Add to this the risks of moving through city streets, the threat of rape, muggings, and gang violence, and the menace of natural disasters, floods, earthquakes, blizzards that cannot be avoided. Every day serves as a constant reminder: The world is truly a frightening place. The *SAS Urban Survival Guide* advises readers to think practically about urban environments and offers tips and instructions on how to avoid hazards wherever one goes. From self-defense techniques to home security systems to coping with natural disasters, this book teaches readers to recognize danger, make quick decisions, and live confidently in the modern world.
