Jesus was a teacher One of the key tools of his teaching was storytelling Through vivid parables of mustard seeds leaven wayward children poor widows rich men and day laborers Jesus helps us imagine the kingdom of God The parables of Jesus were well conceived and artfully structured traps They invite the listener into a simple story or comparison They get the listener comfortable with the familiar territory of the scene Then the parable switches everything around and frustrates the expectations of the listener The parables of Jesus were intended to show his listeners that the way the kingdom of God operates is not what we expect They challenge comfortable beliefs and conventional wisdom about wealth and poverty about holiness and sinfulness about good people and bad and about purity and corruption Previously Kurt Struckmeyer accepted many of the conventional interpretations of the parables that they were about miraculous growth or grace or prayer or humility Now he is convinced that the parables are about upsetting the social order confronting racism disturbing the status quo and behaving shamelessly in the pursuit of justice These are parables of shock scandal resistance disruption and defiance for people living on the margins of society **Rights for Victims of Crime** Irvin Waller,2010-12-16 When the victims of injustice lose faith in their justice system the crime they ve endured cuts only deeper adding insult to injury The

time has come to face the truth that most victims of crime will not have their needs met and often won't experience our systems of justice as just. This short book makes its readers experts in advocating rights for victims of crime. It empowers taxpayers, voters, and potential victims of crime to make the case to rebalance justice and support victims. Written for the millions of victims of crime and their friends and families, it helps to transform an antiquated system of criminal and civil justice into a modern system that is just and fair, shifting from neglect to respect and support. While some laws in the USA and elsewhere do support victims by providing assistance, compensation, and protection from the accused, this book also sheds a harsh light upon their inadequate implementation. Police services must catch crooks but make victims their client. Courts must balance rights for defendants and victims. Services for women, children, and elderly victims must be adequately funded. Restitution from offenders must be ordered and collected, not overlooked. Fair compensation from the state must change from a secret to a given. The prevention of victimization must be the budget priority, not mass incarceration. Despite the speeches and the United Nations norms, governments still leave most victims of crime without basic information, support, and assistance, let alone respect and remedies in courts. If you are not yet one of those victims of crime, social responsibility requires you to ensure that your country's systems of justice are fair to those who are and for them, this book provides an answer.
