Emigration in 21st-Century India S. Krishna Kumar, S. Irudaya Rajan, 2015-07-17 Emigration in 21st Century India is the first definitive exposition of contemporary Indian labour migration. The book provides a comprehensive appraisal of the policies, legislation and institutional architecture governing emigration at both federal and state levels. It posits that geographically, emigration is now a more inclusive pan-India phenomenon with many distinct features. It draws critical attention to the multiple dualities in Indian emigration, showing how the artificial distinction between a universal *pravasi* expatriate or migrant and a restricted *aam pravasi* common emigrant distorts emigration governance. On the basis of extensive data from the Kerala Migration Survey (KMS) and National Sample Survey Organisation (NSSO) Rounds, it projects the emerging profile of the emigrant from new source states as also the likely number of migrants by 2021, drawing cross-country comparisons where appropriate. The work will be invaluable to scholars of migration and diaspora studies, economics, development studies and sociology, as well as policy makers, administrators, academics and non-governmental organisations in the field. *The Passports Act, 1967*, **India's Low-Skilled Migration to the Middle East** S. Irudaya Rajan, Prem Saxena, 2019-10-10 This book provides new insights and research studies on how developing countries come to terms with the nationalisation policies of Gulf economies that provide employment for their nationals. Focusing on regions and countries that have traditionally been overlooked, it includes studies on labour migration from Egypt to the Middle East and from the Philippines to Lebanon, migrant experiences and policy prospects in Saudi Arabia and Lebanon, and Indian migration to the Gulf. The book fills a critical gap in migration research by studying migration from various Indian states such as Tamil Nadu, Telugu-speaking states, Telangana and Andhra Pradesh, Rajasthan and Uttar Pradesh. It also explores the unexpected phenomenon of demographic windows of economic opportunity not documented in demographic literature, observed in a few Arab countries, due to older migrant expatriates returning to their home country, the impact of international out-migration on intergenerational educational mobility among children in migrant-sending households in Kerala, and forced migration of Kerala Muslims to the Gulf.
