Everyday Editing Jeff Anderson, 2023-10-10 Editing is often seen as one item on a list of steps in the writing process usually put somewhere near the end and often completely crowded out of writer's workshop Too many times daily editing lessons happen in a vacuum with no relationship to what students are writing In *Everyday Editing* Jeff Anderson asks teachers to reflect on what sort of message this approach sends to students Does it tell them that editing and revision are meaningful parts of the writing process or just a hunt for errors with a 50/50 chance of getting it right comma or no comma Instead of rehearsing errors and drilling students on what's wrong with a sentence Jeff invites students to look carefully at their writing along with mentor texts and to think about how punctuation grammar and style can be best used to hone and communicate meaning Written in Jeff's characteristically witty style this refreshing and practical guide offers an overview of his approach to editing within the writing workshop as well as ten detailed sets of lessons covering everything from apostrophes to serial commas These lessons can be used throughout the year to replace Daily Oral Language or error based

teachers to imagine the writing classroom from a boy's perspective and consider specific steps we might take to create stimulating classrooms for boys. Topic choice emerges as a crucial issue. The subjects many boys like to write about war, weapons, outlandish fiction, zany or bathroom humor often do not get a warm reception from teachers. Fletcher argues that we must widen the circle and give boys more choice if we want to engage them as writers. How? We must begin by recognizing boys and the world in which they live. *Boy Writers* explores important questions such as: What subjects are boy writers passionate about and what motivates them as writers? Why do boys like to incorporate violence into their stories and how much should be allowed? Why do we so often misread and misunderstand the humor boys include in their stories? In addition, the book looks at how handwriting can hamstring boy writers and how drawing may help. Welcoming boy-friendly writing genres in our classrooms, ways to improve our conferring with boys, and more. Each chapter begins with a thorough discussion of a topic and ends with a highly practical section titled "What can I do in my classroom." *Boy Writers* does not advocate promoting the interests of boys at the expense of girls. Rather, it argues that developing sensitivity to the unique facets of boy writers will help teachers better address the needs of all their students.

Literacy and Learning in the Content Areas

Sharon Kane, 2017-07-05. The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.
