Owen Parker: Savannah Gold Rush Chris Bellenot, Arthur Pendragon, 2014-07-01 Savannah Gold Rush is the second book in the Epic Adventures of Owen Parker series A percentage of the proceeds from the sales of this book will be donated to wildlife conservation dedicated to save the rhinos For Owen Parker racing down the slopes of Table Mountain at nearly 80 km h is a risky task Yet this is nothing compared to facing dark forces using corruption as the ultimate weapon and ready to slaughter innocent animals in the name of greed and business supported by tendentious motives Kalashnikovs are thundering The savannah has once again become a killing field It is not rare to witness dozens of elephant bodies including very young calves lying in a bloodbath viciously butchered and savagely mutilated On his quest to save wildlife Owen risks his own existence all the way from the escarpments of the Swiss Alps to the devious meanders of the streets of Dar es Salaam This sequel describing the Epic Adventures of Owen Parker has two main purposes The obvious aim is to entertain readers with action driven books of fiction based on facts Beyond this lies a deeper intention The beauty and majesty of wildlife and nature are under threat from external pressure from a variety of sources We strongly believe that each individual can make a difference by acting to reduce this threat and thereby contribute to the preservation of our fragile environment Through the character of Owen Parker we aim to promote the conservation of wildlife

And Off We Go Barbara Lapajne Predin, 2014-05-27 And Off We Go is a collection of stories lending wings to our curiosity and taking us through space and time The first one introduces us to the Vikings who taught their children how to coexist with the frozen seas and respect the animals In the second tale we visit the African Bushmen and get to know their very special way of learning how to hunt The third one takes place in Japan and describes how a samurai preserves the honour of a persecuted princess while in the fourth we learn about understanding dreams with the Navajo a native American tribe The stars in the fifth story bring together two girls a Masai and an Australian marked by fate in the same manner Through these tales we learn how to listen to the wind and how to understand people different from ourselves The goal of these stories is for the readers to become fascinated by fantasy journeys The young readers will take their own knowledge of the world and their family with them on these journeys and learn about different ways of life full of similar mutual relations and identical fears and joys They will learn that many different peoples or groups of people live or have lived in the world that every group has certain peculiarities we can look up to and make use of living in the today s world or simply discover what people can find their own little shares of happiness in However the most important message is the realisation that we are all very much alike despite all the differences We love our nearest and dearest we laugh at a funny story and we are upset by injustice regardless of when where in the world and what family we were born into The collection of stories And Off We Go will help you discover at least some of your secret wishes and chase away prejudice and fears These five stories will change your outlook at the world For the better
