**Estranging the Familiar** George Douglas Atkins, 1992 In *Estranging the Familiar* G Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal The revitalized critical writing he advocates may entail but is not limited to a return to the essay the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence Atkins contends that to reach a general audience criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old fashioned essay The venerable familiar essay may remain the basis Atkins writes but its conventional openness receptivity and capaciousness must extend to theory philosophy and the candor that seems to mark the tail end of the twentieth century In noting the timeliness if not the necessity of a return to the essay Atkins also considers our culture's parallel return to the personal When the essay combines good writing with the concerns of the personal Atkins says it becomes a form of criticism that is readable vital and potentially attractive to a large readership Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory He argues that despite claims to the contrary there is no inherent incompatibility between the essay and modern theory As Atkins considers various experiments in critical writing from Plato to the present notably feminist interest in the personal and autobiographical he contends that these attempts although undeniably important fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism between an academic and a general audience In essays that illustrate the rhetorical power of the form Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey* explains the role that theory has played in his personal development and chronicles his attempts to find a voice as a writer

*Of Women and the Essay* brings together forty six American and British women essayists whose work spans nearly four centuries The contributions of these essayists prove that women have been significant participants in the essay tradition since the genre's modern beginnings in the sixteenth century Many of these essayists such as Eliza Haywood Fanny Fern Gertrude Bustill Mossell Agnes Repplier and Alice Meynell achieved significant success as writers within whatever essay form ruled the day others bent the rules though often imperceptibly to make room for themselves Collectively they represent a missing piece in the larger history of the essay In *Of Women and the Essay* Jenny Spinner contextualizes the broad range of literary essays included within the chronological development of the genre She makes a compelling argument that women have constructed their own tradition in the essay genre often utilizing periodic traits of the essay to their own advantage At the same time she suggests that the personal essay's demands on the essayist required both a public and personal authorization that proved challenging for women essayists in general and for women of color in particular The appendix catalogs the works of nearly 200 female essayists and should inspire further reading As a whole the volume lifts women writers from the cutting room floor of essay scholarship and returns them to their rightful place in the essay canon

*No Saints around Here* Susan Allen Toth, 2014-04-01 When we promise in sickness and

in health it may be a mercy that we don't know exactly what lies ahead Forcing food on an increasingly recalcitrant spouse Brushing his teeth Watching someone you love more than ever slip away day by day As her husband James's Parkinson's disease with eventual dementia began to progress writer Susan Allen Toth decides she intensely wants to keep her husband at home the home he designed and loved and lived in for a quarter century until the end No saint as she often reminds the reader Toth found solace in documenting her days as a caregiver The result written in brief episodic bursts during the final eighteen months of James's life has a rare and poignant immediacy Wrenching occasionally peevish at times darkly funny and always deeply felt Toth's intimate unsparing account reflects the realities of seeing a loved one out of life the critical support of some friends and the disappearance of others the elasticity of time infinitely slow and yet in such short supply the sheer physicality of James's decline and the author's own loneliness the practical challenges the right food the right wheelchair the right hospital bed all intricately interlocking parts of the act of loving and caring for someone who in so many ways is fading away We all need someone to hear us Toth says of the millions who devote their days to the care of a loved one Her memoir is at once an eloquent expression of that need and an opening for others No Saints around Here is the beginning of a conversation in which so many of us may someday find our voices      **The Kenyon Review** John Crowe Ransom, 1991 Editor winter 1939 autumn 1941 J C Ransom      **Those who Do, Can** Robert L.
