The Origins of Psychic Phenomena Stan Gooch,2007-02-07 Examines unexplained phenomena in psychiatric and psychological terms rather than occult terms Explores how the unconscious mind manifests paranormal phenomena Shows how the cerebellum the seat of the unconscious is the source of these energies subpersonalities and manifestations Identifies our neglected Neanderthal subconscious as responsible for the rising incidence of paranormal happenings Alien abduction poltergeist attacks incubi succubi split and multiple personalities possessions precognition spontaneous combustion the list of phenomena not just unexplained but ignored by mainstream science seems endless Yet the key to the origin of all these manifestations lies deep within our own brains In The Origins of Psychic Phenomena Stan Gooch explores the functioning of the dream producing part of the brain the cerebellum and how the unconscious mind is able to externalize itself The cerebellum is the physical seat of the unconscious and was once equal to or even superior to the cerebrum as essential to our functioning In modern times it has been shunted into the subliminal yet the cerebellum continues to process our worldly experiences and reveals its concerns in misunderstood often frightening manifestations Gooch explains that Neanderthal Man possessed a much larger cerebellum than Cro Magnon Man and posits that the modern repression of the cerebellum s role in our consciousness has given rise to these supernatural phenomena

Psychic Communication with Animals for Health and Healing Laila del Monte,2010-03-09 The transformation and insights of an acclaimed flamenco dancer turned world renowned animal communicator and healer Presents powerful case histories of animals with whom she communicated and treated Offers instruction on how to establish communication with animals When Laila del Monte was a child growing up on the Balearic island of Formentera she experienced a special bond with the animals that were a part of her life Later as she became entirely focused on her career as a flamenco dancer she resisted those who told her that her true vocation was as a healer But when her own health challenges jeopardized her dancing career the healing energies she received from both her human and animal teachers raised her consciousness about the important insights animals have to offer on the state of our physical and emotional well being In this book Laila del Monte reveals how the unconditionally loving nature of animals very often leads them to take on the physical pains and negative emotional experiences of the human beings in their lives The animals absorb negative emotions such as guilt anger jealousy and other issues that stop people from moving forward and reflect these back in their animal behavior Through her work with countless

animals suffering from behavioral disorders or who have been sick or injured del Monte learned that the physical healing of the animals is directly tied to the emotional healing of the people they are close to The stories and situations she shares in this book demonstrate that learning what animals have to teach us about our lives does not require any magical formula or laborious training it is part of our natural birthright We need only to revive our own deep intuition to restore this connection The authenticity and loving nature of del Monte s approach is not only testimony to her dedication and amazing abilities but also shows us the way we can follow the same path simply and honestly

Learning Ritual Magic John Michael Greer,Earl King,

Jr., Clare Vaughn, 2004-10-01 Learning Ritual Magic is a training manual for anyone serious about improving their magic based on the western mystery traditions including tarot ritual magic Qabalah and astrology What you get out of magic can be measured precisely by what you are willing to put into it and time is the essential ingredient in successful magical training the authors write And just as no one expects to run a marathon or play a Bach violin concerto without sufficient training so practitioners of the magical arts shouldn't expect to work complex powerful magical rituals without a solid grounding in the techniques of Hermetic high magic By spending at least a half hour a day practicing the lessons found in Learning Ritual Magic the solitary apprentice attains the proper groundwork and experience for working ritual magic Learning Ritual Magic provides lessons on meditation and a set of exercises designed to develop basic skills in imagination will memory and self knowledge all of which are absolute fundamentals to magical attainment While the authors discuss the essentials of magical theory they focus on daily basic perspectives rather than launching into details of advanced practice Designed for the solitary practitioner Learning Ritual Magic concludes with a ceremony of self initiation The Earth Mysteries Workbook John

Michael Greer, 2024-09-24 A practical and investigative workbook to explore the timeless enigmas of the land on which we walk The Earth Mysteries Workbook invites readers to embark on a journey to understand and restore the ancient enchantments of the land as well as continuing to train the minds and spirits of those engaged in magical study The book follows forty eight lessons which span the course of one year It is not intended to be read cover to cover instead readers should take a lesson a week each of which provides material for thought study and meditation Each week is divided into seven numbered paragraphs to be used as themes for the week's daily meditation The lessons include an introduction to the earth mysteries and natural philosophy exploration of different sites across the earth myths and legends phenomena and much more This fourth instalment of John Michael Greer's instructional workbook for members of the Golden Section Fellowship presents the scholarship of earth mysteries as a fundamental discipline of occult studies and as a spiritual discipline Greer situates the mysteries of the land as intrinsically linked to occult studies as they challenge the modern paradigm which ignores and belittles the sacred knowledges of ancient times sharing a belief in the importance of the past in understanding the subtle and spiritual dimensions of the earth This book can be read as an accompaniment to Greer's previous titles The Way of the Golden Section The Occult Philosophy Workbook and The Way of the Four Elements

Examples from both western and non western cultures together with plentiful illustrations enrich and deepen the analysis. The book uncovers the amazing array of sounds sights smells gestures looks movements touches and material objects which humans use so creatively to interconnect both nearby and across space and time resources consistently underestimated in those western ideologies that prioritise rationality and referential language. Focussing on embodied and material processes and on practice rather than text this comparative analysis challenges the underlying cognitive and word centred model common to many approaches to communication. The second edition of *Communicating* includes a new introduction updates to take account of recent work an additional chapter covering ethereal non verbal non bodily communicating such as telepathy and dreams fresh illustrations a new conclusion and updated bibliography. This authoritative but accessible book is an essential transdisciplinary overview for researchers and advanced students in language and communication anthropology and cultural studies.
