European Symbolism Natasha Grigorian, 2009 This first comparative study of the Symbolist use of myth in France Germany and Russia closely examines a selected range of poetic and pictorial works created between c 1860 and 1910 The focus of the discussion is on a constellation of five artists linked by a complex network of influences Gustave Moreau Jos Maria de Heredia and Jean Mor as France Stefan George Germany and Valerii Bryusov Russia By analysing myth in painting and poetry the book gives a new insight into the significance of heroic and aesthetic ideals in late nineteenth and early twentieth century European culture International and interdisciplinary in its comparative approach the study reassesses the distinction between Symbolism and Decadence by shedding new light on the role of myth within the paradoxical interaction of classical and modernist values in Symbolist art In the course of the argument Symbolist mythological art emerges as a significant link between the cultural heritage of classical Greece and the creative agonies of twentieth century European society The book will appeal not only to scholars of literature and art but also to a wider academic public concerned with cross cultural transaction in Europe

The Symbolist Roots of Modern Art Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Mor announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments

Light and Obscurity in Symbolism Deborah Cibelli, Rosina Neginsky, 2016-01-14 The idea of light and darkness is one of the central ideas of the Symbolist movement since this is a movement of contrasts It encompasses the major themes of Symbolism such as good and evil beauty and ugliness the visible and the invisible and the divine and the

earthly This volume brings together a range of studies in order to understand the notion of light and darkness and a variety of its Symbolist interpretations It also stresses the interdisciplinary nature of the concepts of light and darkness in Symbolism as well as the cohabitation and symbiosis of both which are together or separately at the core of this movement

Gerard Manley Hopkins and His Poetics of Fancy Kumiko Tanabe,2015-09-10 This book explores the poetics of fancy in the works of Gerard Manley Hopkins a term often paired with imagination in well known Romantic poetics It sheds new light on this concept which is described positively in Hopkins s poetics and later becomes the essence of his idiosyncratic concept of inscape as shown here Chapter One discusses the influence of Coleridge and Ruskin on Hopkins s poetics of fancy Hopkins s experiments in the language of inspiration produced by fancy before his conversion to Catholicism his idea of inscape as revealed by fancy and the relation between his fancy and the aesthetics of Romantic poets such as Keats and Wordsworth Chapter Two focuses on the concept of fancy in Hopkins s predecessors William Shakespeare and Alfred Lord Tennyson who along with Coleridge and Ruskin had a major influence on the writer leading him to pen the play Floris in Italy and the sonnet series The Beginning of the End in order to experiment with the language of inspiration which he argued only fancy could produce This chapter also discusses Hopkins s interest in J E Millais and the impact of the Pre Raphaelites in the development of his poetics of fancy Hopkins s fancy as metalanguage the contrast between his fancy and the impressionism of Walter Pater and the role of fancy in Hopkins s sonnets Chapter Three treats Hopkins s conversion to Catholicism and his views on Catholic art including his interest in William Butterfield and the Gothic Revival as well as the abrupt parallelism between Christ and fancy in The Wreck of the Deutschland Hopkins s poetic diction is a condensed evocation of art and nature with fancy as the source of his inspiration His metaphors are not ordinary figures expressing the attributes of things but are autonomous and have their nature within themselves Hopkins s poetic idiosyncrasy is generated by the parallelism between distinctive and autonomous images which repeat the surprise and ecstasy of the poet contemplating art and nature He endeavoured to achieve the poetry of inspiration with his emphasis on fancy as the basis of his poetic diction so as to reinstate it as the source of a new Realism Hopkins s fancy foregrounds the discontinuous nature of a new poetic diction which demonstrates unfettered combinations between autonomous images and signs in metalanguage in advance of semiotic literary theories
