constructive intercultural communication and understanding and to combat racism and xenophobia **Antiziganism**

Markus End,Hristo Kyuchukov,Pia Laskar,2015-06-18 In October 2013 more than 100 scholars gathered at an international conference in Uppsala to discuss ways to identify and analyse a theme which in recent years has attracted growing attention the discrimination marginalisation and persecution of Romanies The approaches adopted in this volume range from critical theory semiotics discourse and cultural analysis to intersectional perspectives Many contributors here argue for a conceptual understanding of this phenomenon that goes beyond the notions of anti Romani racism or Romaphobia suggesting a shift in focus towards the prevailing prejudice in majority societies The controversial core theme discussed in this book is the appropriateness and the theoretical understanding of the term antiziganism and its analogue antigypsyism The essays explore empirical findings from the news media film literature and theatre as well as contemporary and historical realities in Germany Kosovo Norway the former Ottoman Empire the Soviet Union Romania Sweden and the US The striking historical and geographic continuity of stereotypes and the different modes of antiziganist practice comprise a central theme here along with a focus on the counter discourse of Romanies Since comprehensive literature on this topic in Romani studies has to date been rare this volume provides necessary readings for the debate among scholars policy makers and activists

From Coppersmith to Nurse Gunilla Lundgren,Alyosha Taikon,2003 The life of Alyosha Taikon the Swedish born son of a coppersmith a member of the Kalderash clan of Romanies from Hungary After working as a coppersmith and in the family circus he trained to be a male nurse a decision which led to his rejection by the Gypsy community Migrants and Memory Micheal O'Haodha,2009-10-02 This volume hopes to act as a new marker in the areas of Irish Studies and Migration Diaspora Studies It is also in part an attempt to give a voice to communities who have frequently found themselves on the margins of the so called mainstream community the hidden Irish the hidden European the migrant the nomad that reflects the changing face of the new and immigrant Europe The scholars and activists writing here have engaged with the questions of ethnicity identity racism cultural expression and the new historiography that characterises those newer disciplines often referred to now as Traveller Studies and Romani Studies Of particular concern to this book s contributors has been the necessity to address these broader issues within the context of the ever changing dynamics of representation modernisation globalisation and the construction of the modern nation state that has been the litmus test for many Western and Eastern European countries including Britain and more recently Ireland It is to be hoped that this collection of essays will function as a catalyst for some new and exciting areas of enquiry in the more liminal interstices of Irish Studies Traveller Studies Romani Studies and Diaspora and Migration Studies the latter a discipline which modern Irish society is only now beginning to interrogate on a more serious and scholarly level *Making History with Manuscripts in Medieval and Early Modern Europe* Johannes Junge Ruhland,2025-06-02 This volume interrogates the role of the manuscript medium in conveying history to medieval and early modern readers The contributors adopt a capacious understanding of history to explore history writing in its materiality

from a variety of methodological and disciplinary perspectives The core contentions of this book are that the material features of manuscripts helped shaping historical narratives and defining history conceptually and that therefore the makers of these manuscripts played an instrumental role in history writing alongside authors Ranging from the ninth to the sixteenth centuries and comprising materials from across Western Europe in Latin and the vernaculars the ten chapters of this volume uncover stakes and strategies tied to highly specific contexts such as late thirteenth century Corbie or fifteenth century Zurich yet partaking in a shared practice of history writing with manuscripts Manuscript makers made history through layout rewriting illumination compilation choice of script and annotation and conferred history writing its material dimension This volume therefore situates the writing of history in its material dimension and invites us to consider medieval and early modern historiography in its medium

Banjara Thought Dr. Lalith Kumar Dharavath,2025-04-23 The Banjara community is one of the oldest tribes in the world scattered across India Their history is both ancient and fascinating filled with numerous untold stories of Indian history Let s explore this intriguing heritage Two common narratives are often propagated in the study of Indian history First it is widely believed that Indian history begins with the Indus Valley Civilization Second many claim that the people of the Indus Valley were Dravidians implying they were not Aryans However some historians argue that both of these claims are inaccurate They propose that Indian history should not be confined solely to the Indus Valley or the Buddhist period Some historians trace India s history back to the arrival of Alexander in India Therefore it may not be entirely accurate to consider the Indus Valley Civilization or the Buddhist period as the foundation of ancient Indian history These periods are better viewed as the concluding chapters of India s ancient past

Deviance and Marginality in Early Modern Scotland Allan Kennedy,2025-01-07 An exploration of the complex and multifaceted connection between deviant behaviour and social marginality in Scotland between the sixteenth and eighteenth centuries During the early modern period in Scotland deviant behaviour often went hand in hand with social marginality Individuals might be ejected from the mainstream after breaching core behavioural standards the experience of marginality itself often necessitated transgressive behaviour as a survival strategy and for some minority groups the simple maintenance of their accustomed culture or lifestyle was understood through the lens of deviance To be marginalised and to be deviant were in many cases two sides of the same coin Focusing on a range of behaviours including irregular sex violent and verbal assault petty criminality piracy political dissidence and religious nonconformity this book explores the connection between deviance and marginality in early modern Scotland particularly in the sixteenth and seventeenth centuries It assesses why certain behaviours were judged to deserve social marginalisation what mechanisms were used to enforce this how individual and groups responded to it and what opportunities existed for avoiding escaping or mitigating its effects The result is a fresh and innovative perspective on early modern Scotland one that not only recovers the experiences of people long excluded from historical discussion but also offers insights into the nature of crime and deviance in the pre modern world Specific topics

covered include sexual deviance defining words as witchcraft piracy and the state the weaponisation of marginality in verbal violence covenanting women and the connection between deviance and the common musician sses why certain behaviours were judged to deserve social marginalisation what mechanisms were used to enforce this how individual and groups responded to it and what opportunities existed for avoiding escaping or mitigating its effects The result is a fresh and innovative perspective on early modern Scotland one that not only recovers the experiences of people long excluded from historical discussion but also offers insights into the nature of crime and deviance in the pre modern world Specific topics covered include sexual deviance defining words as witchcraft piracy and the state the weaponisation of marginality in verbal violence covenanting women and the connection between deviance and the common musician sses why certain behaviours were judged to deserve social marginalisation what mechanisms were used to enforce this how individual and groups responded to it and what opportunities existed for avoiding escaping or mitigating its effects The result is a fresh and innovative perspective on early modern Scotland one that not only recovers the experiences of people long excluded from historical discussion but also offers insights into the nature of crime and deviance in the pre modern world Specific topics covered include sexual deviance defining words as witchcraft piracy and the state the weaponisation of marginality in verbal violence covenanting women and the connection between deviance and the common musician ctive on early modern Scotland one that not only recovers the experiences of people long excluded from historical discussion but also offers insights into the nature of crime and deviance in the pre modern world Specific topics covered include sexual deviance defining words as witchcraft piracy and the state the weaponisation of marginality in verbal violence covenanting women and the connection between deviance and the common musician
