Horst Ruthrof,2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant s Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer s comprehensive analysis of hermeneutics in Truth and Method 1960 as its point of departure the book turns to Kant s Critiques reviewing his major concepts as a coherent system in relation to his sensus communis At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant s broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant s dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl Ingarden Heidegger Gadamer Apel

Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences

Kierkegaard, Religion and the Nineteenth-Century Crisis of Culture George Pattison, 2002-07-04 Kierkegaard is often viewed in the history of ideas solely within the academic traditions of philosophy and theology The secondary literature generally ignores the fact that he also took an active role in the public debate about the significance of the modern age that was taking shape in the flourishing feuilleton literature during the period of his authorship Through a series of sharply focussed studies George Pattison contextualises Kierkegaard's religious thought in relation to the debates about religion culture and society carried on in the newspapers and journals read by the whole educated stratum of Danish society Pattison brings Kierkegaard into relation to not only high art and literature but also to the ephemera of his contemporary culture This has important implications for our understanding of Kierkegaard's view of the nature of religious communication in modern society

Theory Into Poetry Eva Müller-Zettelmann, Margarete Rubik, 2005 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning The present volume seeks to remedy this deficit All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre Their papers focus on a variety of different questions the problem of establishing a framework for definition and classification the search for dynamic and potent critical approaches investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory

Pentecostal Aesthetics Steven Felix, 2015-02-04 Pentecostals have not sufficiently worked out a distinctively Pentecostal philosophy of art and aesthetics In Pentecostal Aesthetics Theological Reflections in a Pentecostal Philosophy of Art and Aesthetics with a foreword by Amos Yong Steven F lix J ger corrects this by reflecting theologically on art and aesthetics from a global Pentecostal perspective particularly through a pneumatic Pentecostal lens F lix J ger contends that a Pentecostal philosophy of art and aesthetics must comply with the global experiential and pneumatocentric nature of the Pentecostal movement Such a philosophy can be ontologically grounded in a relativistic theory of art Theological reflections concerning the nature and purpose of art must then be sensitive to the ontological foundations secured thereof In this fashion Pentecostals can gain ample insight about the Spirit's work in today's

contemporary artworld Kantianism, Postmodernism and Critical Legal Thought I. Ward, 2013-04-17 Kantianism Postmodernism and Critical Legal Thought presents a challenging alternative theory of legal philosophy The central thesis of the book suggests an accommodation between three of the most influential contemporary theories of law Kantianism postmodernism and critical legal thought In doing so it further suggests that the often perceived distance between these theories of law disguises a common intellectual foundation This foundation lies in the work of Immanuel Kant Kantianism Postmodernism and Critical Legal Thought presents an intellectual history of critical legal thinking beginning with Kant and then proceeding through philosophers and legal theorists as diverse as Heidegger and Arendt Foucault and Derrida Rorty and Rawls and Unger and Dworkin Ultimately it will be suggested that each of these philosophers is writing within a common intellectual tradition and that by concentrating on the commonality of this tradition contemporary legal theory can better appreciate the reconstructive potential of the critical legal project **Kant on Sublimity and Morality** Joshua W Rayman, 2012-07-15 The sublime is the experience of what is great in power size or number Historically from ancient times to the present this aesthetic experience has always been associated with morality but in order to exclude evil fascistic or terroristic uses of the sublime we require a systematic justification of the claim that there are internal moral constraints on the sublime The author argues that Immanuel Kant alone provides this account binding sublimity to moral ideas the exhibition of freedom the production of respect and violence toward inclinations **Kant's Critique of Aesthetic Judgment in the 20th Century** Stefano Marino, Pietro Terzi, 2020-11-09 Kant's Critique of Judgment represents one of the most important texts in modern philosophy However while its importance for 19th century philosophy has been widely acknowledged scholars have often overlooked its far reaching influence on 20th century thought This book aims to account for the various interpretations of Kant's notion of aesthetic judgment formulated in the last century The book approaches the subject matter from both a historical and a theoretical point of view and in relation to different cultural contexts also exploring in an unprecedented way its influence on some very up to date philosophical developments and trends It represents the first choral and comprehensive study on this missing piece in the history of modern and contemporary philosophy capable of cutting in a unique way across different traditions movements and geographical areas All main themes of Kant's aesthetics are investigated in this book while at the same time showing how they have been interpreted in very different ways in the 20th century With contributions by Alessandro Bertinetto Patrice Canivez Dario Cecchi Diarmuid Costello Nicola Emery Serena Felio Ginter Figal Tom Huhn Hans Peter Krüger Thomas W Leddy Stefano Marino Claudio Paolucci Anne Sauvagnargues Dennis J Schmidt Arno Schubbach Scott R Stroud Thomas Teufel and Pietro Terzi Organizational Theory and Aesthetic Philosophies Antonio Strati, 2018-12-12 Diverse philosophies constitute the theoretical ground of the study of the aesthetic side of organization In fact there is not a single unique philosophy behind the organizational research of the aesthetic dimension of organizational life Organizational Theory and Aesthetic Philosophies will illustrate and discuss this

complex phenomenon and it will be dedicated to highlight the philosophical basis of the study of aesthetics art and design in organization The book distinguishes three principal philosophical sensibilities amongst these philosophies aesthetic hermeneutic and performative philosophical sensibility Each of them is described and critically assessed through the work of philosophers art theorists sociologists and social scientists who represent its main protagonists In this way the reader will be conducted through the variety of philosophies that constitute a reference for aesthetics and design in organization The architecture of the book is articulated in two parts in order to provide student and scholars in philosophical aesthetics in art in design and in organization studies with an informative and agile instrument for academic research and study

Politics of Catastrophe Claudia Aradau, Rens Van Munster, 2011-05-02 This book argues that catastrophe is a particular way of governing future events such as terrorism climate change or pandemics which we cannot predict but which may strike suddenly without warning and cause irreversible damage At a time where catastrophe increasingly functions as a signifier of our future imaginaries of pending doom have fostered new modes of anticipatory knowledge and redeployed existing ones Although it shares many similarities with crises disasters risks and other disruptive incidents this book claims that catastrophes also bring out the very limits of knowledge and management The politics of catastrophe is turned towards an unknown future which must be imagined and inhabited in order to be made palpable knowable and actionable *Politics of Catastrophe* critically assesses the effects of these new practices of knowing and governing catastrophes to come and challenges the reader to think about the possibility of an alternative politics of catastrophe This book will be of interest to students of critical security studies risk theory political theory and International Relations in general
