Biblical Errancy Norman L. Geisler, 2004-08-04 Philosophy has given us insights into the reflections of thinkers on such subjects as God mankind the world and the possibility of knowing ultimate reality The processes of reasoning and the conclusions of logic are often intensely fascinating Dr Geisler reminds us however that the premises and the arguments of philosophy are often faulty leading to a wholly inadequate view of knowledge and revelation He reiterates Paul's warning to the Colossian Christians See to it that no one takes you captive through hollow and deceptive philosophy The contributors to this volume show how the basic presuppositions of many philosophers lead to a denial of a divine inerrant revelation The views of some modern theologians regarding revelation find their roots in such deceptive philosophy Chapter titles are Inductivism Materialism and Rationalism Bacon Hobbes and Spinoza Norman L Geisler Skepticism Hume Gary R Habermas Agnosticism Kant W David Beck Transcendentalism Hegel Winfried Corduan Existentialism Kierkegaard E Herbert Nygren Atheism Nietzsche Terry L Miethe Noncognitivism Wittgenstein John S Feinberg Mysticism Heidegger Howard M Ducharme Jr

Biblical Errancy , The Christian Delusion John W. Loftus, 2010-04-20 In this anthology of recent criticisms aimed at the reasonableness of Christian belief a former evangelical minister and apologist author of the critically acclaimed *Why I Became an Atheist* has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in his first book *Central* is a defense of his outsider test of faith arguing that believers should test their faith with the same skeptical standards they use to evaluate the other faiths they reject as if they were outsiders Experts in medicine psychology and anthropology join Loftus to show why when this test is applied to Christianity it becomes very difficult to rationally defend Collectively these articles reveal that popular Christian beliefs tend to rely on ignorance of the facts Drawing together experts in diverse fields including Hector Avalos Richard Carrier David Eller and Robert Price this book deals a powerful blow against Christian faith

Failed God John A. Rush, 2019-04-16 On a 2001 trip to the cathedrals of Europe anthropologist John Rush and his wife entered St Mark's Basilica in Venice and encountered a mosaic depicting Jesus surrounded by mushrooms with an *Amanita muscaria* cap in his hand Examining the space with new eyes they discovered images of mushrooms and mind altering plants all over the Basilica Intrigued Dr Rush spent seven years researching and reflecting on the profound effects hallucinogens had on the founding of all three major Western religions He concluded that Judaism Christianity and Islam are political constructions evolving out of the use of not only *Amanita muscaria* but a plethora of mind altering substances *Failed God* *Fractured Myth in a Fragile World* re examines the scriptural stories of Judaism Christianity and Islam as told in the Bible and Quran and reveals them as concocted mythical charters stemming from drug induced romps with the super natural Rush shows how mind altering substances played an instrumental role in the birth and development of Western religions and explains how they contributed to reports of prophetic experiences including angry and disturbing messages from the divine With chapters on Judaism Christianity and Islam Rush fully addresses the effects of mind altering substances on each tradition convincingly discrediting the idea that they stem from actual human interaction with the divine He also shows how an intoxicated and over zealous Apostle Paul corrupted Jesus's simple message of human decency forming an oppressive religious system based on fear In a thought provoking conclusion Rush asks how we can continue to attribute authority to traditions that were so clearly irrationally founded and incompatible with today's world

Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman

Cone and Jones the present book functions as a corrective to this scholarly lacuna **In His Name** E Christopher Reyes, 2018-03-24 In His Name is a research into biblical history its ramifications on the thinking of mankind and its continuous alterations that serve the few **222 Bible Mysteries SOLVED by Islam** Mohamed Moussa Ghounem, 2022-12-17 Can Comparative Religion Be Fair Peace be upon you brothers and sisters Loving Humanity Empathy for our Afterlife Dueling with deceit are just a few of the reasons one may have Passion for Comparative Religion Comparing Scriptures with Rabbis Priests Preachers Presidents of Evangelist Colleges for decades you come to the realization that Comparative Religion Appears Fair but is Far from having Equivalent Language and Time Requirements The Three Abrahamic Religions Judaism Christianity and Islam are not Linguistically Equal The Language Requirements of Christianity are Absolutely Unique to Judaism and Islam Christianity has Relaxed Requirements in Respects to Language Bibles are Accepted in All Languages as the exact Authentic words of God Compared to Judaism and Islam who have the Rigorous Requirement that Scripture is only Authentic in the Original Language The linguistic inequality is unfair to Christianity because the Gospel was not Preserved in its original language Aramaic and we only have the translated Greek Early Greek Christians had a business mentality towards Religion Removing nearly every Requirement to join Christianity except 10% of our income Tithes The Greek business approach to religion didn't foresee the consequences of not maintaining Requirements set by God Instead Christianity was offered as an Easy Religion 1 No Requirements to Learn a new language to Read Hear the Exact words of God instead any Every language was anointed and accepted as authentic 2 No Requirements to follow the Laws of Moses All sins are forgiven if you accept someone else died for you 3 Holidays such as Christmas Easter are researched and focused on and Multiple Christmas songs memorized more than any page in the Bible 4 Jesus was redesigned to resemble the Greeks more than the Hebrews and his original language words requiring works in Aramaic were destroyed and only the Greek Gospels remain Changing Christianity into an Easy religion to have Mass appeal has expanded Christianity to be the Largest Religion but all calculations and censuses forecast more Muslims than Christians by 2075 If we calculate Either Catholics or Protestants then Islam is already the largest religion compared to each proving being Easier does not Prevail being Truthful Removing the original Language Requirement is the same as Removing the Requirement to be Authentic giving Christianity a disadvantage when being compared to Judaism and Islam For example On average every 50 years a different English Bible with a different name different words from a different Church is Published and accepted by divisions of Christians as the exact words of God Christians Relaxing the language and law requirements Worldwide has spawned unlimited Bibles in different languages conflicting with each other because languages can't be perfectly translated forming hundreds of errors hundreds of Christian sects corruption scandal and closures in many Churches Comparative Religion is not fair because Christians have an Ocean of Bible translations multiplying the cannons for the critics of Christianity to list grammatical copyist and translation errors from 40 times more content compared to Judaism or Islam For

Example The King James Bible may have its own hundreds of Bible mysteries anomalies etc then the opponent of Christianity can find dozens of more errors in the Good News Bible New International Bible New Revised Standard Bible etc Just in English there are 40 differing Bibles each with their own issues because all of them are considered authentic we can add all the Hundreds of Errors from all 40 Bibles giving an unfair advantage to any Jew or Muslim questioning a Christian Because Christians forfeit the requirement of one Authentic language to Read and Hear Scripture Exactly as said from God Christians also surrender being able to say the Bibles are anything other than translations All Translations Translators humans make errors therefore even if each English Bible only had 1 single error a rival of Christianity can add all 40 Bibles to contend with Christianity or even worse avoid our Creator Christians will never win a Religious debate because of the Bible weakness of Language The original language Aramaic of their deity Jesus is extinct instead their translations are based on Greek and German into English shifting the entire meaning of Jesus from the Hebrew Moses to Greek Zeus The second reason the language requirement makes comparative religion unfair for Christians when debating Jews or Muslims is because of Hebrew or Arabic to English Dictionaries If a Christian Questions an anomaly in a English translation of the Torah or Quran a Jew or Muslim can simply Show from Any Hebrew or Arabic to English dictionary any one of the dual meanings of any words in question thus giving Jews and Muslims Unlimited Correct and Verifiable Answers Christians neither have an Original Aramaic to English dictionary or the Aramaic verses to try to defend mistranslated Greek to German to English Bible words and furthermore Christians are sold the English Bible as the exact words of God Admitting the English Bible is mistranslated and to try to extract a Greek root word is why it s not fair comparing Scriptures because Christians instantly admit and even put it in writing in nearly every Bible commentary that the English Bible has translation copyist grammatical errors In summary Christians removing the one language requirement and also removing the original language opens Christianity to a growing number of skeptics towards the English Bible that just by defending it with the Greek root admits the English Bible is not Devine Keeping the Language Requirements Shields Jews and Muslims from translation critiques because only the Hebrew or Arabic are Accepted as Authentic not the translations Additionally Jews and Muslims have an unlimited amount of translation dictionaries to defend Torah or Quran English mistranslations unlike the Christians For Jews and Muslims the English Translations of the Torah and Quran are only tools to Understand the Original Holy Scriptures The English translations are not considered Holy as in Christianity God Saved the Christian Bible by Sending the Holy Quran in Arabic 632 Ad just 300 years after the Aramaic Bibles were destroyed by the Greek Christian council in 325 Ad nearly 300 years after Jesus The Holy Quran in Arabic is a relative language to the Middle Eastern Aramaic and has been accepted worldwide by more than a Billion followers and for hundreds of miles in any direction where Jesus was born and preached in Aramaic we have converted to Islam and pray in Arabic continuing the Authentic Abrahamic Faith Jewish Scripture is also not fair for Muslims to compare because unlike the disadvantages of Language in Christianity Jews have the Disadvantages of Time 1

Time Verses Nature Very Devout Generations of Jews have Preserved Scriptures for Centuries Copying Hundreds of Scrolls for Hundreds of years using candles bird feathers crossing Seas Exodus 14 21 Being Lost in the Wilderness for 40 years Numbers 14 20 22 Multiple Genocides and Battles Israelites in the Bible have been attacked 52 times captured and recaptured 44 times besieged 23 times and destroyed twice Effecting the quality of Jewish Scripture during 6 000 years For Example The Horrible Nazi Holocaust that killed millions of Jews was less than 100 years ago and had a major impact on Jewish artifacts some belongings from 1933 are still being probed How Fair would it be to compare Jewish documents that suffered nearly 60 Multitudes of Holocausts during 6 000 years averaging one Holocaust nearly every 100 years according to Bible statistics Compared to the Holy Quran that was written and preserved within 20 years with zero Holocausts 2 Time Verses Temptation Jewish Scribes had the Massive Responsibility of passing and teaching the Torah to their children and Community for hundreds of years Tolkien wrote about Hobbits in Lord of the Rings having a similar wrenching struggle to resist putting a human touch on the Devine graphically displaying the Pressure to Resist the Temptation of Power The discipline to Keep God great and humans humble in Jewish Scripture For Centuries was perhaps unbearable to some Jewish Rabbis some even confessed their deceit Jeremiah 8 8 Jewish Scribes Endured Resisting power for centuries more than Any Religion Rome Riyadh both have many billionaires who benefit from being in vicinity to religious capitals the Jews struggled with greed for twice as long as Christianity and Islam combined The Battle of shifting power and resources from the people to the Pope from Prophets to rabbis from Muslims to monarchs is a timeless struggle that Jews the Torah has had to endure longer than any other religions 3 Time Verses Science Jewish scribes had the disadvantage of writing scripture during a time of minimal Scientific understanding or discovery Contending with both what their eyes could see and believe and risking deadly persecution by fire or decapitation if the Jewish scribes crossed established societal scientific norms thousands of years ago such as The Earth being the center of the universe Psalms 96 10 the Earth being Flat Isaiah 11 12 the Sun and Moon being equal lights each turning on depending on the time of day Genesis 1 16 just to list a few Thus Comparative Religion is not fair Debating Jews and Christians is not fair the Debates may seem fair because the Jews and Christians usually speak better English they Usually look like Harvard Professors compared to the average Muslim looking foreign and many people are swayed by appearance and phonics thus the debates seem somewhat fair but decades later you realize they are anything but fair So what do we do other than debate We Teach Teach Jews and Christians how the **200+ Ways the Quran Corrects the Bible** Mohamed Ghounem,2003 From America to Israel Europe to Africa discover how God is uniting Christians and Jews worldwide as Muslims Witness how the Koran answers Gospel and Torah difficulties Islam is the fastest growing religion in the world in this book you will learn why The path to Heaven is now illuminated more than ever The Philosophy of Taxation and Public Finance Robert W. McGee,2011-06-27 Most public finance books are texts which are aimed at undergraduate or graduate students They are overly technical in nature and appeal only to a narrow range of bureaucrats

and academics Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients Philosophy books on taxation or public finance simply do not exist The Philosophy of Taxation and Public Finance is different It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights He discusses questions such as What arguments have been used to justify taxation When is tax evasion unethical Are some taxes better than others What are the proper functions of government How much is enough Is the ability to pay concept valid When can punitive taxes be justified The Smartest Religion Mohamed Moussa Ghounem,2022-12-17

A peaceful and righteous approach to theology is seeing the Scriptures as a scientist sees chemistry rather than a sceptic viewing comparative religion By studying the scriptures as a chemist you can have the Albert Einstein mindset of $E=MC^2$ to see the Miracles $E=MC^2$ explains that combining elements in the process called fusion produces miraculous energy such as the Sun With everything around us related to science and chemistry why wouldn't our Creator provide us with scriptures to combine together like the elements to produce miraculous Truth As Dmitri Mendeleev revolutionized Chemistry by publishing the first periodic table of the chemical elements in 1869 he noted gaps in the table and predicted that as yet unknown elements existed with properties appropriate to fill those gaps Each element has a unique number of protons and neutrons that gives the element an identifying number on the periodic chart Mendeleev saw that numbers were missing in the patterned chart he created thus concluding there were still elements to be discovered By objectively studying Holy Scriptures at the molecular level we can see similar patterns of missing elements that this book proves the Qur'an has the missing elements for filling the gaps in Religious texts **The Myth of an Afterlife** Michael Martin,Keith

Augustine,2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In *The Myth of an Afterlife: The Case against Life after Death* Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily

resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary The Myth of an Afterlife The Case against Life after Death brings together a variety of fields of research to make that case including cognitive neuroscience philosophy of mind personal identity philosophy of religion moral philosophy psychical research and anomalistic psychology As the definitive casebook of arguments against life after death this collection is required reading for any instructor researcher and student of philosophy religious studies or theology It issues to raise provocative issues new to readers regardless of background from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter

The Twelve Gates John A. Rush, 2019-08-07
