O'Neill, 2018-02-21 TO BE MORE THAN September 28th 2018 I discovered there was a blood clot in my internal jugular vein Within that same week I was suddenly unable to use my voice To hear me you had to lean in close You still have too During this time I made the decision to start documenting this experience through my outlet of choice writing and specifically but not without occasional straying poetry I wasn t sure that I would ever feel comfortable sharing this experience in full but here I am Here we are Discovering the endless ways in which our voices can be heard Ways in which we are more than Though this book is a chronological documentation of the first six months of living with a whisper the underlying tone is that of adaption observation dedication and perhaps more than anything else community **Lighting Up a Hidden World** Valerie Free, 2016-08-29 The onset can be fast and shocking or slow and insidious It can happen to anyone at any age A flu a vaccination or an infection can be the innocent beginnings to the potentially life long and disabling illness called myalgic encephalomyelitis ME which is more commonly known as chronic fatigue syndrome CFS or ME CFS in North America In the

mid 1980s the U S Centers for Disease Control CDC was called in by concerned doctors who were witnessing an influx of patients with a mysterious illness Eventually the CDC labeled the condition chronic fatigue syndrome which turned out to be very misleading Decades later in 2016 health agencies are finally beginning to agree with international experts that ME CFS is a serious chronic multi system illness Through artwork poetry story telling and meticulous research *Lighting Up a Hidden World CFS and ME* takes readers into the fascinating yet frightening landscape of ME CFS Author Valerie Free shares her personal experiences and delivers illuminating first hand perspectives from patients caregivers journalists and medical professionals from within the global community in short easy to read segments These stories reveal the disgrace controversy and tragedy of worldwide neglect by political and health care systems leaving ME CFS research underfunded and millions of people marginalized sick and socially unsupported *Lighting Up a Hidden World CFS and ME* advocates for those too ill to speak out abounds with patient resources and offers realistic hope for the future People living with this illness along with their family and friends will find compassion and camaraderie in its pages This book reaches beyond the ME CFS community exposing the themes of human suffering resilience and the need for social change *Let's Talk Deer* ,1998 **The Uprising** Bunk Russell,2023-09-14 In *The Uprising* the third book in what many are now calling the Heartland trilogy Bunk Russell continues to entertain his readers with his unique writing style In this writing patriotism takes on a new meaning as Mike Lane the leader of the now Patriot Party and the Newly Born Patriot Movement creates an alliance between strange bedfellows the patriot militias the United States military law enforcement and a discontented populace The country has an openly lesbian president and a Muslim vice president and they have appointed socialists and socialist sympathizers throughout their cabinet The New World Union has troops on American soil and the president has plans to completely remove what little is left of America s constitutional republic and nationalist structure to become the president of this New World Union The United States will essentially be dissolved and all the government including the military and the national and local law enforcement agencies will be subservient to the NWU This becomes the unifier of Mike Lane s coalition which will attempt to take our country back and to reestablish the constitutional republic of the Founding Fathers *The Uprising* plays itself out all across the heartland in a way that only this author could create with a blend of today s news history and science fiction This book reminds us all that freedom is not given but is taken Patricia Brown The author s choice of words and literary expression were very moving and stimulating Edwardo Patel on *The Wind in the Trees* I have been looking for a profound book such as this my whole life and to think that I would get it in my hands so soon Great job Jamarcus Holmes on *In the Heartland* *In the Heartland* would certainly make a great movie Unknown **Let's Talk Vaccines** Gretchen LaSalle,2019-07-29 Engaging accessible and filled with practical communication advice *Let s Talk Vaccines* helps you educate patients on the importance of life saving vaccines using a patient centered and empathetic approach Covering everything from the science of vaccine safety to the psychology of risk communication this essential guide includes real life
