John H. Olsen,2010-06-03 It has been a life that has had its challenges but I have overcome a lot of those challenges along the way I had seen my parents struggle along the way and I had challenged myself to do better than they did as well My dad taught me a lot about construction when I was growing up I had gotten married and had two wonderful boys from that union The union did fall apart later on I did get to see a lot of different countries while I was in the United States Navy While I was in the navy I worked on F A 18 Hornets and misc electrical and power generation systems I worked as an Aviation Electrician mate while I was in the military I had gotten out after twenty years as a petty officer second class I had a dream to create my own business and to achieve that dream in owning my own business Part of that dream was to go back to college and get a 2 year degree in general business with a minor in accounting *The Farmer & Stock-breeder* ,1928 *suuccessful farming january 1911* ,1911 *Bet the Farm* Frederick Kaufman,2012-09-05 A prominent food journalist follows the trail from Big Pizza to square tomatoes to exploding food prices to Wall Street trying figure out why we can t all have healthy delicious affordable food In 2008 farmers grew enough to feed twice the world s population yet more people starved than ever before

and most of them were farmers In *Bet the Farm* food writer Kaufman sets out to discover the connection between the global food system and why the food on our tables is getting less healthy and less delicious even as the the world s biggest food companies and food scientists say things are better than ever To unravel this riddle he moves down the supply chain like a detective solving a mystery revealing a force at work that is larger than Monsanto McDonalds or any of the other commonly cited culprits and far more shocking Kaufman s recent cover story for Harper s *The Food Bubble* provoked controversy throughout the food world and led to appearances on the NBC Nightly News MSNBC Fox Business News Democracy Now and Bloomberg TV along with features on National Public Radio and the BBC World Service Visits the front lines of the food supply system and food politics as Kaufman visits farms food science research labs agribusiness giants the United Nations the Chicago Mercantile Exchange and more Explains how food has been financialized and the powerful consequences of this change including the Arab Spring started over rising food prices farmers being put out of business food scientists rushing to make easy to transport homogenized ingredients instead of delicious foods Explains how the push for sustainability in food production is more likely to make everything worse rather than better and how the rise of fast food is bad for us but catastrophic for those who will never even see a McNugget or frozen pizza
