Kartochnye Igry:

Life Is Elsewhere Anne Lounsbury, 2019-11-15 In *Life Is Elsewhere* Anne Lounsbury shows how nineteenth century Russian literature created an imaginary place called the provinces a place at once homogeneous static anonymous and symbolically opposed to Petersburg and Moscow Lounsbury looks at a wide range of texts both canonical and lesser known in order to explain why the trope has exercised such enduring power and what role it plays in the larger symbolic geography that structures Russian literature's representation of the nation's space Using a comparative approach she brings to light fundamental questions that have long gone unasked how to understand for instance the weakness of literary regionalism in a country as large as Russia Why the insistence from Herzen through Chekhov and beyond that all Russian towns look the same In a literary tradition that constantly compared itself to a western European standard Lounsbury argues the problem of provinciality always implied difficult questions about the symbolic geography of the nation as a whole This constant awareness of a far off European model helps explain why the provinces in all their supposed drabness and predictability are a topic of such fascination for Russian writers why these anonymous places are in effect so important and meaningful notwithstanding the culture's nearly unremitting emphasis on their nullity and meaninglessness Open Access edition funded by the National Endowment for the Humanities

Politics of Energy Dependency Margarita M. Balmaceda, 2014-01-31 Energy has been an important element in Moscow's quest to exert power and influence in its surrounding areas both before and after the collapse of the USSR With their political independence in 1991 Ukraine Belarus and Lithuania also became virtually overnight separate energy poor entities heavily dependent on Russia This increasingly costly dependency and elites scrambling over associated profits came to crucially affect not only relations with Russia but the very nature of post independence state building *The Politics of Energy Dependency* explores why these states were unable to move towards energy diversification Through extensive field research using previously untapped local language sources Margarita M Balmaceda reveals a complex picture of local elites dealing with the complications of energy dependency and in the process affecting the energy security of Europe as a whole A must read for anyone interested in Eastern Europe Russia and the politics of natural resources this book reveals the insights gained by looking at post Soviet development and international relations issues not only from a Moscow centered perspective but from that of individual actors in other states

Tolstoy and the Religious Culture of His Time Inessa Medzhibovskaya, 2009-07-15 The first book length study on the subject in any language *Tolstoy and the Religious Culture of His Time* treats Tolstoy's experience as a massive philosophical and religious project rather than a crisis laden tragedy Inessa Medzhibovskaya explains the evolution of Tolstoy's religious outlook based on his ongoing dialogue with the tradition of conversion in Europe and Russia as well as on the demands of his own heart mind and spirit The author contextualizes Tolstoy's conversion comparing his pattern of religious conversion with that of other notable religious converts Saint Paul Saint Augustine Luther Pascal Rousseau as well with that of Tolstoy's

countrymen Pushkin Gogol Chaadaev Stankevich Belinsky Herzen and Dostoevsky Stressing the importance of the religious culture of his time for Tolstoy this study investigates the nineteenth century debates that inspired and repelled Tolstoy as he weighed arguments for or against faith in his dialogues with the culture of his time covering widely differing fields and disciplines of experimental knowledge The author considers German Romantic philosophy the natural sciences pragmatist religious solutions theories of social progress and evolution and the historical school of Christianity Medzhibovskaya stresses the fact that influential intellectual currents were as important to Tolstoy as believers and nonbelievers were from and beyond his immediate environment The author argues that in this sense Tolstoy s conversion emerges as deeply intertextual and this surprising discovery should not diminish our trust in Tolstoy s sincerity during his religious evolution which occurred both spontaneously as well as deliberately The polyphony of discreet spiritual moments that Tolstoy created by fusing in his narratives of conversion religious and artistic realms is arguably his greatest contribution to spiritual autobiography
