Antebi, 2009-05-25 This book explores manifestations of physical disability in Spanish American narrative fiction and performance from José Martí's late nineteenth century *crónicas* to Mario Bellatín's twenty first century novels from the performances of Guillermo Gómez-Peña and Coco Fusco to the testimonio and filmic depictions of Gabriela Brimmer *The Twentieth-Century Spanish American Novel* Raymond Leslie Williams, 2009-07-21 A Choice Magazine Outstanding Academic Book Spanish American novels of the Boom period 1962-1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels In this pathfinding study Raymond L. Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century Using the desire to be modern as his organizing

principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era. For each period Williams begins with a broad overview of many novels, literary contexts, and some cultural debates, followed by new readings of both canonical and significant non-canonical novels. A special feature of this book is its emphasis on women writers and other previously ignored and/or marginalized authors, including experimental and gay writers. Williams also clarifies the legacy of the Boom, the Postboom, and the Postmodern as he introduces new writers and new novelistic trends of the 1990s.

The volume is further enriched by the inclusion in the appendix of the two manifestos of the group: the Crack Manifesto and the Crack Postmanifesto (1996, 2016). It will be of great interest to students and scholars focusing on contemporary Latin American literature.

The grim role of violence in shaping modern Mexican identity.

Moving Forward, Looking Back Sarah M. Misemer, 2010

Many critical shifts in concepts of time and society's consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century. These innovations restructured the way people viewed the world and dealt with public and private time. The forward projectile motion along a linear track mimicked the passage of public chronological time. Conversely, the train also invoked a private nostalgic view of time as the traveler was yanked from his/her traditional view of the space-time continuum via the train's velocity. Travelers observed the landscape disappear in their backward glance from the window, although the landscape and interior compartment's space remained stagnant. This optical illusion caused passengers to perceive the world in new ways. Thus, the train unveils a conflictive blend of nostalgia.
