Kafka And Nietzsche:

Angels of Daring Marion Faber, 1979 *Nietzsche and the End of Freedom* James M. Hawes, 1993 Nietzsche's writing is not some game of freeplay and terms like intertextuality are useless in discussing its influence This study takes Nietzsche then Kafka's Trial Thomas Mann's Death in Venice Heinrich Mann's Man of Straw Rilke's Malte Laurids Brigge and Musil's Tressless It argues that Nietzsche mediates and modernises the dilemmas of Romanticism and that a properly differentiated account of his literary reception can illuminate the dynamics of German culture on the eve of the Great War *Kafka and Nietzsche* Patrick Bridgwater, 1974 Dostoevsky, Kierkegaard, Nietzsche & Kafka William Hubben, 1997-05-13 How four of Europe's most mysterious and fascinating writers shaped the modern mind Dostoevsky Kierkegaard Nietzsche and Kafka were all outsiders in their societies unable to fit into the accepted nineteenth century categories of theology philosophy or belles lettres Instead they saw themselves both as the end products of a dying civilization and as prophets of the coming chaos of the twentieth century In this brilliant combination of biography and lucid exposition their apocalyptic visions of the future are woven together into a provocative portrait of modernity This small book has a depth of insight and a comprehensiveness of treatment beyond what its modesty of size and tone indicates William Hubben sees the spiritual destiny of Europe as one of transcending these masters But to be transcended their message must first be absorbed and that is why the study of them is so important to us now William Barrett The New York Times The Split Scene of Reading Sabine I. Götz, 1998 The Split Scene of Reading makes a contribution of considerable magnitude to several areas of contemporary scholarship the theorization of textuality reference gender and subjecthood By considering the interaction of actual subjects and representation Götz also addresses a crucial and under theorized juncture at the heart of cultural studies She also makes significant and thought provoking contributions to the critical literatures on Nietzsche Kafka and Derrida

Nietzsche and Jewish Culture Jacob Golomb, 2002-01-04 Friedrich Nietzsche occupies a contradictory position in the history of ideas he came up with the concept of a master race yet an eminent Jewish scholar like Martin Buber translated his Also sprach Zarathustra into Polish and remained in a lifelong intellectual dialogue with Nietzsche Sigmund Freud admired his intellectual courage and was not at all reluctant to admit that Nietzsche had anticipated many of his basic ideas This unique collection of essays explores the reciprocal relationship between Nietzsche and Jewish culture It is organized in two parts the first examines Nietzsche's attitudes towards Jews and Judaism the second Nietzsche's influence on Jewish intellectuals as diverse and as famous as Franz Kafka Martin Buber Franz Rosenzweig and Sigmund Freud Each carefully selected essay explores one aspect of Nietzsche's relation to Judaism and German intellectual history from Heinrich Heine to Nazism Dostoevsky, Kierkegaard, Nietzsche and Kafka William Hubben, 1997 **Decadence of the French Nietzsche** James Brusseau, 2006-01-01 In Decadence of the French Nietzsche author James Brusseau describes how and why French Nietzscheanism is contorting into decadence where philosophy is dedicated to the intensification of thought and the

degradation of stolid truth **Nietzsche: Imagery and Thought** Malcolm Pasley, 2010-11-01 The central theme of this collection of essays first published in 1978 is the basic tension in Nietzsche and so in his work between the urge to weave a satisfying web out of reality and the equally strong compulsion to expose its painful truths The book aims to stress not to play down the embarrassing and fruitful fact that he cannot be neatly pigeonholed either as a literary figure or as a professional philosopher The book meets a long felt need for a study in English of both the literary and the philosophical aspects of Nietzsche's work based on his authentic texts and will be welcomed by all students of modern European thought and Literature Kafka's Architectures Ayad B. Rahmani, 2015-01-02 Adopting Kafka as a lens to examine modern concepts in architecture this book pries open new interpretations in Kafka scholarship Each of eight chapters takes up an architectural element with which to explore meanings central to both literature and architecture Stairs function as vertical access but in Kafka's hands become an instrument of science testing the merit of natural selection Kafka's doors open and close less to allow passage than to reconcile one psychological interior with the next Notions of plumbing and hygiene begin to acquire new meaning The architecture of Mies van der Rohe begins to make more sense especially his tabula rasa approach to design signifying less a harsh disdain for site and more a response to a reality in which the ceremony of the stairs had died and was replaced by the pervasive flatness of the modern floor **Four Prophets of Our Destiny** William Hubben, 1952 Donated by Sydney Harris Constructive Destruction Richard T. Gray, 2012-01-02 The study presents a thorough investigation of Kafka's aphoristic writings examining them in terms of the history of the aphorism in Germany and paying special regard to Kafka's contemporary Austrian aphorists Emphasis is placed on the role of the aphorism in the development of Kafka's literary creativity Aphoristic discourse presented itself to Kafka as a possible manner of resolving specific conflicts in his life and art above all the crisis of communication the individuality of the self Aphoristic structure provides the transitional link between Kafka's early perspectivistic narratives and the parables of the later period Kafka's Social Discourse Mark E. Blum, 2011-05-12 Franz Kafka is among the most significant 20th century voices to examine the absurdity and terror posed for the individual by what his contemporary Max Weber termed the iron cage of society Ferdinand Tönnies had defined the problem of finding community within society for Kafka and his peers in his 1887 book *Gemeinschaft und Gesellschaft* Kafka took up this issue by focusing upon the social discourse of human relationships In this book Mark E. Blum examines Kafka's three novels *Amerika* *The Trial* and *The Castle* in their exploration of how community is formed or eroded in the interpersonal relations of its protagonists Critical literature has recognized Kafka's ability to narrate the gestural moment of alienation or communion This social discourse was augmented however by a dimension virtually no commentator has recognized Kafka's conversation with past and present authors Kafka encoded authors and their texts representing every century of the evolution of modernism and its societal problems from Bunyan and Defoe through Pope and Lessing to Fontane and Thomas Mann The intertextual conversation Kafka conducted can enable us to appreciate the profound human

problem of realizing community within society Cultural historians as well as literary critics will be enriched by the evidence of these encoded cultural conversations Kafka's Imperial Messenger may finally be heard in the full history of his emanations Kafka encoded not only past authors but painters as well Kafka had been known as a graphic artist in his youth and was informed by expressionism and cubism as he matured Kafka's encodings of literature as well as fine art are not solely of the work to which he refers but the community of authors or painters and their success or failure of community Kafka's encodings were meant as an extra textual readings for astute readers but also as a lesson to his fellow authors whom he held accountable in his correspondence as cultural messengers

Kafka's Creatures Marc Lucht, Donna Yarri, 2010-06-22 There are few literary authors in whose work animals and other creatures play as prominent a role as they do in Franz Kafka's Exploring multiple dimensions of Kafka's incorporation of nonhuman creatures into his writing this volume is the first collection in English of essays devoted to illuminating this important and ubiquitous dimension of his work The chapters here are written by an array of international scholars from various fields and represent a diversity of interpretive approaches In the course of exploring the roles played by nonhuman animals and other creatures in Kafka's writing they help make sense of the literary and philosophical significance of his preoccupation with animals and make clear that careful investigation of those creatures illuminates his core concerns the nature of power the inescapability of history and guilt the dangers promise and strangeness of the alienation endemic to modern life the human propensity for cruelty and oppression the limits and conditions of humanity and the risks of dehumanization the nature of authenticity family life Jewishness and the nature of language and art Thus the essays in this volume enrich our understanding of Kafka's work as a whole Especially striking is the extent to which the articles collected here bring into focus the ways in which Kafka anticipated many of the recent developments in contemporary thinking about nonhuman animals

Kafka's Monkey and Other Phantoms of Africa Seloua Luste Boulbina, 2019-05-24 Even though many of France's former colonies became independent over fifty years ago the concept of colony and who was affected by colonialism remain problematic in French culture today Seloua Luste Boulbina an Algerian French philosopher and political theorist shows how the colony's structures persist in the subjectivity sexuality and bodily experience of human beings who were once brought together through force This text which combines two works by Luste Boulbina shows how France and its former colonies are haunted by power relations that are supposedly old history but whose effects on knowledge imagination emotional habits and public controversies have persisted vividly into the present Luste Boulbina draws on the work of Michel Foucault Frantz Fanon and douard Glissant to build a challenging original and intercultural philosophy that responds to blind spots of inherited political and social culture Kafka's Monkey and Other Phantoms of Africa offers unique insights into how issues of migration religious and ethnic identity and postcolonial history affect contemporary France and beyond

Franz Kafka Stanley Corngold, Benno Wagner, 2011-08-30 It is widely acknowledged that Kafka's daytime occupation as a specialist in industrial accident insurance contributed in a significant

way to his fiction Corngold and Wagner frame Kafka's writings as cultural events each work reflecting the economic and cultural discourses of his epoch In pursuing Kafka's avowed interest in the theory and practice of insurance the authors view the two systems of his literary worlds the official and the personal as a bundling together of the various cultural accidents of Kafka's time The work of two of the leading scholars of the single most influential writer of literary modernity Franz Kafka *The Ghosts in the Machine* constitutes a breathtakingly original advance in the study of both the more famous and less well known works of this enigmatic master From publisher description **Dialectics and Nihilism** Peter Heller, 1966

Nietzsche's Nihilism in Walter Benjamin Mauro Ponzi, 2016-11-21 This book reconstructs the lines of nihilism that Walter Benjamin took from Friedrich Nietzsche that define both his theory of art and the avant garde and his approach to political action It retraces the eccentric route of Benjamin's philosophical discourse in the representation of the modern as a place of permanent catastrophe where he attempts to overcome the Nietzschean nihilism through messianic hope Using conventions from literary criticism this book explores the many sources of Benjamin's thought demonstrating that behind the materialism which Benjamin incorporates into his *Theses on the Concept of History* is hidden Nietzsche's nihilism Mauro Ponzi analyses how Benjamin's *Arcades Project* uses figures such as Baudelaire Marx Aragon Proust and Blanqui as allegories to explain many aspects of modernity The author argues that Benjamin uses Baudelaire as a paradigm to emphasize the dark side of the modern era offering us a key to the interpretation of communicative and cultural trends of today **Thinking Without**

Desire Panu Minkkinen, 1999-10-06 The book attempts to evaluate the reception of Continental philosophy phenomenology hermeneutics deconstruction within mainstream jurisprudence **Permanent Liminality and Modernity** Arpad Szokolczai, 2016-10-04 This book offers a comprehensive sociological study of the nature and dynamics of the modern world through the use of a series of anthropological concepts including the trickster schismogenesis imitation and liminality Developing the view that with the theatre playing a central role the modern world is conditioned as much by cultural processes as it is by economic technological or scientific ones the author contends the world is to a considerable extent theatrical a phenomenon experienced as inauthenticity or a loss of direction and meaning As such the novel is revealed as a means for studying our theatricalised reality not simply because novels can be understood to be likening the world to theatre but because they effectively capture and present the reality of a world that has been thoroughly theatricalised and they do so more effectively than the main instruments usually employed to analyse reality philosophy and sociology With analyses of some of the most important novelists and novels of modern culture including Rilke Hofmannsthal Kafka Mann Blixen Broch and Bulgakov and focusing on fin de siècle Vienna as a crucial threshold chronotope of modernity *Permanent Liminality and Modernity* demonstrates that all seek to investigate and unmask the theatricalisation of modern life with its progressive loss of meaning and our deteriorating capacity to distinguish between what is meaningful and what is artificial Drawing on the work of Nietzsche Bakhtin and Girard to examine the ways in which novels explore the reduction of human existence to a

state of permanent liminality in the form of a sacrificial carnival this book will appeal to scholars of social anthropological and literary theory
