**The Ecology of Playful Childhood** Akira Takada,2020-08-19 While studies of San children have attained the peculiar status of having delineated the prototype for hunter gatherer childhood relatively few serious ethnographic studies of San children have been conducted since an initial flurry of research in the 1960s and 1970s Based on the author s long term field research among several San groups of Southern Africa this book reconsiders hunter gatherer childhood using play as a key concept Playfulness pervades the intricate practices of caregiver child interactions among the San immediately after birth mothers have extremely close contact with their babies In addition to the mother s attentions other people around the babies actively facilitate gymnastic behavior to soothe them These distinctive caregiving behaviors indicate a loving indulgent attitude towards infants This also holds true for several language genres of the San that are used in early vocal communication Children gradually become involved in various playful activities in groups of children of multiple ages which is the major locus of their attachment after weaning these playful activities show important similarities to the household and subsistence activities carried out by adults Rejuvenating studies of San children and hunter gatherer childhood and childrearing practices this book aims to examine these issues in detail ultimately providing a new perspective for the understanding of human sociality Hunter-Gatherer Childhoods Barry S. Hewlett,2017-07-28 In the vast anthropological literature devoted to hunter gatherer societies surprisingly little attention has been paid to the place of hunter gatherer children Children often represent 40 percent of hunter gatherer populations thus nearly half the population is omitted from most hunter gatherer ethnographies and research This volume is designed to bridge the gap in our understanding of the daily lives knowledge and development of hunter gatherer children The twenty six contributors to Hunter Gatherer Childhoods use three general but complementary theoretical approaches evolutionary developmental cultural in their presentations of new and insightful ethnographic data For instance the authors employ these theoretical orientations to provide the first systematic studies of hunter gatherer children s hunting play infant care by children weaning and expressions of grief The chapters focus on understanding the daily life experiences of children and their views and feelings about their lives and cultural change Chapters address some of the following questions why does childhood exist who cares for hunter gatherer children what are the characteristic features of hunter gatherer children s development and what are the impacts of culture change on hunter gatherer child care The book is divided into five parts The first section provides historical theoretical and conceptual framework for the volume the second section examines data to test competing hypotheses regarding why childhood is particularly long in humans the third section expands on the second section by

looking at who cares for hunter gatherer children the fourth section explores several developmental issues such as weaning play and loss of loved ones and the final section examines the impact of sedentism and schools on hunter gatherer children This pioneering volume will help to stimulate further research and scholarship on hunter gatherer childhoods th
