Wastewater Reuse, Volume 2 provides a comprehensive and educational overview of the many ways wastewater can be reused, the variety of treatments, their performance, their conditions of use, and how to combine them to give wastewater a new lease on life. The Theory and Practice of Online Learning Terry Anderson, 2008 Neither an academic tome nor a prescriptive how-to guide, The Theory and Practice of Online Learning is an illuminating collection of essays by practitioners and scholars active in the complex field of distance education. Distance education has evolved significantly in its 150 years of existence. For most of this time, it was an individual pursuit defined by infrequent postal communication. But recently, three more developmental generations have emerged, supported by television and radio conferencing and computer conferencing. The early 21st century has produced a fifth generation based on autonomous agents and intelligent database-assisted learning that has been referred to as Web 2.0. The second edition of The Theory and Practice of Online Learning features updates in each chapter plus four new chapters on current distance education issues such as connectivism and social software innovations. **BOOK JACKET** **The Wrestler's Body** Joseph S. Alter, 1992-08-03 The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara or gymnasium where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health.
