What I'm going to talk about is how absolute beginners are having success with one or more of our methods. These methods do not even require marketing, which is really weird for an internet community that's full of marketing. You actually don't need marketing. Never. You don't need anything like SEO, Facebook ads, Google ads, blogging, or content marketing. It's not affiliate marketing or multilevel marketing. You don't need to know programming or even email marketing. You don't need your own website. I think you get the picture that this is very different, right? There were so many success stories with our strategy I've never seen so many success stories like ours. This is a really unique strategy that is taught only in our own community, and our students are having so much success with it. So if you're super busy in life and you find marketing stuff just too much for you, then know that ours is actually just a strategy that needs no marketing to work so you can make a residual income online. You can even build this out into a business, although it's really just a strategy and methods that work. Briefly, this is a strategy that is really eye-opening. It's the stuff you can do by finding a little need in the Amazon marketplace and then finding a really simple way to fulfill that need at awesome profits. I've been doing online businesses for almost 20 years, and I've never seen anything as good as this. So I'm really excited to show you this. In fact, this is going to be the second time we are publicly showing this method. So I'm again really excited about it. Order and read my book right now. You'll see how much money you can potentially make with this.
