*Memorious Discourse* Christian Moraru, 2005 While other types of discourse cover up gloss over or play down what they have borrowed and therefore owe the postmodern eagerly acknowledges its textual and cultural debt Moreover it turns this indebtedness into an unexpected source of creativity and originality In his wide ranging discussion of contemporary writers and theorists Moraru notes that postmodernism characteristically re presents That is it actively remembers and to use a musical term reprises former representations These need not be infinite in number as in Borges but must be and usually are retrieved with sufficient obviousness Jacket

*The Story of "Me"* Marjorie Worthington, 2018-11-01 Autofiction or works in which the eponymous author appears as a fictionalized character represents a significant trend in postwar American literature when it proliferated to become a kind of postmodern cliché The Story of Me charts the history and development of this genre analyzing its narratological effects and discussing its cultural implications By tracing autofiction's conceptual issues through case studies and an array of texts Marjorie Worthington sheds light on a number of issues for postwar American writing the maleness of the postmodern canon and anxieties created by the supposed waning of male privilege the relationship between celebrity and authorship the influence of theory the angst stemming from claims of the death of the author and the rise of memoir culture Worthington constructs and contextualizes a bridge between the French literary context from which the term originated and the rise of autofiction among various American literary movements from modernism to New Criticism to New Journalism The Story of Me demonstrates that the burgeoning of autofiction serves as a barometer of American literature from modernist authorial effacement to postmodern literary self consciousness
