Encyclopaedia of the the Divine Masculine God of 10,000 Names Tamara Von Forslun,2021-11-18 The idea of religion has been around since the beginning of mankind when man saw something bigger and grander than themselves They saw an immense building block of creation and re creation in all aspects of nature It was the ancient Shamans that created the first structures that we call religion But these were set upon rules and laws of Nature based on birth life fertility truth faith magic death love and rebirth From this the Divine was born with the images of their surroundings and above these images were the Divine Masculine and the Divine Feminine and these great Ancient Beings spoke to the Shamans the Priests of Old and guided their footsteps who in turn guided their community The reality is that now man has created a myriad of gods in each and every country culture and community and through time these spiritual Shamans have shared their truth with all of mankind upon their many travels and so religion spread and the names of their deities also spread to create the diversity all over the world where instead of a god being known just to a set area and community that he has now been shared and adopted all over the world by those who were searching and believe they found their fit The reality is that God is Deity has always been about bringing likeminded people together without judgement segregation and distrust It is about tolerance acceptance faith trust love peace harmony truth and the bigger picture of Divine Oneness This book features thousands of gods from every land culture and belief system that were needed to bring man into the 21st Century Do we still need thousands of deities That can only be answered by yourself when you find your god or goddess Please delve into the history and variations of deities as they take you back into the past of your ancestors and hopefully bring you closer to yourself your Truth and that spiritual connection to your god in the 21st century no matter what name he is known **Encyclopaedia of Religion and Ethics: Burial-Confessions** James Hastings,John Alexander Selbie,1913 **Equality of Women and Men**

Reynaldo Pareja, We are witnessing today women being elected as presidents or prime ministers women that have been awarded Nobel prizes that perform exceedingly in sports winning Olympic medals women that excel in art that have defended the rights of the oppressed that have gone to space that are active in politics and are CEOs of businesses and corporations Women today are found in the most difficult jobs such as urgency paramedics workers in heavy machinery factories and in the construction of skyscrapers they are in research laboratories or as members of toxic materials management teams This was not the scenario 175 years ago On the contrary women since the cave times until the dawn of the twentieth century have been oppressed by the fact they were born as women Social cultural economic and political roles defined by men in those times obliged women to stay at home raising children without being allowed to aspire to play a significant role in the development of the economic civic and religious life of their communities The explosion of women participating today in the social political and economic arenas of the advanced countries might give the impression that this was their situation in the past Not true This modern movement of women engaged in a tenacious struggle for equality with men has given them unquestionable victories and a powerful consciousness of their role in the unfolding of a new and powerful history Their victories in many occasions were acquired in open confrontation with men who did not want to accept they had inherent rights It has been a slow process that has demanded extraordinary effort from women all over the world We are just beginning to witness the potential that women have and we can foresee the brilliant future they are going to create for humanity Appreciating defending and promoting this evolution is an invitation to participate with them in this extraordinary journey destined to be a magnificent stage of evolution for the benefit of all of humanity
