Like a Tree Universally Spread Keith Edward Cantú, 2023 This book reconstructs the tantalizing tale of Sri Sabhapati Swami ca 1828 1923 4 today a little known swami who was originally from Tamil Nadu in southern India and historically contextualizes a fascinating type of yoga that Sabhapati claimed would lead to an experience of being like a tree universally spread The practical method of having this experience in technical terms called the samadhi or composure of sivarajayoga or the Royal yoga for siva was published in English and multiple Indic languages and lavishly illustrated in diagrams on subtle and physical bodies This book is the first book length treatment on Sabhapati Swami scholarly or otherwise and uses critically edited sources printed in Tamil Devanagari and Bengali scripts to reveal the expansion of his literature across South Asia and globally the vast majority of which has never before been considered in any scholarly work to date The book shows how intertwined Sabhapati's yoga is with historical Tamil saiva and Siddha movements including the mythos of the rishi Agastya and also with Hathayoga and mantra based ritual It also takes into account his and his followers wrestling with the Victorian scientific worldview and their rationalization of Hindu philosophical discourses in the colonial period Finally the book demonstrates the extent to which Sabhapati's teachings were integrated into esoteric religious movements such as the Theosophical Society the Thelema of Aleister Crowley and New Thought and suggests that a reappraisal of scholarship on the roots of yoga in these movements is long overdue

Gordon,2013-07-04 Details the process of spiritual initiation from aspirant to the highest Adept Explains the characteristics of each stage of initiation including the associated psychological issues that need to be faced to move to the next stage Explores the long history of the Mystery traditions from ancient Egypt Babylonia and India to the modern Theosophy of Blavatsky and Bailey Reveals how the Brotherhood of Spiritual Adepts is increasing global tensions to prepare humanity for the Age of Aquarius and spiritual revelation As the precessional cycle transits from Pisces to Aquarius great shifts in spiritual evolution are on the horizon not for all of humanity as many in the New Age movement have

generously hypothesized but for those who have undertaken the necessary spiritual preparation and initiatory work Drawing from his deep immersion in the Mystery traditions of both East and West author J S Gordon investigates the initiatic path from ancient times to modern day detailing the step by step process of initiation and the sequence from spiritual aspirant to the highest Adeptship He explains the natural logic and characteristics of each stage of initiation including the associated problems and psychological issues that need to be faced in order to move forward to the next stage He shows how humanity is naturally inclined to spiritual evolution and the development of higher consciousness We are part of the overall evolutionary process of Nature a system guided by the most highly evolved Adepts and extending beyond Earth to the entire kosmos Exploring the long history of the Mystery schools beginning with ancient Egypt Babylonia and India Gordon examines the sacred metaphors and allegories of esoteric philosophy metaphysics occult science and the Science of the Seven Rays as well as the Adept inspired theosophical works of H P Blavatsky and A A Bailey He looks at the Adept Hierarchy of the Great White Himalayan Brotherhood and considers in detail two much discussed mysteries The Jesus as Christ mystery and the Maitreya Buddha mystery Revealing how advancement spiritual scientific and cultural erupts out of tension he explains how the Adepts have been increasing local and global tensions to prepare humanity for the Age of Aquarius thereby creating the ideal preconditions for spiritual evolution and an eventual restoration of the Mysteries in our own modern era *The Mage's Images: Heinrich Khunrath in His Oratory and Laboratory, Volume 2* Peter J. Women's Leadership in Marginal Religions Catherine Wessinger, 1993 Women's leadership in Spiritualism and Christian Science Ann Braude The feminism of Universal Brotherhood women in the Theosophical Movement Robert Ellwood and Catherine Wessinger Emma Curtis Hopkins a feminist of the 1880's and mother of new thought J Gordon Melton Myrtle Fillmore and her daughters an observation and analysis of the role of women in Unity Dell deChant Woman guru woman roshi the legitimation of female religious leadership in Hindu and Buddhist groups in America Catherine Wessinger Part 3 Contemporary women as creators of religion Ritual validations of clergywomen's authority in the African American Spiritual churches of New Orleans David C Estes Twentieth century women's religion as seen in the feminist spirit *Spiritual Despots* J. Barton Scott, 2016-07-19 Historians of religion have examined at length the Protestant Reformation and the liberal idea of the self governing individual that arose from it In *Spiritual Despots* J Barton Scott reveals an unexamined piece of this

story how Protestant technologies of asceticism became entangled with Hindu spiritual practices to create an ideal of the self ruling subject crucial to both nineteenth century reform culture and early twentieth century anticolonialism in India Scott uses the quaint term priestcraft to track anticlerical polemics that vilified religious hierarchy celebrated the individual and endeavored to reform human subjects by freeing them from external religious influence By drawing on English Hindi and Gujarati reformist writings Scott provides a panoramic view of precisely how the specter of the crafty priest transformed religion and politics in India Through this alternative genealogy of the self ruling subject Spiritual Despots demonstrates that Hindu reform movements cannot be understood solely within the precolonial tradition but rather need to be read alongside other movements of their period The book s focus moves fluidly between Britain and India engaging thinkers such as James Mill Keshub Chunder Sen Max Weber Karsandas Mulji Helena Blavatsky M K Gandhi and others to show how colonial Hinduism shaped major modern discourses about the self Throughout Scott sheds much needed light how the rhetoric of priestcraft and practices of worldly asceticism played a crucial role in creating a new moral and political order for twentieth century India and demonstrates the importance of viewing the emergence of secularism through the colonial encounter

Cross is the time-honoured symbol of pre-Cosmic Divine Mind Helena Petrovna Blavatsky,2022-05-17 Cross is the time honoured symbol of pre Cosmic Divine Mind The four points correspond to birth life death and immortality The Hidden Deity represented by the circumference of a Circle and the Creative Power Androgynous Word by the diameter across it is the cornerstone of Esoteric Cosmogony Theogony and Anthropogony With the old Aryans the Egyptians and the Chaldeans the diameter across the Circle embraced the idea of eternal and immovable Divine Thought in its Absoluteness separated entirely from the incipient stage of the so called creation With the Hebrews however that which has been embodied in the Pentateuch and especially in Genesis is simply the secondary stage of Cosmogogenesis i e the mechanical law of creation or rather of construction while Theogony is hardly if at all outlined Jehovah was the tribal property of the Jews and no higher inseparable from and unfit to play a part in any other but the Mosaic Law Astronomically the Most High is the Sun and the Lord is one of his seven planets The meaning of Moses beseeching the Lord to show him his glory interpreted by two Kabbalists Moses and Jehovah are in numerical harmony because the number of Moses is that of I am That I am i e 345 The number of Jehovah is 543 the reverse of 345 When the back parts of Moses and his face are added up we have 888 which is the Gnostic Kabbalistic name of Jesus The Sphinx has been devouring the brightest and the noblest intellects of Christendom but at last she is now conquered It is not the Sphinx however who burning with the shame of defeat had to bury herself into the sea but the variegated symbol of

Jehovah whom Christians have accepted as their God The Cross is one of the most ancient symbols perhaps the most ancient IAO is certainly a title of the Supreme Being and belongs partially to the Ineffable Name but it neither originated with nor was it ever the sole property of the Jews IAO is an old mystic name of the Supreme deity of the Semites In the old religion of the Chaldeans the highest divinity enthroned above the seven heavens representing the spiritual light principle was also called IAO who like the Hebrew Yaho was mysterious and unmentionable and whose name was communicated only to the initiated The ansated Cross represented Vishvakarman the carpenter and artificer of the Gods crucifying the Sun Initiate on the cruciform lathe imparted the grand idea of man s spiritual birth not his physical regeneration The candidate for initiation being attached to the astronomical Cross is a much grander and nobler idea than that of the origin of terrestrial life On the other hand the Semites had no other or higher purpose in life than that of procreating their species Geometrically demonstrated the Jewish Deity is merely an even number the illusionary duad never the One Absolute All symbolically a euhemerized Priapus And all this can hardly satisfy those thirsting after real spiritual truths not such a blasphemous and gross caricature of the Ever Unknowable Even the most learned of modern Kabbalists can see in the Cross and Circle nothing but a symbol of the manifested creative and androgyne deity in this phenomenal world But the Eastern Occultist declines to worship any anthropomorphic God A Being having a mind like that of man only infinitely more powerful is no God that has any room beyond the cycle of physical creation That Being is at best one of the creative subordinate powers the totality of which is called the Sephiroth the Heavenly Man and Adam Kadmon the Second Logos of the Platonists The initiated Hindus know how to square the Circle far better than any European Western Mystics commence their speculation only at that stage when the universe falls into matter as the Occultists say From the first to the last chapter of the Pentateuch every scene character and event are connected with the origin of birth in its crudest and most brutal form God is a Circle the centre of which is everywhere and the circumference nowhere Circle and Cross are inseparable It is not in the Bible that we have to search for the origin of the Cross and Circle but beyond the Flood Deity is eternal perpetual motion the Ever Becoming as well as the Ever Universally present and the Ever Existing The Circle is its outward veil The Crux Ansata unites the Circle and the four corners of the Cross The Cross below the Circle stands for human procreation and therefore oblivion of the divine origin of the Cross within the Circle and the divine pedigree of Man The cruciform noose is a Cross in a Circle a Crux Ansata truly but it is a Cross on which all the human passions have to be crucified before the Yogin passes through the strait gate the narrow Circle that widens into an infinite one as soon as the inner man has passed the threshold The Pleiades are the central group of the Milky Way and the Central Point around which our Universe of fixed stars revolve in their respective orbits It is this Circle and the starry Cross on its face that play the most prominent part The Universe is periodically manifested by accelerated Motion propelled by the Breath of Unknowable Power The Spirit of Life Infinite Wisdom and Immortality are symbolised by the Circle and the Astronomical Cross within the ouroboric Serpent or Dragon and the Winged

Globe which evolved as the Egyptian Scarab us suggesting the peregrinations of the Soul each lower form unfolding a higher one Self moving numbers preceded mathematical numbers The Planetary Spirits or Creative Powers were represented as Invisible Circles the prototypic causes and builders of the heavenly orbs which are Their visible bodies or coverings Our visible Sun orbits ever closer around the Invisible Central Sun which is the Spirit of Kosmos abstract and formless because homogeneous and impartite the Centre of Intelligence Wisdom in every organised Universe and Solar systems to be Theos is neither the Spirit of Truth nor Spiritual Intelligence but their Father Far greater and more exacting deity than the god of this world supposed to be good is the Law of Karma And this Universal Deity demonstrates that the lesser one our personal god has no power to arrest her mighty hand for causes initiated by our thoughts and actions generate smaller causes and call forth the unerring Law of Retribution that predestines nothing and no one The Honoured One dwells in the Centre as in the Circumference but it is only the reflection of the hidden Deity The plane of the surface of the Circle is the World Soul Those who by unifying and individualizing the Universal Presence have synthesized it into one symbol the Central Point in the Crucifix they have never seized the true Spirit of the teaching of Christ and by their spurious interpretations they have degraded it in more than one way They have forgotten the Spirit of that universal symbol and have selfishly monopolized it as though the Boundless and the Infinite can ever be limited and conditioned in one man or even in a nation Alone among the Apostles of the Western religion Paul seems to have fathomed out the archaic mystery of the Cross The four points of the Cross represent in succession birth life death and immortality To crucify before the sun is a phrase used of initiation It comes from Egypt via from India The initiated adept who had successfully passed through all the trials was simply tied on a couch not nailed in the form of a Tau or a Svastika without the four prolongations and then plunged in a deep sleep the Sleep of Siloam Vishvakarman the all seeing god the great architect of the world and creative power sacrifices himself to himself The Spiritual Egos of every mortal are of His own essence and one with Him The symbol of Crucifixion is the origin of measures shadowing forth creative law and design Man was the primordial Word the very first word possessed by the Hebrews whoever they were to carry the idea by the sound of a man The numerical value of that word is 113 and carried with it the elements of the cosmical system displayed The figure of Vithoba even to the nail marks on the feet is that of Jesus crucified in all its details save the Cross That man was meant is proved by the fact of the Initiate being reborn after his crucifixion on the Tree of Life That tree through its use by the Romans as an instrument of torture and by the ignorance of Christian schemers has now become the tree of death Thus one of the seven esoteric meanings implied in the mystery of Crucifixion by the inventors of the system is now revealed by the geometrical symbols containing the history of the evolution of man The queer injunction in the Old Testament to crucify men before the Lord the Sun is no prophecy at all but has a direct phallic significance The Cross is not a human invention it is a time honoured symbol of cosmic ideation and of the divine soul in man eternal in its potentiality periodical in its potency Later it expanded in that of the mortal who by crucifying his flesh and

passions on the Procrustean bed of torture is reborn Immortal leaving behind the animal man tied on the Cross of Initiation Like an empty chrysalis the Spiritual Soul is now free as a butterfly Much later owing to the gradual loss of spirituality the Cross was degraded to a phallic symbol Eventually the Cross was adopted and manipulated by Christianity yet it was phallic from the very beginning But the Cross does not belong exclusively to the Churches its metaphysical meaning is too much for the champions of the religion of sensualism to grasp The Cross is pre eminently is Kabbalistic representing the opposition and quaternary equilibrium of the elements *Madame Blavatsky on the Trials and Triumph of Initiation* Helena Petrovna Blavatsky, 2018-03-17

- 1 The Origin of the Mysteries The last incarnation of one of seven Lords of the Flame was Baladeva Krishna s brother Hercules is none other than Baladeva in Greek dress In the Golden Age Esoteric Knowledge was common property Initiation arose later on from the necessity to limit the number of those who knew The Initiate s maxim was All for the people and with the people The old Initiates were real philosophers priests and healers They commemorated the secrets of their Mysteries in hieroglyphics Only those whose purity allowed them to look at the great Isis unveiled were admitted to the secrets of Nature and Man But what Gods and Angels had revealed Moses revealed and hid from the sight of the world
- 2 The Trial of the Sun Initiate Vishvakarman Hierophant or Logos Demiourgos cut off seven locks of the neophyte s long hair Second Sun s rays and replaced them with a crown of brambles thus making him Vikartana shorn of his rays The neophyte who can overcome the dreadful trials of Initiation on the cross of his worldly passions dies in the Chrestos condition freed from the clutches of matter before his second and triumphant birth in Spirit as Christos The Masonic rite of Initiation is based upon the construction of the Temple of Solomon a narrative modelled upon Egyptian and still earlier symbolisms Yet there never was an Occult Society however open and sincere that has not felt the hand of the Jesuit trying to pull it down by every secret means The Jesuits infected mankind with passivity ignorance and superstition in order to impose their Universal Despotism unopposed
- 3 The Mystery of the Sun of Initiation In the days of Aristotle few were the true Adepts left in Europe and even in Egypt Solus Sol Sun is The One and the Greek name for Helios the Most High But there is a great difference between our Sun and its prototype the Central Spiritual Sun
- 4 The Objects of the Mysteries Whether lesser or greater Mysteries have always been graded Theophany is the appearance of God to man Theopathy man s assimilation of his divine nature Theopneusty inspiration or rather the power to hear the Voice of God The last two are experienced when the neophyte passes through the crucifixion of flesh or matter The Grecian Mysteries were identical with the Initiations of Buddhist and Hindu Adepts In India the candidate of the third degree of Initiation has two Gurus But whether Eastern or Western the Initiate dares all and keeps silent Masonic Initiation was modelled on that of the Lesser Mysteries and remains an authority upon the three fundamental degrees The triple duty of a Mason is to study whence he comes what he is and whither he goes
- 5 Traces of the Mysteries The Round Towers in Ireland and Asia were connected with the Vishvakarman and Vikartana rites In later ages the Initiates of the Left Path and the anthropomorphists turned them into phallic monuments The key to the

mystery of Initiation and to the real Christ not the blasphemous caricature of the Churches lies on the difference between the terms Chrestos and Christos There were two Messiahs Chrest and Christ Jesus was an Initiate of the Egyptian Mysteries where the rite of the suffering Chrestos on his trial and second birth as Christos by regeneration were enacted It was on the seventh day the third of his ultimate trial that the Eastern neophyte arose as a regenerated man and returned to earth as triumphant conqueror of death a Hierophant Initiates are said to have crushed the serpent's head i.e. conquered their sensual nature The Egyptian Initiates held the Rose as symbol of Nature the mother and nourisher of man represented as a virgin woman The Brothers of the Rosy Cross as a symbol of sexual procreation The old Indian Mysteries of Initiation were brought to Greece by Orpheus nine millennia before Homer and Hesiod 6 The Last of the Mysteries in Europe Alesia Arles and Bibractis the last bastions of the Ancient Mysteries in Europe are no more Occult Wisdom is now replaced by absolute theocracy that displays its crowned priests to the ignorant masses Whatever else Cheops might have done he has not built the pyramid bearing his name Neither Solomon his temple nor Noah his arc for that matter The strict silence of the Initiates and the total loss of all written memorials of secret knowledge may explain why so little is known of the Ancient Mysteries Yet there is spiritual Alchemy and physical transmutation their cradle is to be sought in the most distant times 7 The Post Christian Successors to the Mysteries The Neo Platonic School of Ammonius Saccas became the successor of the Eleusinian Mysteries and herald of the Eastern Secret Teachings unveiling the long and laborious descent and re ascent of the Divine Monad or Soul Each of us have to pass through the Valley of Thorns before he emerges into the plains of divine light and rest The Eclectic doctrines are strongly reflected in the Epistles of Paul and John the Evangelist For it is not Judaism and Christianity that remodelled the ancient Pagan Wisdom but rather the latter that put its heathen curb on the new faith and was further influenced by the Eclectic Theosophical system the direct emanation of the Wisdom Religion Ammonius Plotinus Iamblichus Proclus were prominent Theosophists though they never claimed the title All that is grand and noble in Christian theology comes from Neo Platonism Ammonius was a true Philaletheian one of us His Eclectic Theosophical School a precursor and prototype of the modern Theosophical Movement was made of the crumbs permitted to be gathered from the antediluvian lore Woe to those who mock Divine Knowledge and betray her secrets But those who are pure in thought and deed and have trust and confidence in their immortal spirit have nothing to fear The Theosophist ,1888
