Supervision Essentials for the Integrative Developmental Model Brian McNeill,Cal D. Stoltenberg,2015 Some clinicians use a simple master apprentice approach to supervision others utilize tools from their preferred model of psychotherapy In this book Brian McNeill and Cal Stoltenberg offer supervisors and trainees a different approach their integrative developmental model of supervision This empirically tested model incorporates elements of cognitive models schema and skill development interpersonal influence and social intelligence alongside models of human development to create a truly eclectic and time tested approach to clinical supervision The authors model tracks therapists development across all skill levels and theoretical orientations Students and trainees are evaluated across domains of practice that include intervention skills competence assessment techniques individual differences treatment plans and goals and professional ethics among others The authors provide clear guidelines for progression from beginner levels highly motivated trainees who remain highly dependent on the supervisor to more advanced supervisees who are better attuned to individual differences in clients and seek more sophisticated clinical responses all the way to master level therapists The book also offers analyses of the authors supervisory sessions with real clinical trainees including those documented in the companion DVD The Integrative Developmental Model of Supervision R sum de l diteur PsycINFO Database Record c 2015 APA all rights reserved

The Spectator ,1921 *The Strength-Based Clinical Supervision Workbook* Christopher L. Heffner,Jessica A.

Cowan,2022-08-25 Supervision is the cornerstone of clinical training across all types of mental health providers It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians However the process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post licensure career Utilizing strength based approaches is crucial to the success of supervision This workbook facilitates a collaborative and strength based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision or for specific goals related to supervision Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths areas for growth and goals for collaborative work This is an essential start to finish guide addressing the entire supervision process from preparing for the first session to conducting the last session and everything in between **Journal of Rural Education** ,1923
