Transnationalism and Translation in Modern Chinese, English, French and Japanese Literatures Ryan

Johnson, 2020-12-15 The theory of literary worlds has become increasingly important in comparative and world literatures. But how are the often contradictory elements of Eastern and Western literatures to cohere in the new worlds such contact creates. Drawing on the latest work in philosophical logic and analytic Asian philosophy this monograph proposes a new model of literary worlds that is best suited to comparative literature dealing with Western and East Asian traditions. Unlike much discussion of world literature anchored in North American traditions featured here is the transnational work of artists, philosophers and poets writing in English, French, Japanese and Mandarin in the twentieth century. Rather than imposing sharp borders this book suggests that vague boundaries link Eastern and Western literary works and traditions and that degrees of distance can better help us to see the multiple dimensions that both distinguish and join together literary worlds. East and West. As such it enables us to grasp not only how East Asian and Western writers translate one another's works into their own languages and traditions but also how modern writers East and West modify their own traditions in order to make them fit in the new constellation of literary worlds brought about by the complex flow of literary information across twentieth century Eurasia. **L'Esprit Créateur**, 1991 *Local Identities in Late Medieval and Early Modern England* Daniel

Woolf, 2007-10-17 Inspired by the path breaking work of Robert Tittler the authors explore late Medieval and Early Modern community and identity across England. They examine the decline of neighbourliness, the politics of market towns, clerical status, charity, crime and ways in which overlapping communities of court and country, London and Lancashire relate. Out of the Woods Nancy L. Canepa, 1997 Covering over 300 years this volume of essays articulates the literary, ideological and historical contexts in which fairy tales evolved in Italy and France. The tales analyzed were each appropriated from oral tradition by professional men and women of letters and thus reveal a cultural history. Marie Jeanne Riccoboni's Epistolary Feminism Marijn S. Kaplan, 2020-04-19 Marie Jeanne Riccoboni's Epistolary Feminism: Fact, Fiction and Voice argues that Riccoboni is among the most significant women writers of the French Enlightenment due to her epistolary feminism. Locating its source in her first novel *Lettres de Mistriss Fanni Butlerd* 1757 between fact and fiction, public and private, Marijn S. Kaplan provides new evidence supporting both the novel's autobiography theory and de Maillebois hypothesis. Kaplan then traces how Riccoboni progressively develops a proto-feminist poetics of voice in her epistolary fiction, empowering women to resist patriarchal efforts to silence and appropriate them, which culminates in her final novel *Lettres de Milord Rivers* 1777. In nineteen relatively unknown letters included with translations written over three decades to her publisher Humblot, several editors, Diderot, Laclos, Philip Thicknesse etc. Riccoboni is shown similarly to defend her oeuvre, her reputation and her authority as a woman writer, refusing to be manipulated and silenced by men. *Satanic Feminism* Per Faxneld, 2017-08-24 According to the Bible, Eve was the first to heed Satan's advice to eat the forbidden fruit and thus responsible for all of

humanity's subsequent miseries. The notion of woman as the Devil's accomplice is prominent throughout Christian history and has been used to legitimize the subordination of wives and daughters. In the nineteenth century rebellious females performed counter readings of this misogynist tradition. Lucifer was reconceptualized as a feminist liberator of womankind and Eve became a heroine. In these reimaginings Satan is an ally in the struggle against a tyrannical patriarchy supported by God the Father and his male priests. Per Faxneld shows how this Satanic feminism was expressed in a wide variety of nineteenth century literary texts, autobiographies, pamphlets, newspaper articles, paintings, sculptures, and even artifacts of consumer culture like jewelry. He details how colorful figures like the suffragette Elizabeth Cady Stanton, gender bending Theosophist H. P. Blavatsky, author Aino Kallas, actress Sarah Bernhardt, anti-clerical witch enthusiast Matilda Joselyn Gage, decadent marchioness Luisa Casati, and the Luciferian lesbian poetess Renée Vivien embraced these reimaginings. By exploring the connections between esotericism, literature, art, and the political realm, *Satanic Feminism* sheds new light on neglected aspects of the intellectual history of feminism, Satanism, and revisionary mythmaking.

European Sculpture, 1400-1900, in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Ian Wardropper, 2011. This beautiful book features masterpieces of sculpture in the collection of the Metropolitan Museum dating from the Renaissance through the nineteenth century. Celebrated works by the great European sculptors including Luca and Andrea della Robbia, Juan Martínez Montañés, Gianlorenzo Bernini, Jean Antoine Houdon, Bertel Thorvaldsen, Antoine Louis Barye, Jean Baptiste Carpeaux, Edgar Degas, and Auguste Rodin are joined by striking new additions to the collection, notably Franz Xaver Messerschmidt's remarkable bust of a troubled and introspective man. The ninety-two selected examples are diverse in media, marble, bronze, wood, terracotta, and ivory, and size, ranging from a tiny oil lamp fantastically conceived and decorated by the Renaissance bronze sculptor Riccio to Antonio Canova's eight-foot high Perseus with the Head of Medusa executed in the heroic Neoclassical style. Incorporating information from the latest scholarly research and recent conservation studies, sculpture specialist Ian Wardropper discusses the history and significance of the highlighted works, each of which is reproduced with glorious new photography.

Theory and Society Zygmunt Bauman, 2024-06-19. The breadth and depth of Zygmunt Bauman's engagement with social theory and the history of social thought has perhaps been underestimated in part because many of his early writings were in Polish and never translated into English, and in part because many important pieces appeared in edited volumes and journals that are not readily available. This volume brings together hitherto unknown or rare pieces by Bauman on the theme of theory and society and also makes available previously unpublished material from the Bauman Archive at the University of Leeds. A consistent theme of Bauman's work was his sustained engagement with humanism, and this provides a unifying thread in the pieces brought together in this volume. Here Bauman reflects on some of the core concepts of sociology, examines the work of a wide range of social theorists from Durkheim and Gramsci to Agnes Heller and C. Wright Mills, and addresses an array of key ideas and issues including inequality, identity, and social change. A

substantial introduction by the editors provides readers with a lucid guide through this material and develops connections to Bauman's other works. This is the third and final volume in a series of books that make available the lesser known writings of one of the most influential social thinkers of our time. It will be of interest to students and scholars across the arts, humanities, and social sciences and to a wider readership. English Fictions of Communal Identity, 1485-1603 Joshua

Phillips, 2016-05-13 Challenging a long standing trend that sees the Renaissance as the end of communal identity and constitutive group affiliation, author Joshua Phillips explores the perseverance of such affiliation throughout Tudor culture. Focusing on prose fiction from Malory's *Morte Darthur* through the works of Sir Philip Sidney and Thomas Nashe, this study explores the concept of collective agency and the extensive impact it had on English Renaissance culture. In contrast to studies devoted to the myth of early modern individuation, *English Fictions of Communal Identity, 1485-1603* pays special attention to primary communities: monastic orders, printing house concerns, literary circles, and neighborhoods that continued to generate a collective sense of identity. Ultimately, Phillips offers a new way of theorizing the relation between collaboration and identity. In terms of literary history, this study elucidates a significant aspect of novelistic discourse even as it accounts for the institutional disregard of often brilliant works of early modern fiction. **Feminism and the Politics of Travel**

After the Enlightenment Yaël Rachel Schlick, 2012 Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries: the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J. J. Rousseau, Mary Wollstonecraft, St. Phanie, F. Licit de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler. *A New French-English and English-French Dictionary* Ebenezer Clifton, Adrien Grimaux, J. McLaughlin, 1923 Darkness Moves Henri

Michaux, 1997-10-31 Critics have compared the work of French writer Henri Michaux (1899-1984) to such diverse artists as Kafka, Goya, Swift, Klee, and Beckett. This anthology contains substantial selections from almost all of Michaux's major works, most never before published in English, and allows readers to explore the haunting verbal and pictorial landscape of a 20th century visionary. 30 photos **Christine de Pizan's Advice for Princes in Middle English Translation** Misty

Schieberle, 2020-10-29 One of the most popular mirrors for princes, Christine de Pizan's *Epistre Othea* (Letter of Othea) circulated widely in England. Speaking through Othea, the goddess of wisdom and prudence in the guise of instructing Hector of Troy, Christine advises rulers, defends women against misogyny, and articulates complex philosophical and theological ideals. This volume brings together for the first time the two late medieval English translations: Stephen Scrope's precise translation *The Epistle of Othea* and the anonymous *Litel Bibell of Knyghthod*, once criticized as a flawed translation. With substantial introductions and comprehensive explanatory notes that attend to literary and manuscript traditions, this volume

contributes to the reassessment of how each English translator grappled with adapting a French woman's text to English social political and literary contexts These new editions encourage a fresh look at how Christine's ideas fit into and influenced the English literary tradition **Renaissance Women Writers** Anne R. Larsen, Colette H. Winn, 1994 A collective awareness of the determining role of gender marks the essays in this volume providing fresh insights into the works of Renaissance women writers **Current Contents, April 12, 1999** ,1999 **Chinese Songs in a French Key** Pauline Yu, 2025-08-19 In early 1867 a book of poems stunned the French literary world Titled *The Book of Jade* it featured Chinese calligraphy and named ancient Chinese poets as sources leaving readers uncertain whether the collection was a translation or a French author's invention Though the book was published under a pseudonym the author was quickly recognized as Judith Gautier the young daughter of a prominent writer Resembling neither contemporary French verse nor any conventional translation of the day *The Book of Jade* opened the eyes of readers throughout Europe to classical Chinese poetry *Chinese Songs in a French Key* tells the extraordinary story of the birth rebirth and rich afterlife of *The Book of Jade* Pauline Yu traces the research and creative process behind the book including Gautier's collaboration with a Chinese refugee known as Tin Tun Ling She shows through juxtapositions with original Chinese texts how Gautier's imaginative strategies conveyed core elements of Chinese poetry to a European audience Yu explores how the work's influence reverberated across French letters Anglo American modernist poetry and the international history of translation The story also unfolds within Gautier's network of luminaries such as Victor Hugo Richard Wagner and John Singer Sargent and against the backdrop of France's discovery of China through scholarship and plunder Drawing attention to Gautier's audacity and accomplishments this deeply researched and elegantly written book provides new perspectives on the surprising routes cultural transmission can take *The Routledge Handbook of French History* David Andress, 2023-12-22 Aimed firmly at the student reader this handbook offers an overview of the full range of the history of France from the origins of the concept of post Roman Francia through the emergence of a consolidated French monarchy and the development of both nation state and global empire into the modern era forward to the current complexities of a modern republic integrated into the European Union and struggling with the global legacies of its past Short incisive contributions by a wide range of expert scholars offer both a spine of chronological overviews and a diverse spectrum of up to date insights into areas of key interest to historians today From the ravages of the Vikings to the role of gastronomy in the definition of French culture from Caribbean slavery to the place of Algerians in present day France from the role of French queens in medieval diplomacy to the youth culture explosion of the 1960s and the explosions of France's nuclear weapons program this handbook provides accessible summaries and selected further reading to explore any and all of these issues further in the classroom and beyond *Frescoes of the Skull* James Knowlson, John Pilling, 1980 Medieval literary voices Louise D'Arcens, Sif Ríkharðsdóttir, 2022-07-05 Voice is a fleeting physical phenomenon that leaves behind traces of its existence *Medieval literary voices* offers a wide reaching approach to

the concept of literary voices both the vanished authorial ones and the implicit textual ones Its impressive lineup deepens our understanding of how literary voices evoke the elusive voices lurking beyond the text capturing the absent authorial voice the traces of scribal voices and the soundscape of the uttered text It explores multiple dimensions of medieval voice and vocalisations and the interactions between literary voices and their authorial scribal and socio political settings It contends that through the theorizing of literary voices we can begin to understand the ways in which medieval voices mediate or proclaim an embodied selfhood or material presence how they dictate or contest moral conventions and how they create and sustain narrative soundscapes **National Union Catalog** ,1978 Includes entries for maps and atlases
