Pathologic Findings in Stranded Marine Mammals: A Global Perspective Gregory Dana Bossart, Alvin Cyril Camus, Debra Lee Miller, Stephen Raverty, 2022-02-09 This project is posthumously dedicated to Dr Gregory Dana Bossart Whether you knew him as colleague mentor friend family member or simply knew of him you could not help but be awestruck by his dedication intelligence thoughtfulness work ethic and passion for scientific inquiry especially for conservation of the marine environment Many of his publications were seminal in marine mammal health including infectious environmental and zoonotic diseases As we collected manuscripts for this special Frontiers edition it was heartwarming to hear the comments from contributors So many research scientists field biologists and veterinarians could easily have given up and said I just can't do this now especially with the added challenges posed by the current COVID 19 pandemic Instead contributors from around the world were determined to contribute to this collection

because of their inspiration and shared commitment with Greg's vision. The love and admiration within the marine community for Greg is phenomenal. With that said, we would be remiss if we did not say a few words about Greg as a mentor and friend. Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community. He shared in their successes and worked tirelessly to facilitate their aspirations. Greg would involve students, early career scientists, and colleagues in projects, introduce them to collaborators, and promote them and their work. Greg was a genuinely caring person. When he asked you how you were doing, he honestly wanted to know. He was always there, ready to listen and provide guidance. If you were to ask Greg what was most important to him in life, he would say God, family, and marine life, and one could argue that he had a special fondness for manatees. He believed in the beauty of nature and that God had a hand in all of it. He was in pursuit of ensuring that we all share this earth responsibly and sustainably. We miss Greg dearly but honor and celebrate him as we carry on in our pursuits. **Marine Mammals Ashore** Joseph R.

Geraci, Valerie J. Lounsbury, 2005 Comprehensive manual for understanding and carrying out marine mammal rescue activities for stranded seals, manatees, dolphins, whales, or sea otters. *Reproductive Biology and Phylogeny of Cetacea: Whales, Porpoises and Dolphins* Debra Lee Miller, 2016-04-19. There are over 80 species of cetaceans composed of porpoises, dolphins, and whales. This volume represents the latest of published and previously unpublished. **An Introduction to Marine Mammal Biology and**

Conservation Simmonds, M.P., Bauer, A., Parsons, E.C.M., Wright, A.J., McCafferty, D., 2013. The charismatic mammals that live in the ocean are a constant source of interest both for scientists and our society at large. Their biology, behavior, and conservation are of utmost importance as a vast number of species are currently threatened. Intended for the upper level undergraduate or graduate student within biology, marine biology, or conservation environmental science, *An Introduction to Marine Mammal Biology and Conservation* provides a broad introduction to marine mammal biology using cutting edge information and student friendly learning tools. The text begins with chapters on the evolution and classification of marine mammals and their general biology. It moves on to discuss the behavior and ecology of different groups of marine mammals such as polar bears, otters, and cetaceans. Part 3 dives into many different conservation issues facing marine mammals as well as discussions on how they can be addressed. Closing chapters provide information on how scientists study marine mammals, how society can enjoy observing the animals while making sure they are preserved, and a word to students looking to pursue a career with marine mammals. **Marine Conservation** P. Keith Probert, 2017-07-06. Providing a comprehensive account of
