Explaining the European Union's Foreign Policy Magnus Ekengren, 2018-10-04 Explains why the EU interacts and intervenes beyond its borders using case studies to present a theory of practice driven action

The Unsettling of Europe Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe

Temporary Protection in Law and Practice Meltem Ineli-Ciger, 2018-01-09 Temporary protection is a flexible tool of international protection which offers sanctuary to those fleeing humanitarian crises and currently affects the lives and legal status of millions of forced migrants However the content boundaries and legal foundation of temporary protection remain largely undefined or unsettled There are only a few instruments that provide guidance to states on how to respond to mass influx situations and how to implement temporary protection regimes In Temporary Protection in Law and Practice Meltem Ineli Ciger takes a step towards clarifying those undefined aspects of temporary protection by examining temporary protection's legal foundation in international law and its relationship with the Refugee Convention The book also reviews temporary protection policies in Europe Southeast Asia Turkey and the United States with a view to identifying elements that enhance and compromise the legality and viability of

temporary protection regimes Building on this analysis and legal limitations to the freedom of states to conceptualize different aspects of temporary protection this book provides guidance to states on how to introduce and implement a viable temporary protection regime which operates within the boundaries of international law and international human rights law

Transatlantic Relations in Times of Uncertainty Marianne Riddervold, Akasemi Newsome, 2020-06-29 Ties between the United States US and the European Union EU rival those between any other pair of international actors After all no other regions of the world are as closely connected in economics security and politics as Europe and the US This comprehensive volume makes conceptual progress and empirical contributions in accounting for how EU US relations have been impacted by a context of multiple EU crises alongside a parallel change in US policies The authors find strong evidence to suggest that the transatlantic relationship is weakening This is partly a consequence of the EU s internal policies as it becomes more unified and autonomous of the US in some areas while fragmenting in others Most importantly it is a consequence of the two actors increasingly diverging perspectives and positions on international issues institutions norms and indeed the value of the transatlantic relationship Although the long term effects remain to be seen it is likely that the cracks in the foundation of transatlantic relations will continue into the present and foreseeable future This book was originally published as a special issue of the Journal of European Integration

The Western European Union Sally Rohan, 2014-07-17 This full term study of the Western European Union WEU brings to life the history of Europe s search for a co operative security and defence order from its post World War II origins to the present day Establishing the WEU as a support organization designed to promote the two security ideas of collective defence and integration through the primary organizations of Alliance and Community this book offers a window onto the challenges faced in the development and management of NATO and the evolving EC EU over time As the WEU s historical journey unfolds the frequently competing visions of the future organization of the European security space are exposed in the fluctuating nature of its own functional evolution and devolution A hybrid organization driven by its dual support role the constructively ambiguous and conveniently autonomous WEU was to provide a mechanism through which divergent interests could converge and inherent tensions be relieved preventing NATO and EC EU stagnation This book offers fresh insight into the means by which the gradual transformation of the institutional framework of European security was enabled and stakes the WEU s claim as a fundamental and life long contributor to the stability of the European security system

The Collective Responsibility of States to Protect Refugees Agnès G. Hurwitz, 2009 This title analyses the concept of sharing responsibility between states for protecting refugees under international law and how this mechanism highlights serious concerns for the protection of refugees rights

Translocal Care across Kosovo's Borders Carolin Leutloff-Grandits, 2023-09-15 In today s globalized world where the foundations of home and social security are destabilized due to wars and neoliberal transformations the villagers of Kosovo are linked with a common locality despite living across borders By tracing long distant family relations with a special focus on cross border
