Eternal Curse On The Reader Of These Pag:

To Make the Hands Impure Adam Zachary Newton, 2016-01-01 How can cradling handling or rubbing a text be said ethically to have made something happen What as readers or interpreters may come off in our hands in as we maculate or mark the books we read For Adam Zachary Newton reading is an embodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard With the image of the book lying in the hands of its readers as insistent refrain To Make the Hands Impure cuts a provocative cross disciplinary swath through classical Jewish texts modern Jewish philosophy film and performance literature translation and the material text Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad s Nostromo and Pascal s Le M morial from works by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana Cuba In separate chapters he conducts masterly treatments of Emmanuel Levinas Mikhail Bakhtin and Stanley Cavell by emphasizing their performances as readers a trebled orientation to Talmud novel and theater film To Make the Hands Impure stages the encounter of literary experience and scriptural traditions the difficult and the holy through an ambitious singular and innovative approach marked in equal measure by erudition and imaginative daring A Dialogue of Voices Karen Ann Hohne, Helen Wussow, 1994 A Dialogue of Voices was first published in 1994 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The work of the Russian theorist Mikhail Bakhtin particularly his notions of dialogics and genre has had a substantial impact on contemporary critical practices Until now however little attention has been paid to the possibilities and challenges Bakhtin presents to feminist theory the task taken up in A Dialogue of Voices The original essays in this book combine feminism and Bakhtin in unique ways and by interpreting texts through these two lenses arrive at new theoretical approaches Together these essays point to a new direction for feminist theory that originates in Bakhtin one that would lead to a feminine tre rather than a feminine criture Focusing on feminist theorists such as H l ne Cixous Teresa de Lauretis Julia Kristeva and Monique Wittig in conjunction with Bakhtin's concepts of dialogism heteroglossia and chronotope the authors offer close readings of texts from a wide range of multicultural genres including nature writing sermon composition nineteenth century British women's fiction the contemporary romance novel Irish and French lyric poetry and Latin American film The result is a unique dialogue in which authors of both sexes from several countries and different eras speak against for and with one another in ways that reveal their works anew as well as the critical matrices surrounding them Karen Hohne is an independent scholar and artist living in Moorhead Minnesota Helen Wussow is an assistant professor of English at Memphis State University Subjects of Analysis Thomas H. Ogden, 1977-07-07 Subjects of Analysis the fourth of Thomas Ogden s books explores the frontier of contemporary psychoanalytic thinking the experience of analyst and analysand in the dynamic interplay of subjectivity the individual I ness of each participant and intersubjectivity the shared experience of the analytic

pair No longer are transference and countertransference considered to have meaning as concepts or as experiences except in relation to one another each is the context in which the other is generated and understood In the course of this discussion Ogden introduces the idea of the intersubjective analytic third in his effort to conceptualize the interdependence of subject and object of transference and countertransference in the analytic process This book offers a way of understanding and making use of a critical dimension of the analytic experience that is rarely spoken about by psychotherapists and analysts and even less frequently written about in the analytic literature the ordinary moment to moment experience of the analyst in the analytic setting including his most mundane thoughts about the minutiae of his outside life his obsessional ruminations daydreams sexual fantasies distractedness bodily sensations and worries and so on This highly personal very ordinary almost invisible aspect of the analyst's experience in the consulting room is viewed as having been created freshly as an analytic object in the unique context of the analytic relationship as it has developed to that moment of the analysis Too often this sort of experience has been dismissed as the analyst s own stuff that must be filtered as extraneous psychological noise For Ogden this mundane personal background of analytic experience is seen as an important manifestation of the analyst s experience in the intersubjective analytic third to which the analyst must attempt to gain conscious access and must learn to utilize in the formulation of his interpretations and other forms of intervention Theoretical Fables Alicia Borinsky, 2015-09-11 Alicia Borinsky argues that the contemporary Latin American novel does not just ingeniously dismantle the referential claims of the more traditional novel it offers a postmodern version of the lessons taught by fiction Latin American fiction perhaps the most inventive literature of recent decades seems marked by its self reflexivity by its playful relationship to history and the everyday and by its concerns with the ways in which language works But is it Borinsky asks really a literature whose primary goal is to raise metafictional questions about writing and reading While the effects of this literature include dismantling the illusions of realism naturalism and historicism the haunting and disturbing energy of its major works lies in their capacity of invoke a region beyond literature through literature Theoretical Fables progresses by way of close readings of the works of eight canonical and not quite canonical Latin American Authors Borinsky argues that the Latin American theoretical fable has its origins in the work of the early twentieth century Argentinean writer Macedonio Fern ndez In this light she studies the works of Jorge Luis Borges Gabriel Garcia M rquez Julio Cort zar Jos Donoso Adolfo Bioy Cesares Manuel Puig and Maria Luisa Bombal Latin American Writers on Gay and Lesbian Themes David William Foster, 1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author s writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay

sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe Encyclopedia of Latin American Literature Verity Smith, 2014-01-14 The Concise Encyclopedia includes all entries on topics and countries cited by many reviewers as being among the best entries in the book entries on the 50 leading writers in Latin America from colonial times to the present and detailed articles on some 50 important works in this literature those who read and studied in the English speaking world Pop Culture Into Art Norman Lavers, 1988 Long acclaimed by Latin American critics the Argentine novelist Manuel Puig became best known in this country for his novel Kiss of the Spider Woman While Puig s seven novels are available in translation an immense body of criticism and many of his most important interviews remain inaccessible to the non Spanish reader Written especially for the English speaking audience this study analyzes aspects of Puig s novels summarizing the most important criticism in Spanish and offers a biographical sketch of the man making available for the first time in English selections from the most informative interviews Readings of each of Puig s novels combined with Lavers s overview of the criticism in Spanish provide new insights into one of the most original and Acoustic Properties Tom McEnaney, 2017-06-15 Acoustic Properties Radio profound bodies of fiction of any current writer Narrative and the New Neighborhood of the Americas discovers the prehistory of wireless culture It examines both the coevolution of radio and the novel in Argentina Cuba and the United States from the early 1930s to the late 1960s and the various populist political climates in which the emerging medium of radio became the chosen means to produce the voice of the people Based on original archival research in Buenos Aires Havana Paris and the United States the book develops a literary media theory that understands sound as a transmedial phenomenon and radio as a transnational medium Analyzing the construction of new social and political relations in the wake of the United States 1930s Good Neighbor Policy Acoustic Properties challenges standard narratives of hemispheric influence through new readings of Richard Wright's cinematic work in Argentina Severo Sarduy s radio plays in France and novels by John Dos Passos Manuel Puig Raymond Chandler and Carson McCullers Alongside these writers the book also explores Che Guevara and Fidel Castro s Radio Rebelde FDR s fireside chats F lix Caignet's invention of the radionovela in Cuba Evita Per n's populist melodramas in Argentina Orson Welles s experimental New Deal radio Cuban and U S radio wars and the 1960s African American activist Robert F Williams s proto black power Radio Free Dixie From the doldrums of the Great Depression to the tumult of the Cuban Revolution Acoustic Properties illuminates how novelists in the radio age converted writing into a practice of listening transforming realism as they struggled to channel and shape popular power The Posthumous Career of Manuel Puig ,1991 Politick Disputant; Choice Instructions for Quashing a Stuborn Adversary, Gathered From, and Exemplified In, the Learned
