*Gut Symmetries* Jeanette Winterson, 2013-04-17 The highwire artist of the English novel redraws the romantic triangle for the post Einsteinian universe where gender is as elastic as matter and any accurate Grand Unified Theory GUT must encompass desire alongside electromagnetism and gravity One starry night on a boat in the mid Atlantic Alice a brilliant English theoretical physicist begins an affair with Jove her remorselessly seductive American counterpart But Jove is married When Alice confronts his wife Stella she swiftly falls in love with her with consequences that are by turns horrifying comic and arousing Vaulting from Liverpool to New York from alchemy to string theory and from the spirit to the flesh *Gut Symmetries* is a thrillingly original novel by England's most flamboyantly gifted young writer Winterson is unmatched among contemporary writers in her ability to conjure up new world wonder A beautiful stirring and brilliant story *Times Literary Supplement* Dazzling for its intelligence and inventiveness Winterson is possessed of a masterly command of the language and a truly pliant imagination Elle One of our most brilliant visionary storytellers *San Francisco Chronicle* **Particle**

**Astrophysics, Second Edition** D.H. Perkins, 2009 The close relation between particle interactions and large scale development of the cosmos is a constant theme in the text with emphasis on the interplay between experiment and theory Jacket **Marginality in the Contemporary British Novel** Nicola Allen, 2008-08-08 The Marginal as a concept has become an integral part of the British novel as it stands at the turn of the century Both popular and literary fiction since the mid 1970s has seen an increasing emphasis on the marginal subject This study offers readings of a wide range of contemporary British novels that represent characters or communities at the margin of society Nicola Allen analyses three conceptual categories representing the marginal subject in the contemporary British novel the character of the misfit or outsider the emergence of the grotesque and the rediscovery of previously marginalized narratives such as myth and fantasy This innovative and original monograph focuses on the contention that the contemporary novel of marginality conveys a belief in the socially transformative powers of narrative and suggests that narrative has played a central role in bringing marginal politics and marginal issues to the fore in contemporary Britain **AB Bookman's Weekly**, 1998 *The*

*Contemporary British Novel* Philip Tew, 2007-06-26 Second edition of this guide for students studying contemporary British writing written by one of the key academics in the field of modern fiction studies [The Paradigmatic Structure of Person](#)

[Marking](#) Michael Cysouw, 2009-01-29 This book explores person markers the linguistic elements that provide points of reference to speech act participants Michael Cysouw develops a new framework for the typology of person marking based on the rejection of the notion of plurality for its analysis When a mother says Mummy is going to say goodnight now Mummy is the person marker in a way that in English is confined to motherese but which is used more commonly in some other languages and may also be characteristic of much earlier forms Dr Cysouw divides the person markers of 400 languages into paradigms He considers how the structure of these person paradigms relates to their function His investigation provides a

clear account of how person markers work syntactically pragmatically and semantically as well as giving fresh insights into aspects of linguistic change language relatedness and the interfaces between discourse syntax and semantics The combination of a typological and a comparative approach results in the first outline of a cognitive map of the paradigmatic structure of person marking

**Joyce: Feminism / Post / Colonialism**, 2021-11-15 James Joyce is located between and constructed within two worlds the national and international the political and cultural systems of colonialism and postcolonialism Joyce's political project is to construct a postcolonial contra modernity to write the incommensurable differences of colonial postcolonial and gendered subjectivities and in doing so to reorient the axis of power and knowledge What Joyce dramatizes in his hybrid writing is the political and cultural remainder of imperial history or patriarchal canons a remainder that resists assimilation into the totalizing narratives of modernity Through this remainder of both politics and the psyche Joyce reveals how a minority culture can construct political and personal agency Joyce *Feminism Post Colonialism* edited by Ellen Carol Jones bears witness to the construction of that agency tracing the inscription of the racial and sexual other in colonial nationalist and postnational representations deciphering the history of the possible Contributors are Gregory Castle Gerald Doherty Enda Duffy James Fairhall Peter Hitchcock Ellen Carol Jones Ranjana Khanna Patrick McGee Marilyn Reizbaum Susan de Sola Rodstein Carol Shloss and David Spurr

**Oriental Prospects**, 2022-07-04 A great deal of stimulating and valuable discussion as well as some indignation and hot air has been stimulated by Edward Said whose provocative study of Orientalism *Western Conceptions of the Orient* appeared twenty years ago This present book will we believe be recognized as a worthy addition to the many attempts that have since been made to sift the intrinsic and ingrained attitudes of West to East The fifteen articles in *Oriental Prospects* *Western Literature and the Lure of the East* cover literature from the Renaissance through the eighteenth and nineteenth centuries to the modern period some in pragmatic accounts of responses to and uses of experiences of the Orient and its cultural

attitudes and artefacts others contending more theoretically with issues that Edward Said has raised Despite all the misunderstanding prejudice and propaganda in the scholarly and literary depiction of the Orient still today as in the past what emerges from this wide range of articles is that no species of literary text or academic study can appear without risking the accusation of escapist exoticism or cultural and economic exploitation and thus regrettably masking the essential and vital significance of the political and the real and imaginative trading between East and West

**Transgressing Boundaries in Jeanette Winterson's Fiction** Sonia Front,2009 The subsequent chapters of the book deal with selected questions from Jeanette Winterson s fiction such as gender issues love and eroticism language and time constituting areas within which Winterson s characters seek their identity As they contest and repudiate cliché s stereotypes and patterns their journey of self discovery is accomplished through transgression The book analyzes how the subversion of phallogocentric narrative and scenarios entails the reenvisioning of relations between the genders and reconceptualization of female desire The author attempts to determine the consequences of Winterson s manipulations with gender sexuality and time and her disruption of the binary system      Science and Affect in Contemporary Literature Shannon Lambert,2024-12-12 Moving from the micro world of quantum physics to the macro scales of earth science and ecology this book considers how in contemporary literature affective experiences like desire suffering anxiety and joy shape scientific

persons practices and products This book brings into dialogue close readings of scientific writing and contemporary literary works by authors like Jeanette Winterson Richard Powers Hanya Yanagihara Thalia Field and Jenny Offill Combining narrative and affect studies it uses formal strategies such as moving metaphor visceral or affective description plot level analogy contraction and rhythm to engage with western scientific epistemologies which still tends towards the impassive universal and objective While each chapter focuses on a different field or fields of science all foreground bodies human and nonhuman as a way of exploring knowledge production Through close readings the book argues that select scientific stories raise important questions about how knowledge is defined and who and what is invited into its processes of production
