transfers in fueling regional conflict and prospects for curbing the global arms trade Noting that supply side arms control efforts which seek to constrain the companies and countries that produce and distribute major conventional weapons have a poor international track record Durch argues for a broader approach that tries to get at the demand side of the equation Addressing the political and regional dynamics that impel arms acquisitions he looks at how arms control might be combined with confidence and security building measures to contain demand and how value based arms trade control measures like codes of conduct could be implemented in stepwise fashion consistent with US national interests in regional stability **Towards A Nuclear-weapon-free World - Proceedings Of The Forty-fifth**

Pugwash Conference On Science And World Affairs Joseph Rotblat, Michiji Konuma, 1997-07-01 In this volume scientists write on the desirability and feasibility of eliminating nuclear weapons including reflections 50 years after the destruction of Hiroshima and Nagasaki by atomic bombs The following topics are discussed strategies for preventing the proliferation of weapons of mass destruction ways and means to monitor and control the arms trade the need for global governance specific aspects of security in the Asia Pacific region and interactions between the problems of meeting the world's energy demand reducing environmental pollution and promoting sustainable development **The Politics and Economics of Defence**
