Cognition et création Mario Borillo, 2002 Grâce à l'association du concept de computation des sciences du langage de l'informatique et des mathématiques le projet de dialogue art et science est capable de pénétrer au plus intime du processus de création de l'œuvre d'art

Etant donné, 2006 **Duchamp** Juan Antonio Ramírez, 1993 La importancia de Marcel Duchamp 1887-1968 se ha venido acrecentando progresivamente desde los años cincuenta hasta nuestros días a medida que numerosos movimientos artísticos le reconocen como padre fundador. Pero aunque la magnitud de su influencia sí lo es hoy comparable a la de Picasso Duchamp sigue siendo un desconocido fuera del círculo de unos pocos iniciados. Es como si hubiese quedado sepultado por algunos estereotipos biográficos y por la audacia de sus gestos iconoclastas. Pero la revisión de ciertos aspectos permite descubrir algo mucho más rico y estimulante. Duchamp estuvo siempre en el centro de los grandes debates del mundo contemporáneo y aunque evolucionó al vincularse a diversos ismos de la vanguardia mantuvo constantemente el sello de una personalidad inconfundible. Sus dos grandes preocupaciones conciernen a la naturaleza del conocimiento de la verdad científica y al sentido del amor con su límite natural la muerte. Los trabajos de Duchamp hablan siempre de erotismo y lo hacen tocando los límites en unos términos que comprometen lo socialmente aceptable. Este libro trata con amplitud estos y otros asuntos. Un gran esfuerzo de contextualización cultural y de exégesis filológica ha permitido a su autor revisar cuestiones de gran importancia como el significado de los ready-mades o el de la gran instalación secreta conocida como *tant donné*. Por primera vez se propone una cuidadosa lectura por etapas del *Grand verre* rastreando la evolución de cada elemento desde las ideas preliminares hasta su desaparición o integración en el programa final de la obra. De gran importancia es también el hallazgo de muchas fuentes iconográficas mediante el examen de materiales tan heterogéneos como viejos catálogos médicos e industriales, manuales escolares, anuncios, libros filosóficos, matemáticos, etc. Todo ello permite entender por fin el sentido de las principales propuestas y transformaciones duchampianas. Este ensayo apasionante ilustrado con cerca de 300 imágenes comentadas reproduce además de numerosas referencias visuales rigurosamente indicadas todas las obras importantes de Duchamp. Esto convierte Duchamp, el amor y la muerte incluso en una monografía básica para conocer a esta figura insoslayable del arte contemporáneo.

Unpacking Duchamp Dalia Judovitz, 1998-04-28 *Transit: transitional transition*. Dalia Judovitz catches Marcel Duchamp on the run with his art in a suitcase and his thought all boxed and ready to go. She demonstrates how the theme of transition reappearing from work to work makes each piece reproduce some other piece while all continue to exemplify an original which can no longer be found and which has no creator. Jean-François Lyotard

Duchamp Juan Ramírez, 1998-12 In *Duchamp: Love and Death* even Juan Antonio Ramírez addresses a number of intriguing questions such as the meaning of the artist's ground-breaking ready-mades and his famous installation *Etant donné*. Ramírez undertakes a step-by-step interpretation of Duchamp's *Large Glass* examining the evolution of each and every element from initial concept through to its final inclusion or disappearance. Of great interest is the author's discovery of

an array of hitherto unpublished iconographic sources including medical and industrial catalogues school manuals advertisements and physics and mathematics textbooks Duchamp Love and Death even is a seminal monograph for understanding this crucial figure of modern art

BOOK JACKET Part-Architecture Emma Cheadle, 2017-07-20 Part Architecture presents a detailed and original study of Pierre Chareau's Maison de Verre through another seminal modernist artwork Marcel Duchamp's Large Glass Aligning the two works materially historically and conceptually the book challenges the accepted architectural descriptions of the Maison de Verre makes original spatial and social accounts of its inhabitation in 1930s Paris and presents new architectural readings of the Large Glass Through a rich analysis which incorporates creative projects into history and theory research the book establishes new ways of writing about architecture Designed for politically progressive gynaecologist Dr Jean Dalsace and his avant garde wife Annie Dalsace the Maison de Verre combines a family home with a gynaecology clinic into a free plan layout Screened only by glass walls the presence of the clinic in the home suggests an untold dialogue on 1930s sexuality The text explores the Maison de Verre through another radical glass construction the Large Glass where Duchamp's complex depiction of unconsummated sexual relations across the glass planes reveals his resistance to the marital conventions of 1920s Paris This and other analyses of the Large Glass are used as a framework to examine the Maison de Verre as a register of the changing history of women's domestic and maternal choices reclaiming the building as a piece of female social architectural history The process used to uncover and write the accounts in the book is termed part architecture Derived from psychoanalytic theory part architecture fuses analytical descriptive and creative processes to produce a unique social and architectural critique Identifying three essential materials to the Large Glass the book has three main chapters Glass Dust and Air Combining theory text creative writing and drawing each traces the history and meaning of the material and its contribution to the spaces and sexuality of the Large Glass and the Maison de Verre As a whole the book contributes important and unique spatial readings to existing scholarship and expands definitions of architectural design and history

L'humour objectif Marie J. A. Colombet, 2008 Fond sur la conclusion de l'esthétique hégélienne l'humour objectif qui annonce la ruine des romantiques devient un objet critique utilisé par Breton pour lire les fictions de son siècle Cette thèse examine la filiation entre humour objectif hasard objectif et mécaniques de hasard dans les œuvres de R. Roussel M. Duchamp et J. Tinguely

Les Transformateurs Duchamp/Duchamp's TRANS/formers Jean-François Lyotard, 2010 This collection of essays written between 1974 and 1977 in the midst of Duchamp's rediscovery in France was published by Editions Galilée Paris in 1977 and in English translation by the Lapis Press Los Angeles in 1990

The Social Aesthetics of Human Environments Arnold Berleant, 2023-08-24 Across these essays Arnold Berleant demonstrates how aesthetic values and theory can be used to reappraise our social practices He tackles issues within the built environment everyday life and politics breaking down the dichotomy between the natural and the human His work represents a fresh approach to traditional philosophical questions in not only ethics but in metaphysics truth meaning psychology

phenomenology and social and moral philosophy Topics covered include the cultural aesthetics of environment ecological aesthetics the aesthetics of terrorism and the subversion of beauty The corruption of taste by the forces of commercial interests as well as how aesthetics can advance our understanding of violence are also considered Berleant's exploration is supported by his analysis of 19th century art to the present day starting with impressionism through to postmodernism and contemporary artistic interventions By critically examining the field in this way and casting new light on social understanding and practice this collection makes a substantive contribution in identifying and clarifying central human issues guided by an understanding of aesthetic engagement as a powerful tool for social critique

Learning to Look at Modern Art Mary Acton, 2004 This companion text to the author's *Learning to Look at Paintings* addresses some of the questions most commonly asked about modern art covering key movements of the modern and postmodern periods in a richly illustrated and engaging volume

Angela Carter and the Fairy Tale Danielle Marie Roemer, Cristina Bacchilega, 2001 A diverse collection of essays artwork interviews and fiction on Angela Carter

Art in the Offertorium Harvey Giesbrecht, Charles Levin, 2012-01-01 This book proposes a new approach to the problem of aesthetic experience in Western culture Noting how art world phenomena evoke conventional psychoanalytic speculations about narcissism the authors turn the tables and apply aesthetic questions and concerns to psychoanalytic theory Experimenting with Freudian and post Freudian concepts they propose a non normative theory of the psychic drive to address and embrace deep tensions in the post Renaissance aesthetic project the rise of modernism and the contemporary art world It is argued that these tensions reflect central conflicts in the development of patriarchal civilization which the emergence of the aesthetic domain as a specialized range of practice exposes and subverts The postmodern era of aesthetic reflection is interpreted as the outcome of a complex narcissistic dialectic of idealization and de idealization that is significant for the understanding of contemporary culture and its historical prospects

Ernst Ludwig Kirchner and artworks Klaus Carl, 2023-11-16 The self appointed leader of the artists group Die Brücke Bridge founded in Dresden in 1905 Ernst Ludwig Kirchner was a key figure in the early development of German Expressionism His first works show the influence of Impressionism Post impressionism and Jugendstil but by about 1909 Kirchner was painting in a distinctive expressive manner with bold loose brushwork vibrant and non naturalistic colours and heightened gestures He worked in the studio from sketches made very rapidly from life often from moving figures from scenes of life out in the city or from the Die Brücke group's trips to the countryside A little later he began making roughly hewn sculptures from single blocks of wood Around the time of his move to Berlin in 1912 Kirchner's style in both painting and his prolific graphic works became more angular characterized by jagged lines slender attenuated forms and often a greater sense of nervousness These features can be seen to most powerful effect in his Berlin street scenes With the outbreak of the First World War Kirchner became physically weak and prone to anxiety Conscripted he was deeply traumatised by his brief experience of military training during the First World War From 1917 until his death by suicide in

1938 he lived a reclusive though artistically productive life in the tranquillity of the Swiss Alps near Davos **GO: On the Geographies of Gunnar Olsson** Martin Gren, 2016-04-22 Since the early 1960s the internationally acclaimed and highly distinguished Swedish geographer Gunnar Olsson has made substantial contributions to his own discipline In addition because of the transgressive nature of his work and writing which often borders to art and philosophy his ideas and approaches have reached a wider audience of those interested in the history and geography of ideas culture and human reasoning Olsson's recent masterpiece *Abysmal* is a minimalist guide to the territory of Western culture In it he investigates how cartographical reason enables people to think about and navigate the abstract world of invisible human relations in much the same way as they are able to study and traverse the physical Earth by using maps and mapping This book presents a comprehensive introduction to and overview of the entire range of Olsson's geography from the early days of spatial science to his contemporary engagement with and critique of cartographical reasoning It includes selected samples of Olsson's own writings including rarities together with a consolidated bibliography of his publications It also contains critical engagements from leading scholars such as Michael Dear Michael Watts Chris Philo and Marcus Doel with Olsson's geography from a variety of perspectives which are particularly valuable to those readers who already know his work It is structured and written in a way that makes Olsson's geography accessible to a wide readership including those who are not already familiar with Olsson's work **Angela Carter: Surrealist, Psychologist, Moral Pornographer** Scott

Dimovitz, 2016-03-02 Contributing to the conversation regarding Angela Carter's problematic relationship with what she viewed as the interrelated traditions of surrealism and psychoanalysis Scott Dimovitz explores the intricate connections between Carter's private life and her public writing He begins with Carter's assertion that it was through her sexual and emotional life that she was radicalized drawing extensively on the British Library's recently archived collection of Carter's private papers journals and letters to show how that radicalization happened and what it meant both for her worldview and for her writings Through close textual analysis and a detailed study of her papers Dimovitz analyzes the ways in which this second wave feminist's explorations of sexuality merged with her investigations into surrealism and psychoanalysis an engagement that ultimately led to the explosively surreal allegories of Carter's later more complex and more accomplished work His study not only offers a new way to view Carter's oeuvre but also makes the case for the importance of Angela Carter's vision in understanding the transformations in feminist thinking from the postwar to the postfeminist generation
