Let Me Explain Pierre Teilhard de Chardin,René Hague,1974

Pierre Teilhard De Chardin on People and Planet Celia Deane-Drummond,2017-07-05 Humanity's relationship to nature is central to the work of Pierre Teilhard de Chardin an influential priest and scientist of the twentieth century Teilhard believed that spiritual development must be viewed alongside material development and that evolutionary theory lies at the heart of humanity's understanding of its place in the world Pierre Teilhard de Chardin on People and Planet argues that Teilhard's cosmic mysticism and intense interest in both cosmological and evolutionary sciences are highly relevant to current debates about how best to construct a meaningful spirituality The book offers a critical revision of Teilhard's thought in the light of current debates in evolutionary science eco theology and environmental ethics The essays present fresh interpretations of Teilhard's work and point to the significance of his thought in the contemporary study of science and religion **Whitehead**

Evolution of Consciousness Vincent Frank Bedogne,2008-07-20

From the alpha to the omega Pierre Teilhard de Chardin offers an evolution of consciousness paradigm of the universe and a triumphant vision of humankind and its future Guided by a creative process that motivated Teilhard Vincent Frank Bedogne aims to unite matter with consciousness science with spirituality He looks beyond Darwin and the big bang beyond traditional ideas of God religion and the human role in existence As he does we realize that the universe is crossing the most profound threshold in its evolution since the dawn of reflective thought a thousand lifetimes ago and like the threshold to reflection this blossom of transcendence is unfolding within us The book philosopher Pierre Teilhard de Chardin would have written had he lived another fifty years *The Spirituality of the Future* Kaikhushru Dhunjibhoy Sethna,1981 Corrects errors and redresses a balance in Zaehner's 1971 *Evolution in Religion* A Study in Sri Aurobindo and Teilhard de Chardin in which Dr Sethna finds some lack of comprehension of Aurobindo and feels that Teilhard comes off better Aurobindo emerges in this study as the more spiritually advanced of the two **The Wiley Blackwell Companion to Religion and Ecology**

John Hart,2017-05-30 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed

before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism. Timely and thought provoking. Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world. With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb. Teilhard De Chardin and Eastern Religions U. M. King, 1977. The Phenomenon of Teilhard David H. Lane, 1996. New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives. Other influences acknowledged include C G Jung, Aldous Huxley, Swami Muktananda, Thomas Merton, Werner Erhard and Maharishi Yogi. Indeed of the 185 New Age leaders surveyed, Teilhard was the most frequently mentioned of any person who had most influenced their thinking. If this is the case, then if we are to understand the New Age movement properly, it behooves us to take a careful and critical look at Teilhard de Chardin. David Lane has done precisely this in a clear, well documented and penetrating way. In this crucial book, David Lane lays bare the philosophical, theological and scientific failures of Teilhard's New Age enterprise. In a highly documented and insightful scrutiny of Teilhard's cosmic evolution, Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement. This is one of the most significant and serious treatments of the modern roots of the New Age in print. Teilhard de Chardin and Eastern Religions Ursula King, 2011. Teilhard de Chardin and Eastern Religions is in part an update of the 1980 classic Toward a New Mysticism. Author Ursula King has extensively revised this work, adding new material as she traces Teilhard's encounter with Eastern thought. It includes an extensive bibliography and annotated study guide. Book jacket. Soundings in the Christian Mystical Tradition Harvey D. Egan, 2010-10-01. Called in a special way to listen to God's whispers, the mystics amplify not only what it means to be baptized into the life, death and resurrection of Jesus Christ and to having the Trinity living in them, but also what is deepest in the human spirit. Mystics experience themselves as an infinite question to which only God is the answer, as an immense longing that only Love can quench, as a nothing in the face of the No Thing. They are God's fools, troubadours, the great artists and poets of the interior life, whose learned ignorance articulates the art of loving God, neighbor, self, the Church and the world. In Soundings in the Christian Mystical Tradition, Harvey Egan draws on fifty years of reading and teaching the mystics to sketch the varieties and passion of the mystical life across more than two millennia. Through their stories and words, Egan reveals that all were conscious of the paradox of human identity, supremely and unsurpassably manifested in the God-Man, that the genuinely human is disclosed only through surrender to God and that the search for God cannot bypass the genuinely human. Harvey D. Egan, SJ, is the author of numerous works on Christian mysticism and the thought of Karl Rahner. He is currently professor of systematic and mystical theology at Boston College. **Economics of Fulfillment** Vincent Frank Bedogne, 2009-05-13. At present, every nation embraces a blend of two major economic philosophies: socialism and capitalism. Does either system of economic belief, however, meet our needs? Faced with uncertain

global economic conditions and problems with capitalism and free markets we seek solutions in socialism and government control Faced with declining individual freedom and problems with socialism and government control we seek solutions in capitalism and free markets In light of the emerging evolution of consciousness view of the universe we see economics in all its past and contemporary forms those that lean toward socialism and those that lean toward capitalism as obsolete A new economic philosophy reveals itself an economics for tomorrow an economics of fulfillment Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown,Diane Collinson,Robert Wilkinson,2012-09-10 Prestigious board of advisory editors and contributors Teilhard Lexicon Sion Cowell,2004-06-01 Written to enable researchers and students to better understand the specialised language of Teilhard s transdisciplinary approach which he found himself compelled to develop as a means of expressing that extraordinary vision of a universe in process of convergence towards a cosmic centre of unity he identifies with the Cosmic Christ **Asian Jesus in China** Dale A. vision of soaring towers high speed transit cars pristine skies and blossoming gardens we move beyond today's automobile based urban model and embrace a design where the freedom of the individual is paramount and the human energy that defines city life flows unimpeded within an urban matrix engineered to allow for its highest expression Author Vincent Frank Bedogne drafts a blueprint for what humanity's Evolution of Consciousness and adoption of Economics of Fulfillment make it possible to achieve perfection of life on earth We draw a plan for reconstruction of the earth's urban and ecological infrastructure the city of tomorrow the countryside of tomorrow how we will get around and communicate We embrace a new environmentalism explore future sources of energy reveal the solution to humanity's present energy crisis and look at how we will build to withstand the climatic rigors imposed by a biosphere in evolution **Brand New Me** Herman J.
