Welcome to Your Designer Planet! Richard Leviton, 2007-09 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth's thousands of sacred sites hold a secret they are functional parts of the planet's geomantic body consciousness nodes in the Earth's subtle body Each veils a Light temple each once known widely and remembered in myth and Welcome to Your Designer Planet documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth's Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research The world's myths are the doorway into this fantastic domain of the Earth's visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet

Love's Body, Reissue of 1966 Edition Norman O. Brown, 1990-09-12 Originally published in 1966 and now recognized as a classic Norman O Brown's meditation on the condition of humanity and its long fall from the grace of a natural instinctual innocence is available once more for a new

Rounding out the trilogy is Brown's brilliant *Apocalypse and or Metamorphosis*. *Symposium of the Whole* Jerome Rothenberg, Diane Rothenberg, 2016-04-19 EDWARD L SCHIEFFELIN *From The Sorrow of the Lonely and the Burning of the Dancers* *Explorations* 7 E S Carpenter, Marshall McLuhan, 2016-09-30 *Explorations Studies in Culture and Communication* principally edited by Edmund Carpenter and Marshall McLuhan was the first postwar journal to engage directly with the new grammars of mid century new media of communication Launched in Toronto in 1953 at the very moment that television made its national debut in Canada *Explorations* presented a mosaic of approaches to contemporary media culture and became the site in which McLuhan and Carpenter first formulated their most striking insights about new media in the electric age The extraordinary breadth of contributions to *Explorations* from leading thinkers across the arts humanities social and natural sciences makes this journal a founding publication in the now burgeoning field of media studies Originally funded by a Ford Foundation grant the eight coedited issues of *Explorations* ran from 1953 to 1957 and are reprinted here for the first time in sixty years For a listing of all articles in this series refer to the Summaries at the end of the series foreword *Sleeping, Dreaming, and Dying* Dalai Lama, 2002-05-01 This is an absorbing account of a dialogue between leading Western scientists and the foremost representative of Buddhism today the Dalai Lama of Tibet For modern science the transitional states of consciousness lie at the forefront of research in many fields For a Buddhist practitioner these same states present crucial opportunities to explore and transform consciousness itself This book is the account of a historic dialogue between leading Western scientists and the Dalai Lama of Tibet Revolving around three key moments of consciousness sleep dreams and death the conversations recorded here are both engrossing and highly readable Whether the topic is lucid dreaming near death experiences or the very structure of consciousness itself the reader is continually surprised and delighted Narrated by Francisco Varela an internationally recognized neuroscientist the book begins with insightful remarks on the notion of personal identity by noted philosopher Charles Taylor author of the acclaimed *Sources of Self* This sets the stage for Dr Jerome Engel Dr Joyce MacDougal and others to engage in extraordinary exchanges with the Dalai Lama on topics ranging from the neurology of sleep to the yoga of dreams Remarkable convergences between the Western scientific tradition and the Buddhist contemplative sciences are revealed Dr Jayne Gackenbach's discussion of lucid dreaming for example prompts a detailed and fascinating response from the Dalai Lama on the manipulation of dreams by Buddhist meditators The conversations also reveal provocative divergences of opinion as when the Dalai Lama expresses skepticism about Near Death Experiences as presented by Joan Halifax The conversations are engrossing and highly readable Any reader interested in psychology neuroscience Buddhism or the alternative worlds of dreams will surely enjoy *Sleeping Dreaming and Dying* *To Go Into the Words* Norman Finkelstein, 2023-10-03 *To Go Into the Words* is the latest book of critical prose from renowned poet and scholar of Jewish literature Norman Finkelstein Through a rigorous examination of

poets such as William Bronk Helen Adam and Nathaniel Mackey the book engages the contemporary poetic fascination with transcendence through the radical delight with language Pulling from Finkelstein's writing experience *To Go Into the Words* consistently rewards the reader with insights as transformative as they are well considered and deftly mapped out This volume opens the world of poetry to poets scholars and readers by showcasing the gnosis that is to be found in modern poetry

The Wilderness of Dreams Kelly Bulkeley, 1994-02-08 This interdisciplinary study of the religious dimensions of dreams shows how modern dream research supports and enriches our understanding of religiously meaningful dreams *The Wilderness of Dreams* does four things that no other work on dreams has done First it surveys the whole range of modern dream research not just the work of depth psychologists and neuroscientists but also the findings of anthropologists content analysts cognitive psychologists creative artists and lucid dreaming researchers Second it draws upon new advances in hermeneutic philosophy in order to clarify basic questions about how to interpret dreams Third it develops a careful well grounded notion of religious meaning the root metaphor concept to show that seeking religious meanings in dreams is not mere superstition And fourth the book reflects on the question of why modern Westerners are so interested in affirming or debunking the idea that dreams have religious meanings

The Aranda's Pepa Anna Kenny, 2013-12-19 The German missionary Carl Strehlow 1871-1922 had a deep ethnographic interest in Aboriginal Australian cosmology and social life which he documented in his 7 volume work *Die Aranda und Loritja Stämme in Zentral Australien* that remains unpublished in English In 1913 Marcel Mauss called his collection of sacred songs and myths an Australian Rig Veda This immensely rich corpus based on a lifetime on the central Australian frontier is barely known in the English speaking world and is the last great body of early Australian ethnography that has not yet been built into the world of Australian anthropology and its intellectual history The German psychological and hermeneutic traditions of anthropology that developed outside of a British Australian intellectual world were alternatives to 19th century British scientism The intellectual roots of early German anthropology reached back to Johann Gottfried Herder 1744-1803 the founder of German historical particularism who rejected the concept of race as well as the French

dogma of the uniform development of civilisation Instead he recognised unique sets of values transmitted through history and maintained that cultures had to be viewed in terms of their own development and purpose Thus humanity was made up of a great diversity of ways of life language being one of its main manifestations It is this tradition that led to a concept of cultures in the plural

Salmon in the Spring Jason Kirkey, 2009-11 Here at the end of the Cenozoic Era with the life systems withering away a surprising creativity appears a kind of mystical balancing act The world's spiritual traditions are entering into deeply engaged conversations through which the riches of each are ignited in new ways With *The Salmon in the Spring* Jason Kirkey has boldly carved out his place in this exciting work with his original interpretations of the concepts and stories of ancient Ireland Kirkey's vision speaks directly to our present ecological challenge Rejecting those nature denying forms of spirituality that have been used too easily to justify our domestication of the planet *The Salmon in the Spring* announces its thrilling spiritual foundation Our wild nature is our soul Brian Swimme California Institute of Integral Studies
