## **Encountering The Dominant Power Us Extended Deterrence Strategy In The Asia Pacific:**

*Asia, the US and Extended Nuclear Deterrence* Andrew O'Neil, 2013-09-02 Since the end of the Cold War significant attention has focussed on the issue of nuclear deterrence and in particular whether formal nuclear security guarantees from nuclear weapons states to non nuclear weapons states involving the possible use of nuclear weapons have a place in the twenty first century global strategic landscape Growing support for nuclear disarmament in the US and elsewhere has seen serious doubts being raised about the ongoing utility of extended nuclear deterrence This book provides the first detailed analysis of the way in which extended nuclear deterrence operates in contemporary Asia It addresses the following key questions What does the role of extended nuclear deterrence in Asia tell us about the broader role of extended nuclear deterrence in the contemporary international system Is this role likely to change significantly in the years ahead O Neil uses a theoretical and historical framework to analyse the contemporary and future dynamics of extended nuclear deterrence in Asia and challenges many of the existing orthodox perspectives on the topic Providing a new perspective on debates surrounding extended nuclear deterrence this book will be of interest not only to students and scholars of Asian politics international relations and security studies but also to policy makers and professionals [Asia-Pacific Strategic Relations](#)

William T. Tow, 2001-12-10 This comprehensive 2002 book is an overview of security issues in the Asia Pacific It is also an argument for a strategy that promises to achieve greater regional stability It argues that current approaches by policy makers increase the likelihood of conflict Instead it proposes that a strategy of convergent security be adopted to build a more enduring and peaceful regional security framework A concise survey of key approaches to regional security politics it presents a vast selection of empirical discussion both historical and current Assessing the outlook for the three powers most likely to vie for regional dominance the United States China and Japan the book also reviews the prospects for other secondary powers including Korea and Taiwan and analyses the role of Australia and the ASEAN nations of Southeast Asia Unique accessible authoritative and broad ranging survey designed for a wide body of analysts and students of contemporary Asian politics and strategy *American Defence Annual, 1994* Charles F. **The Cambridge Handbook of Social Sciences in Australia** Ian McAllister, Steve Dowrick, Riaz Hassan, 2003-08-07 First published in 2003 The Cambridge Handbook of Social Sciences in Australia is a high quality reference on significant research in Australian social sciences The book is divided into three main sections covering the central areas of the social sciences economics political science and sociology Each section examines the significant research in the field placing it within the context of broader debates about the nature of the social sciences and the ways in which institutional changes have shaped how they are defined taught and researched *The Practice of Power* Rosemary Foot, 1995-09-21 This absorbing study examines the change in American relations with China after 1949 from hostility to rapprochement and to full normalization of the ties in 1979 Rosemary Foot

goes on to examine the relationship after normalization a period when the United States has come to view China as less of a challenge but still resistant to certain of the norms of the current international order The book begins by examining US efforts to build and then maintain an international and domestic consensus behind its China policy It then looks at changing US perceptions of the capabilities of the Chinese state It shows how American positions on Chinese representation at the UN and on the trade embargo were subtly eroded not least by changes in US domestic public opinion The author argues that previous explanations of American relations with China have dwelt too single mindedly on ideas associated with the strategic triangle and that instead we need to embed our understanding of the evolution of American relations with China within a wider structure of relationships at the global and domestic level Reviews A valuable interpretative analysis of US People s Republic of China relationships she substantially contributes to post Soviet era theoretical understanding Strongly recommended for courses in foreign policy diplomatic history and international relations Choice contains much that is valuable to those whose interests are primarily on the other side of the Pacific The chapter on American public opinion and Chinese policy is also something which is not readily found in existing accounts of China a post 1949 foreign relations Times Higher Education Supplement her analysis remains cautious and astute The Economist *The International Politics of Asia-Pacific, 1945-1995* Michael Yahuda,2005-08-19 This fully updated and revised edition of Michael Yahuda s extremely successful textbook introduces students to the international politics of the Asia Pacific region since 1945 Divided into three parts the first presents a chronological overview of developments since 1945 the new second part looks at the post cold war period while the third focuses on the policies of the US the USSR Russia China and Japan in the region Yahuda analyses politics in terms of global regional and local trends combining narrative with analysis This new edition features analysis of the economic crisis and the potential implications worldwide of East Asian economic recovery a chapter on the emergence of East Asia as a significant force in world affairs focusing on the role of lesser powers such as Indonesia and Malaysia chapters considering prospects post 2000 and competing frameworks for security in the wake of nuclear tension between India and Pakistan the strengths and weaknesses of US hegemony in the new world order *The New US Strategy towards Asia* William T Tow,Douglas Stuart,2014-12-17 Barack Obama s rebalancing or pivot strategy intended to demonstrate continued US commitment to the Asia Pacific region in a variety of military economic and diplomatic contexts was launched with much fanfare in 2011 Implicit in the new strategy is both a focus on China engagement with and containment of and a heavy reliance by the United States on its existing friends and allies in the region in order to implement its strategy This book explores the impact of the new strategy on America s regional friends and allies It shows how these governments are working with Washington to advance and protect their distinct national interests while at the same time avoiding any direct confrontation with China It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run Overall the book illustrates the deep complexities of the United States

exercise of power and influence in the region      **Encountering the Dominant Player** William T. Tow,1991      Pacific Asia? Melvin Gurtov,2002 Emphasizing human and environmental security over traditional power politics Mel Gurtov offers a provocative reinterpretation of security in the Asia Pacific region The author questions a number of prevailing assumptions such as the China threat a U S centered balance of power and the necessity of a greater Japanese security role He argues instead for a cooperative framework for future security that focuses on people s basic needs is sensitive to Asian nationalism and gradually replaces military power with developmental priorities With its concise appraisals of the security policies of the United States China Japan the two Koreas and the ASEAN countries this work will be a valued reference for policymakers scholars and students alike      *Concepts of Non-Provocative Defence* G. Wiseman,2001-12-18 This book examines the viability of non provocative defence the controversial idea that defensive military policies and practices reduce the risk of wars and provide a viable basis for defending a society should war break out Drawing on case studies from Europe the 1991 Persian Gulf War and Asia Pacific the author concludes that non provocative defence concepts remain relevant and that they can help in deterring conducting and settling wars      *The New Pacific Community* Martin L Lasater,2019-06-26 As the political and economic landscape in the Asian Pacific continues to shift the United States must re evaluate its strategy toward the region In his book Martin Lasater explores U S interests in Asia considering strategies for attaining U S goals in the post containment era Citing numerous strategic options for the United States Lasater recommends a strategy of integration as being best suited for the region through the end of the century      *The Journal of East Asian Affairs* ,1994      **The Changing Of The Guard** Martin L Lasater,2019-07-11 The increased military power of China since the close of the Cold War has forced the United States to reconsider its security policy toward Taiwan In this volume Martin Lasater explores the many new factors that are now influencing U S calculations of one of its more enduring and important security interests in Asia He considers such security concerns as the reduction of U S military forces in the western Pacific a new arms race in the Taiwan Strait Sino American tensions over human rights and arms proliferation issues increased calls for Taiwan s independence the Clinton administration s concentration on domestic issues and the shifting balance of power in the Asia Pacific especially the PRC s growing influence Considering the difficult issues President Clinton must weigh Lasater provides a timely analysis of Taiwan s security in the 1990s within the broader context of Sino American relations      **Extended Deterrence in Korea** Terence J. Roehrig,1995      *American-Vietnamese Relations in the Wake of War* Cécile Menétrey-Monchau,2017-02-10 When the Vietnam War ended with the North Vietnamese capture of Saigon on April 30 1975 27 months after a cease fire had been signed in Paris the differences between the United States and Vietnam were far from being resolved Mutual bitterness regarding the war remained Newly unified Vietnam wanted normalization of relations and the subsequent economic reconstruction aid promised in the Paris Peace Accords Understandably wary of such diplomatic relations the United States requested information regarding soldiers listed as missing in action and assistance with the

repatriation of military remains A series of misconceptions and misunderstandings as well as changes from a regional to a global U S foreign policy left both countries bereft of an easy solution This book describes the negotiations during the late Ford and early Carter administrations 1975 1979 and discusses the repercussions the diplomatic stalemate had on the domestic and international politics of the United States and Vietnam emphasizing the conflicting priorities and political goals of both countries at home and abroad This previously neglected period in United States Vietnam relations deals with issues such as Hanoi s constant exultation over the victory American denial of responsibility the division between the presidents public declarations and congressional policies and both sides use of the MIA issue Based primarily on recently declassified documents and former U S official Douglas Pike s uncensored collection the work also makes use of media press sources from America Vietnam Britain France and China Interviews with Vietnamese immigrants and former U S politicians provide insight unavailable in written histories Appendices contain the February 1973 correspondence between President Nixon and the Prime Minister of the Democratic Republic of Vietnam six diplomatic notes from 1976 and a January 30 1979 letter from President Carter to Chinese Vice Premier Deng Xiaoping

**The Evolving Security Order of the Asia Pacific** Brian Job,1992 **National Journal** ,1991-05 *Security, Arms Control, and Conflict Reduction in East Asia and the Pacific* ,1993-07-30 This is the most comprehensive bibliography to date on the vast English language literature covering the myriad aspects of peace and security issues in the East Asia Pacific region McClean contacted 150 key research institutions and publishers around the world for information about the most significant books articles dissertations and official documents on international and intra state security arms control conflict avoiding diplomacy and militarization in the area He has selectively annotated 12 645 cross referenced entries and organized them into 27 sub regional and country chapters including two particularly extensive chapters on Japan and China and two further chapters on relations between Australia New Zealand and the United States and on U S and Soviet policy
