Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world's first systems of mathematics and medicine and established language and art that spread across the known world With world famous leaders like King Tut and Cleopatra it's no wonder that today's world has so many Egyptologists Some of the most recognizable images of ancient Egypt from the mummies to the pyramids make clear how important religion was to the Egyptians Unlike modern Western countries Ancient Egypt was not a secular society but one where religion played a role in even the most mundane daily occurrences and religion and myth were used to explain how and why the Nile River flooded It also justified the absolute power of the king who was considered not only divinely chosen for the role but divine himself As a result the pharaoh was expected to serve as a sort of intermediary who carried the gods' favor through rituals sacrifices offerings and other practices even while various cults and temples also sought the same goals and engaged in religious practices In addition to being ubiquitous parts of daily life Egyptian religion and mythology were also complex and while Egyptian society was polytheistic like other ancient civilizations that's where the comparisons end Religion was so pervasive that it heavily influenced funerary practices and the belief in an afterlife and deities like Osiris and Isis who are still well known today had become so firmly ingrained that even the Ptolemaic pharaohs who considered themselves purely Greek embraced Egyptian deities and assimilated the Greek and Egyptian cultures In fact Cleopatra often had herself depicted as Isis The Egyptians' belief systems proved resilient enough to last for thousands of years but there were also critical evolutions over time as different dynasties took power and with that certain deities took prominence at different points Perhaps the most famous changes were made by King Tut's father the pharaoh Akhenaten who emphasized worship of the Aten a symbol of the sun which had been associated with Ra but became the focal point of Akhenaten's reign To drive home just how serious the Egyptians took religion there were grumblings about the pharaoh's actions and shortly after Akhenaten's death the system reverted to more closely resemble what it was like before his reign

The Mythology and Religion of the Ancient Egyptians looks at the importance of kingship and the gods and how they were tied into the three major Egyptian creation myths This book also analyzes the mythical tales that help explain the cosmological theological and mythological ideas of the ancient Egyptians Along with pictures and a bibliography you will learn about Ancient Egyptian religion and mythology like you never have before in no time at all

Muhammet Musa Budak,2021-12-15 The 2011 uprisings across the Arab world directed the attention of the international community to the Middle East once again Millions of people took to the streets to demonstrate against their autocratic regimes This was an important indication of the Arab people s desire for change along with an opportunity to restore their dignity Although over time these movements weakened they gave rise to discussions of politics economy social organisms and civil militia relations To understand this phenomenon various theories including revolutionary ones were discussed The revolutionary experiences of these countries are important to examine as these very countries had similar waves of change over 50 years ago The Arab countries of Egypt Tunis Libya Syria and Yemen had gone through coup d tats and leader changes during the 1950s and 60s Comparing these two periods may provide very useful insights to understand the demands of people and how they act to reach these goals This book will particularly analyze the revolutionary periods of Egypt in the 1950s and 2010s As such it will be useful not only to scholars and students of Middle Eastern studies but also to people who want to understand the nature of the demands for change in this region **Christian-Muslim Relations in Egypt** Henrik

Lindberg Hansen,2015-06-04 The subject of Christian Muslim relations in the Middle East and indeed in the West attracts much academic and media attention Nowhere is this more the case than in Egypt which has the largest Christian community in the Middle East estimated at 6 10 per cent of the national population Henrik Lindberg Hansen analyzes this relationship offering an examination of the nature and role of religious dialogue in Egyptian society and politics Analysing the three main religious organizations and institutions in Egypt namely the Azhar University the Muslim Brotherhood and the Coptic Orthodox Church as well as a range of smaller dialogue initiatives such as those of CEOSS the Anglican and Catholic Churches and youth organisations Hansen argues that religious dialogue involves a close examination of societal relations and how these are understood and approached The books includes analysis of the occasions of violence against and dialogue initiatives involving Christian communities in 2011 and the fall of the Muslim Brotherhood from power in 2013 and thus provides a wide ranging exploration of the importance of religion in Egyptian society and everyday encounters with a religious other The book is consequently vital for practitioners as well as researchers dealing with religious minorities in the Middle East and interfaith dialogue in a wider context Contemporary Islamic Political Thought in Egypt Ebtisam Aly
