A Guide to Primitive Camping Jerry Darsey,2024-03-11 The principal audience for this book is the person or persons who wish a camping experience with a minimum of camping equipment It is oriented for those who go camping with a minimum of food or no food without a tent without utensils etc It is based on this author s years of experience camping in the swamps of South Louisiana It covers instructions on how to build shelters how to minimize biting insects how to construct a campfire how to boil water with and without a pot how to secure food and many other survival methods There are however many tips in this work for those who may only wish to go on a weekend campout tips that can make any campout trip more enjoyable This book also has a wealth of references at the end of each chapter giving more detail concerning the material covered in each chapter Just one example of a useful tip it concerns a simple way to minimize insect bites especially those of mosquitos and gnats which are a huge problem in Louisiana If one significantly increases the consumption of garlic for about a week or two before going camping mosquitos and other biting insects will pretty much leave you alone Although I do not have any specific scientific evidence concerning this the experiences of many many camping trips in the Louisiana swamps attest to its effectiveness Also the type of shelter you build can have a major impact on minimizing most biting insects This author hopes that everyone from the casual camper to the very ambitious camper will find some useful nuggets within the pages of this book which will make any camping trip a more enjoyable experience

Fathers and Sons in Cinema Gershon Reiter, 2008-06-02 Popular American films are replete with story lines which involve the father son relationship often as the pivotal conflict or dragon which a hero must overcome to achieve success Sometimes these conflicts are straightforward other times they are projections of the central character s unconscious becoming conscious in essence a modern form of myth These American filmmyths serve as a visual means to project the psyche in an entertaining and easily accessible manner Focusing on mythic structure this volume explores 12 popular movies that deal with various aspects of the father son relationship including the process of becoming a father absent fathers the rite of passage and the turmoil between fathers and adolescents Films examined include The Wizard of Oz Back to the Future Stand By Me Red River City Slickers North by Northwest E T the Extraterrestrial Field of Dreams Lone Star The Lion King Jurassic Park and The Searchers
