**Food Pedagogies** Dr Elaine Swan,Dr Rick Flowers,2015-12-28 In recent years everyone from politicians to celebrity chefs has been proselytizing about how we should grow buy prepare present cook taste eat and dispose of food In light of this contributors to this book argue that food has become the target of intensified pedagogical activity across a range of domains including schools supermarkets families advertising and TV media Illustrated with a range of empirical studies this edited and interdisciplinary volume the first book

on food pedagogies develops innovative and theoretical perspectives to problematize the practices of teaching and learning about food While many different pedagogues policy makers churches activists health educators schools tourist agencies chefs think we do not know enough about food and what to do with it the aims effects and politics of these pedagogies has been much less studied Drawing on a range of international studies diverse contexts genres and different methods this book provides new sites of investigation and lines of inquiry As a result of its broad ranging critical evaluation of food as classroom and food as teacher it provides theoretical resources for opening up the concept of pedagogy and assessing the moralities and politics of teaching and learning about food in the classroom and beyond

***Alcohol: No Ordinary Commodity*** Thomas F. Babor, Sally Casswell, Kathryn Graham, Taisia Huckle, Michael Livingston, Esa Österberg, Jürgen Rehm, Robin Room, Ingeborg Rossow, Bundit Sornpaisarn, 2022-10-31 *Alcohol No Ordinary Commodity* is a collaborative effort by an international group of addiction scientists to improve the linkages between addiction science and alcohol policy It presents in a comprehensive practical and readily accessible form the accumulated scientific knowledge on alcohol research that has a direct relevance to the development of alcohol policy on local national and international levels It provides an objective basis on which to build relevant policies globally and informs policy makers who have direct responsibility for public health and social welfare By locating alcohol policy primarily within the realm of public health this book draws attention to the growing tendency for governments both national and local to consider alcohol misuse as a major determinant of ill health and to organize societal responses accordingly The scope of the book is comprehensive and global The authors describe the conceptual basis for a rational alcohol policy and present new epidemiological data on the global dimensions of alcohol misuse The core of the book is a critical review of the cumulative scientific evidence in seven general areas of alcohol policy pricing and taxation regulating the physical availability of alcohol modifying the environment in which drinking occurs drinking driving countermeasures marketing restrictions primary prevention programs in schools and other settings and treatment and early intervention services The final chapters discuss the current state of alcohol policy in different parts of the world and describe the need for a new approach to alcohol policy that is evidence based global and coordinated A valuable resource for those involved in addiction science and drug policy as well as those in the wider fields of public health health policy epidemiology and practising clinicians

**Addiction and Choice** Nick Heather, Gabriel Segal, 2017 Views on addiction are often polarised either addiction is a matter of choice or addicts simply can't help themselves But perhaps addiction falls between the two This book contains views from philosophy neuroscience psychiatry psychology and the law exploring this middle ground between free choice and no choice

***Alcohol: No Ordinary Commodity*** Thomas Babor, 2010-02-25 From a public health perspective alcohol is a major contributor to morbidity and mortality and impacts on many aspects of social life This text describes advances in alcohol research with direct relevance to the development of effective policies at local national and international level

**A public health perspective on alcohol establishments: licensing, density and locations.**

**Policy brief. Brief 8, November 2022** World Health Organization, 2022-11-11 Strengths-Based Approaches to Crime and Substance Use David Best, Charlotte Colman, 2019-09-30 Although there is a strong and growing literature in the two areas of desistance and addiction recovery they have developed along parallel pathways with little systematic assessment of the empirical evidence about the co occurrence of the relationship or how one area can learn from the other This book aims to fill that gap by bringing together emerging literature on the relationship between offending and substance use Instead of focusing on the active period of its onset and persistence this book examines the mechanisms that support desistance addiction recovery and the common themes of reintegration and rehabilitation With contributions from a wide range of international experts in the fields of desistance and addiction recovery the book focuses on a strengths based relational and community focused approach to long term change in offending and drug using populations as well as the shared barriers to effective reintegration for both This book will be highly informative for a wide audience from academics and students interested in studying desistance and recovery to those working in addiction services and the criminal justice system as well as policy makers and the people undertaking their own journeys to desistance and recovery

**Substance Misuse in Primary Care** Rosie Winyard, 2005 The unique theme of this book is multidisciplinary partnership *Youth Drinking Cultures in a Digital World* Antonia Lyons, Tim McCreanor, Ian Goodwin, Helen Moewaka Barnes, 2017-02-24 Social media has helped boost the culture of intoxication a central aspect of young people s social lives in many Western countries Initial research suggests that these technologies enable highly nuanced targeted marketing and innovations creating new virtual spaces that alter the dynamics and consequences of drinking cultures in significant ways *Youth Drinking Cultures in a Digital World* focuses on how pervasive social networking technologies contribute to drinking cultures It brings together international contributions from leading researchers in this emerging field to explore how new technologies are reconfiguring the key themes traditional interests practices and concerns of alcohol related research with young people It is particularly concerned with three important areas namely identities social relations and power alcohol marketing and commercialisation public health and regulating alcohol promotion This innovative book includes original research and commentary and is a must read for academics and researchers in the areas of public health psychology sociology media studies youth studies and alcohol studies

*Genetic Influences on Addiction* James MacKillop, Marcus R. Munafo, 2013-12-13 A comprehensive review of research examining intermediary mechanisms to understand the link between genetic variation and addiction liability Although there is scientific consensus that genetic factors play a substantial role in an individual s vulnerability to drug or alcohol addiction specific genetic variables linked to risk or resilience remain elusive Understanding how genetic factors contribute to addiction may require focusing on intermediary mechanisms or intermediate phenotypes that connect genetic variation and risk for addiction This book offers a comprehensive review of this mechanistic centered approach and the most promising intermediate phenotypes identified in empirical research The contributors first consider

the most established findings in the field including variability in drug metabolism brain electrophysiological profiles and subjective reactions to direct drug effects they go on to review highly promising areas such as expectancies attentional processing and behavioral economic variables and finally they investigate more exploratory approaches including the differential susceptibility hypothesis and epigenetic modifications Taken together the chapters offer a macro level testing of the hypothesis that these alternative mechanistic phenotypes can advance the understanding of genetic influences on addiction The book will be of interest to researchers and practitioners in a range of disciplines including behavioral genetics psychology pharmacology neuroscience and sociology Contributors John Acker Steven R H Beach Gene H Brody Angela D Bryan Megan J Chenoweth Danielle M Dick Eske D Derks Mary Anne Enoch Meg Gerrard Frederick X Gibbons Thomas E Gladwin Mark S Goldman Marcus Heilig Kent E Hutchison Hollis C Karoly Steven M Kogan Man Kit Lei Susan Luczak James MacKillop Renee E Magnan Leah M Mayo Marcus R Munaf Daria Orlowska Abraham A Palmer Danielle Pandika Clarissa C Parker Robert A Philibert Lara A Ray Richard R Reich Ronald L Simons Courtney J Stevens Rachel E Thayer Rachel F Tyndale Tamara L Wall Reinout W Wiers Michael Windle Harriet de Wit

*Chasing the Scream* Johann Hari, 2015-01-20 The New York Times Bestseller What if everything you think you know about addiction is wrong Johann Hari's journey into the heart of the war on drugs led him to ask this question and to write the book that gave rise to his viral TED talk viewed more than 62 million times and inspired the feature film *The United States vs Billie Holiday* and the documentary series *The Fix* One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to As he grew older he realized he had addiction in his family Confused not knowing what to do he set out and traveled over 30 000 miles over three years to discover what really causes addiction and what really solves it He uncovered a range of remarkable human stories of how the war on drugs began with Billie Holiday the great jazz singer being stalked and killed by a racist policeman of the scientist who discovered the surprising key to addiction and of the countries that ended their own war on drugs with extraordinary results *Chasing the Scream* is the story of a life changing journey that transformed the addiction debate internationally and showed the world that the opposite of addiction is connection

*Regulating Alcohol around the World* Tiffany Bergin, 2016-04-08 With the World Health Organization estimating that nearly four percent of global deaths are due to alcohol alcohol misuse can be an extremely damaging social problem and one that governments around the world have endeavored to address through a range of policy strategies *Regulating Alcohol around the World* explores historical and contemporary case studies in multiple countries to gain a richer understanding of the political economic and other forces that influence alcohol related policymaking The case studies presented in the book investigate a range of different kinds of alcohol policies including prohibition strategies general efforts to reduce alcohol's social harms and more targeted policies The explanatory value of leading theories from political science policy studies anthropology and other fields is assessed with particular reference to the influence of cultural and historical factors on approaches to alcohol regulation The book adopts a
