The Enlightenment of Work Steve Nobel, 2012-01-01

Work affects most of us at some point in our lives. Work can be a source of growth, connection, and purpose, but too often it is a source of feeling aimless, bullied, or manipulated. Sometimes it comes through overarching ambition, striving to climb up the corporate ladder only to find it is leaning in the wrong direction. There are degrees of emotional and physical suffering when we feel anger, misery, and unhappiness with unenlightened work. *The Enlightenment of Work* is about ending that suffering. This book is essential for anyone wishing to transform their suffering at work. Suffering can come in many ways. It can come through feeling aimless and bored, where the only reason for being there is to collect a salary each month. It can come through stress, overwork, and burnout. This book offers a simple philosophy: suffering happens, but we can transform that suffering. Realise their innate gifts, talents, and purpose. Most work disconnects us from knowing our authentic self, our essence, or soul. Trust your courage, ideas, intuition, and discover your true self. Reclaim their time. Time is your most precious resource, and one you cannot afford to waste. However, many of us work in busy environments that leave little time for real thinking or reflection, or for doing anything very new or interesting. Busy and idle minds can get locked into different forms of anxiety about the past and the future. The changing world of work demands emotional and spiritual intelligence. No one has to stay with work that oppresses the spirit. This new world is about choice.
