influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape **Cary Nelson and the Struggle for the University** Michael Rothberg, Peter K.

Garrett, 2009-01-08 Scholars engage the ideas and legacy of Cary Nelson in conversations about the corporate university teaching poetry and activism **Attack of the Difficult Poems** Charles Bernstein, 2011-04-15 Charles Bernstein is our postmodern jester of American poesy equal part surveyor of democratic vistas and scholar of avant garde sensibilities In a career spanning thirty five years and forty books he has challenged and provoked us with writing that is decidedly unafraid of the tensions between ordinary and poetic language and between everyday life and its adversaries Attack of the Difficult Poems his latest collection of essays gathers some of his most memorably irreverent work while addressing seriously and comprehensively the state of contemporary humanities the teaching of unconventional forms fresh approaches to translation the history of language media and the connections between poetry and visual art Applying an array of essayistic styles Attack of the Difficult Poems ardently engages with the promise of its title Bernstein introduces his key theme of the difficulty of poems and defends often in comedic ways not just difficult poetry but poetry itself Bernstein never loses his ingenious ability to argue or his consummate attention to detail Along the way he offers a wide ranging critique of literature s place in the academy taking on the vexed role of innovation and approaching it from the perspective of both teacher and practitioner From blues artists to Tin Pan Alley song lyricists to Second Wave modernist poets The Attack of the Difficult Poems sounds both a battle cry and a lament for the task of the language maker and the fate of invention Concentration Camps on the Home Front John Howard, 2009-05-15 Without trial and without due process the United States government locked up nearly all of those citizens and longtime residents who were of Japanese descent during World War II Ten concentration camps were set up across the country to confine over 120 000 inmates Almost 20 000 of them were shipped to the only two camps in the segregated South Jerome and Rohwer in Arkansas locations that put them right in the heart of a much older long festering system of racist oppression The first history of these Arkansas camps Concentration Camps on the Home Front is an eye opening account of the inmates experiences and a searing examination of American imperialism and racist hysteria While the basic facts of Japanese American incarceration are well known John Howard s extensive research gives voice to those whose stories have been forgotten or ignored He highlights the roles of women first generation immigrants and those who forcefully resisted their incarceration by speaking out against dangerous working conditions and white racism In addition to this overlooked history of dissent Howard also exposes the government s aggressive campaign to Americanize the inmates and

even convert them to Christianity After the war ended this movement culminated in the dispersal of the prisoners across the nation in a calculated effort to break up ethnic enclaves Howard s re creation of life in the camps is powerful provocative and disturbing Concentration Camps on the Home Front rewrites a notorious chapter in American history a shameful story that nonetheless speaks to the strength of human resilience in the face of even the most grievous injustices **Morning Glory, Evening Shadow** Gordon Chang,1997-01-01 This book has a dual purpose The first is to present a biography of Yamato Ichihashi a Stanford University professor who was one of the first academics of Asian ancestry in the United States The second purpose is to present through Ichihashi s wartime writings the only comprehensive first person account of internment life by one of the 120 000 persons of Japanese ancestry who in 1942 were sent by the U S government to relocation centers the euphemism for prison camps Arriving in the United States from Japan in 1894 when he was sixteen Ichihashi attended public school in San Francisco graduated from Stanford University and received a doctorate from Harvard University He began teaching at Stanford in 1913 specializing in Japanese history and government international relations and the Japanese American experience He remained at Stanford until he and his wife Kei were forced to leave their campus home for a series of internment camps where they remained until the closing days of the war The Cambridge Companion to Modern American Poetry Walter Kalaidjian,2015-01-19 The Cambridge Companion to Modern American Poetry comprises original essays by eighteen distinguished scholars It offers a critical overview of major and emerging American poets of the twentieth century in addition to critical accounts of the representative schools movements regional settings archival resources and critical reception that define modern American poetry The Companion stretches the narrow term of literary modernism which encompasses works published from approximately 1890 to 1945 to include a more capacious and usable account of American poetry s evolution from the twentieth century to the present The essays collected here seek to account for modern American verse against the contexts of broad political social and cultural fields and forces This volume gathers together major voices that represent the best in contemporary critical approaches and methods **Coming Into Contact** Annie Merrill Ingram,2007 A snapshot of ecocriticism in action Coming into Contact collects sixteen previously unpublished essays that explore some of the most promising new directions in the study of literature and the environment They look to previously unexamined or underexamined aspects of literature s relationship to the environment including swamps internment camps Asian American environments the urbanized Northeast and lynching sites The authors relate environmental discourse to practice including the teaching of green design in composition classes the restoration of damaged landscapes the persuasive strategies of environmental activists the practice of urban architecture and the impact of human technologies on nature The essays also put ecocriticism into greater contact with the natural sciences including elements of evolutionary biology biological taxonomy and geology Engaging both ecocritical theory and practice these authors more closely align ecocriticism with the physical environment with the wide range of texts and cultural practices that concern it and with the growing

scholarly conversation that surrounds this concern *Frogpond* ,1989 **A New Way of Seeing** Michael Sarnowski,2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet s proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological consequences endured by veterans
