their night out former step siblings Red and Jazz try to navigate their reunion With only a couple of hours until morning Jaffa tries to help Keesh finish an essay As day breaks Wolfie is getting up the courage to confess a secret to VJ at a party Their choices are small yet momentous The hours are small but feel very very long And when the night finally ends the future is waiting all of it terra A group of classmates is torn apart by the opportunity to perform their own dance As they disagree and bicker two distinct physical groups emerge and separate into opposing teams When a strange outsider appears out of step with everyone else the divide is disrupted A contemporary narrative dance piece about individuality community and heritage Variations Thirteen year old Alice wishes her life was completely different She wakes up one morning to find that her life is different In fact it s so different that all she wants to do is get back to normality But how does she do that
