Smith II, 2021-08-04 The eight chapters within this volume are structured around an exploration of the fundamental issues in the field of biomedical human rights dignity and autonomy in not only procreative liberties but throughout the complete cycle of life and death the freedom of scientific inquiry into the new biotechnological methods of collaborative reproduction the right to genetic integrity at birth and throughout life and the equitable right to health or access to health care benefits during life and old age All these central issues are tested of necessity but utilitarian principles which in turn force the templates for decision making evaluate the gravity of harm deriving from a particular human right and its recognition and enforcement measured against the utility of the social economic or cultural good accruing from recognition of such a right in the first

instance Ultimately cultural relativism will be seen more often than universality as the determinative point of balance This volume not only informs the ongoing debate on the role of human rights in biomedicine but will also provide enlightened responses to the troublesome issues presented in this new age of biotechnology

**Law and Bioethics** George Patrick Smith (II), 2012 George P Smith II is a leading figure in the world of medical law and ethics During his long career he has addressed some of the most important issues in bioethics and has contributed much original thought to the debates in this field This book celebrates his contribution bringing together his key writings in bioethics The chapters include previously published material however the pieces have been substantially updated to include more recent developments and rewritten drawing out the themes and strands which have run through Professor Smith's thinking over the past fifty years The book covers topics including human rights and medical law the allocation of resources and distributive justice ethical relativism science and religion and public health emergencies In doing so it offers an excellent overview of the current bioethical issues in medical law in light of recent and ongoing technological developments in medicine This collection of essays by one of the world's leading medical lawyers is academic research of the highest quality With an enviable clarity of thought and force of argument Professor Smith tackles some of the major issues facing medicine and law today It is a tour de force by an academic at the height of his powers
