watching a comedy whether a show or a movie and you're watching it with your friend but your friend is going through a tough time and may be depressed Suddenly you're feeling depressed even though earlier you were just laughing or may have felt pretty good If you can relate to this you might be an empath You also may be sensitive to other aspects of what's happening around you like sights smells sounds and other physical elements being an empath goes beyond just being sensitive to the emotions of those around us In this book we'll be going over the benefits and challenges of being an empath We'll discuss how to help ourselves recover and recharge ourselves when we take on too much of someone else's stress or become overwhelmed by what's happening But maybe you're here for another reason Do you know someone who constantly needs attention Does this often make them disregard your feelings or the feelings of others Do they feel they deserve special treatment and privileges If you answer yes to any of these questions you may find yourself in a narcissistic relationship Narcissists are excellent at attracting those to them they ooze confidence and know tools to hook you into a relationship with them And then as you begin to become to see their true colors Narcissists will do whatever they can to prove they are the best of the best because they are stuck in a false fantasy about themselves They will take advantage of people and use them to help them achieve their goals even if it hurts those that had supported them and cared for them Inside this book you will have the chance to learn how to hold yourself against a narcissist and know the signs of telling you are in a relationship with one We'll discuss the science of narcissism why they do what they do and tactics they might use to keep you in a relationship with them We'll learn how empaths and narcissists get together in the first place Narcissists need empaths only for one purpose to make them look better
