## **Habits Of The High Tech Heart:**

*Habits of the High-tech Heart* Quentin James Schultze, 2002 Arguing against the cyber revolution's mythology of progress which substitutes technology for morality Schultze argues for giving equal attention to the habits of the heart ethics

*Habits of the High Tech Heart* Quentin J Schultze, 2024-12-20 In this updated and expanded edition Schultze and invited guests consider the moral and social costs of today's sophisticated technology arguing that the benefits of a cyberculture can be better appreciated by refocusing on the traditional Judeo-Christian values of discernment moderation wisdom humility authenticity and diversity Contributors reflect on Schultze's original offering first published more than 20 years ago and evaluate its arguments in light of today's fast-paced ever-changing technological landscape Contributors suggest ways in which Schultze's original arguments and critiques offer continued hope and a clear path forward in digital environs filled with personal and institutional burdens Theoretical connections between past and present are explored while daily communication practices to help cultivate faithful Christian engagement are put forth Students of technology and culture will delight in this book's timeless insights which transcend platform-specific architecture and the latest digital advancement

*The Imaginationless Generation* Nachshon Goltz, Tracey Dowdeswell, 2019-03-19 In the present-day Tower of Babylon the all-encompassing virtual world built of image-layered upon image children are the most vulnerable users If we permit them unfettered access to media that promotes corporate and consumer values while suppressing their cognitive development and creative imagination then an imaginationless generation may be our grim and inevitable future This book takes the reader whether an academic a parent or an educator through a startling journey from the harms lurking in the virtual worlds to children's health and well-being to how they deal with representations of violence and sexuality as well as exposure to cyberbullying advertising Internet Addiction Disorder and even exploitation The most dangerous harm is unseen and affects the innermost realm of a child's psyche the imagination The authors discuss the current global regulatory framework that makes the protection of children ever more challenging They discuss lessons learned from the ways that courts have negotiated free speech issues as well as the research on parental mediation of children's Internet use in the home Finally they move towards a bold new attempt at understanding regulation by drawing lessons for new media from ancient culture In *The Imaginationless Generation* the authors pioneer an attempt to address the real harms that children face in virtual realities by presenting a new and paradigm-shifting theory the Media Engagement Theory They follow the theory's insights and predictions to offer a new perspective on a burning question of our time how to protect children online This multidisciplinary intellectual voyage and its insights are only possible by standing on the shoulders of scholars who have gone before such as Ellul Baudrillard McLuhan Postman and Piaget to name a few As academics parents and concerned human beings the authors present here the results of more than twenty years of research in a way that should appeal to a wide variety of readers as they stretch our understanding of the human-machine interface beyond right and wrong This book shapes our

understanding of media in the digital age in much the same way that McLuhan's *Understanding Media* did for a previous generation

**The Power to Comprehend with All the Saints** Wallace M. Alston, Cynthia A. Jarvis, 2009-08-26 How does a theologically substantive ministry come into being And how does a theological orientation to the vocation make a difference in pastoral practice *The Power to Comprehend with All the Saints* brings pastor theologians together to answer these and other key questions about the integrity of their vocation These pastoral voices speak wisdom that will enrich both the academy and the church

**Posting Peace** Douglas S. Bursch, 2021-04-20 Why is everyone so angry online Pastor and former radio host Douglas Bursch provides a spiritual examination of why social media divides us and how Christians can address polarization through a ministry of peacemaking Unpacking how technology radically changes our communication Bursch offers practical examples of how to handle online conflict in redemptive ways

*Understanding the Culture* Jeff Myers, 2017-03-01 Addressing issues such as gender identity abortion technology and poverty Dr Myers challenges readers to ask How can an authentic Christian worldview provide a compassionate effective witness in culture today Dr Myers first shows readers what they can learn from Christian history and why today's issues might not be as new as they seem Then he takes them through the significant topics that affect them every day offering biblical ideas for conversing with others in an increasingly hostile culture This capstone book to a groundbreaking worldview trilogy equips readers to apply a bold Christian witness to their relationships with loved ones neighbors and colleagues

*The New Media Frontier (Foreword by Hugh Hewitt)* John Mark Reynolds, Roger Overton, 2008-08-21 A Pew Study reports that only 2% of America's twelve million bloggers claim religion spirituality or faith as their main topic This leaves a great mission field in cyberspace say contributors to *The New Media Frontier* because the latest forms of communication present so many opportunities to promote the cause of Christ in other topics and fields Before blindly jumping in however Christians need to weigh the possibilities against the consequences and then proceed with the practical discernment and grace this book provides With a foreword by national radio host Hugh Hewitt who has been at the forefront of the new media movement among Christians editors Roger Overton and John Mark Reynolds along with an impressive list of other new media experts survey the current landscape and explore specific areas in which God's people can creatively expand their reach to a lost world By stressing the urgency for Christian involvement unearthing the dangers and advising readers on how to use this media with different audiences this book equips believers to advance demonstrate and utilize the Christian worldview in this exciting realm

**High-Tech Worship?** Quentin J. Schultze, 2004 Technology can help your church glorify God or reduce your worship service to nothing more than entertainment Here's how to use it wisely

*iGods* Craig Detweiler, 2013-11-19 Today the world is literally at our fingertips We can call text email or post our status to friends and family on the go We can carry countless games music and apps in our pocket Yet it's easy to feel overwhelmed by access to so much information and exhausted from managing our online relationships and selves Craig Detweiler a nationally known writer and speaker on media issues provides needed Christian

perspective on navigating today's social media culture. He interacts with major symbols or iGods of our distracted age: Google, Facebook, Amazon, Apple, Pixar, YouTube, and Twitter to investigate the impact of the technologies and cultural phenomena that drive us. Detweiler offers a historic look at where we've been and a prophetic look at where we're headed, helping us sort out the immediate from the eternal, the digital from the divine. Islamic Ethics of Technology Amana Raquib, 2015-04-10. This book approaches the question of technology from an Islamic ethical perspective. The book tries to broaden the scope of the Sharia to deal comprehensively with the ethical questions and dilemmas that arise in the midst of a postmodern technological culture due to the absence of well-defined religious ethical ends. It looks at the maqasid as a universal ethical theory to be interpreted and applied in the global technological context. It weaves the contemporary philosophical analysis of technology within the maqasid discourse and assesses modern technology through the lens of the ultimate aims and purposes of the Sharia. It works out the relationship between the various objectives and how they can be developed into an Islamic ethics of technology. Following in the recent interest in the objectives of the Sharia, the book further expands the scope of the maqasid and carries it further to encompass metaphysical and ethical debates surrounding technology. Anyone interested in finding alternatives to the existing technological model will find this book valuable. Specifically, those interested in Islam and Modern World and how ijihad is being undertaken to tackle contemporary ethical problems will find this book helpful.

The New Media Frontier John Mark Reynolds, Roger Overton, 2008. A Pew Study reports that only 2% of America's twelve million bloggers claim religion, spirituality, or faith as their main topic. This leaves a great mission field in cyberspace, say contributors to The New Media Frontier, because the latest forms of communication present so many opportunities to promote the cause of Christ in other topics and fields. Before blindly jumping in, however, Christians need to weigh the possibilities against the consequences and then proceed with the practical discernment and grace this book provides. With a foreword by national radio host Hugh Hewitt, who has been at the forefront of the new media movement among Christians, editors Roger Overton and John Mark Reynolds, along with an impressive list of other new media experts, survey the current landscape and explore specific areas in which God's people can creatively expand their reach to a lost world. By stressing the urgency for Christian involvement, unearthing the dangers, and advising readers on how to use this media with different audiences, this book equips believers to advance, demonstrate, and utilize the Christian worldview in this exciting realm.

The Message in the Music, 2010-12-01. The definitive guide to the meaning of today's most popular praise and worship songs. Few things influence Christians' understanding of the faith more than the songs they sing in worship. The explosion of praise and worship music in the last fifteen years has profoundly affected our experience of God. So what are those songs telling us about who God is? In what ways have they made us more faithful disciples of Jesus Christ? In what ways have they failed to embody the full message of the gospel? Working with the lists of the most frequently sung praise and worship songs from recent years, the authors of this book offer an objective but supportive assessment of the meaning and contribution of

the Christian music that has been so important in the lives of contemporary believers      Performance in Preaching (Engaging Worship) Jana Childers, Clayton J. Schmit, 2008-11-01 This volume which launches the Engaging Worship series from Fuller Theological Seminary's Brehm Center for Worship Theology and the Arts offers a unique study of sermon delivery While many books offer advice on how to prepare write and preach a sermon this volume is distinctive in approaching the subject from the perspective of performance The authors who teach at a variety of seminaries and divinity schools across the nation examine how the sermon can bring God's word to life for the congregation In that sense they consider the idea of performance from a wide range of theological artistic and musical viewpoints These thoughtful essays will engage clergy and students with new ways of looking at the art of preaching      **Everyday Sabbath** Paul D. Patton, Robert H. Woods, 2021-08-04 The authors writing as scholars of communication and media demonstrate how God's great gifts of media and technology can rob us of everyday Sabbath and impede spiritual growth if not faithfully stewarded through a process described as mindful media attachment Mindful media attachment helps to promote the holy habits of sacred intentionality sacred interiority and sacred identity These three sacreds which arise from a proper understanding of the grammar and language of media and technology ultimately allow us to avoid treating media and technology as ends in and of themselves and to avoid divided affections that drain energy purpose and kingdom service      **The Praeger Handbook of Faith-Based Schools in the United States, K-12** Thomas C. Hunt, James C. Carper, 2012-08-06 Exploring a subject that is as important as it is divisive this two volume work offers the first current definitive work on the intricacies and issues relative to America's faith based schools The Praeger Handbook of Faith Based Schools in the United States K 12 is an indispensable study at a time when American education is increasingly considered through the lenses of race ethnicity gender and social class With contributions from an impressive array of experts the two volume work provides a historical overview of faith based schooling in the United States as well as a comprehensive treatment of each current faith based school tradition in the nation The first volume examines three types of faith based schools Protestant schools Jewish schools and Evangelical Protestant homeschooling The second volume focuses on Catholic Muslim and Orthodox schools and addresses critical issues common to faith based schools among them state and federal regulation and school choice as well as ethnic cultural confessional and practical factors Perhaps most importantly for those concerned with the questions and controversies that abound in U S education the handbook grapples with outcomes of faith based schooling and with the choices parents face as they consider educational options for their children      **The Foundations of Information Systems** Andrew Basden, 2017-10-24 Why does information technology disappoint or enslave us Why do so many information systems projects collapse How can we do better There are many technical social economic and other aspects to consider How do we ensure we take all these into account as we research ITC or employ them ICT affects our lives and world more profoundly than ever before How may we understand it This book employs philosophy to lay foundations for understanding the complexity of ICT in five areas The nature of

information and computers and artificial intelligence The use of ICT at work and home for serious and less serious use The ICT features that annoy or delight us Societal issues such as surveillance e government ICT in developing countries climate change what technological progress is and what is the role of ICT as a whole and of the information systems field ICT development including computer programming knowledge engineering and project management The ideas in this book emerge from five decades of experience of the author with ICT across industry the professions and academic life Information systems researchers will enjoy this book because it offers them new ideas and fresh perspectives On the 500th anniversary of the European Reformation this book introduces and applies the Reformational Philosophy of mid 20th century Dutch thinker Herman Dooyeweerd to contemporary challenges of the 21st century Excitingly this accessible philosophy is grounded in everyday experience and yields a rich seedbed of ideas which researchers and practitioners can develop to their advantage

**Virtual Reality Church** Darrell Bock, Jonathan Armstrong, 2021-03-02 Is Virtual Reality a Biblical Reality As virtual reality becomes increasingly prominent throughout society churches must assess how to respond thoughtfully and biblically In Virtual Reality Church theologians Darrell Bock and Jonathan Armstrong present a systematic reflection on how to faithfully apply virtual reality for ministry purposes They examine the risks like compromising the meaning of tangible worship and opportunities like safely reaching persecuted churches of integrating revolutionary technologies into the Christian life Learn to think critically theologically and pastorally about new technologies so that you can faithfully advance the gospel into the future

**Ethics and Religion in the Age of Social Media** Kevin Healey, Robert Woods Jr., 2019-11-14 Arguing that popular digital platforms promote misguided assumptions about ethics and technology this book lays out a new perspective on the relation between technological capacities and human virtue The authors criticize the digital catechism of technological idolatry arising from the insular elite culture of Silicon Valley In order to develop digital platforms that promote human freedom and socio economic equality they outline a set of five proverbs for living responsibly in the digital world 1 information is not wisdom 2 transparency is not authenticity 3 convergence is not integrity 4 processing is not judgment and 5 storage is not memory Each chapter ends with a simple exercise to help users break through the habitual modes of thinking that our favorite digital applications promote Drawing from technical and policy experts it offers corrective strategies to address the structural and ideological biases of current platform architectures algorithms user policies and advertising models This book will appeal to scholars and graduate and advanced undergraduate students investigating the intersections of media religion and ethics as well as journalists and professionals in the digital and technological space

**Prophetically Incorrect** Robert H. Jr. Woods, Paul D. Patton, 2010-08-01 The Bible includes prophetic speech and at times the church and its representatives are called to speak prophetically But in our media saturated age when many claim to speak for God how can we evaluate the avalanche of supposedly prophetic speech What does it mean to truly be prophetic And when Christians should speak prophetically how can they do so in a biblical and effective way Using vivid examples this book offers clear

guidelines for creating critiquing and consuming popular media as well as practical suggestions for faithful communication It also helps readers think critically about communication technology The book includes a foreword by Quentin Schultze and a preface by Clifford Christians      *Love Your God with All Your Mind* J.P. Moreland, 2014-03-14 We know that faith means being sure of what we hope for and certain of what we do not see Hebrews 11:1 NIV *Love Your God with All Your Mind* explains the importance of using your mind not only to win others to Christ but also to experience personal spiritual growth Author J P Moreland challenges you to use logic and reason to further God's kingdom through evangelism apologetics worship and vocation This revised edition includes expanded appendixes and three new chapters that outline how to reason for the reality of God and the historicity of Jesus' life, teachings, death, and resurrection
