## **Karl Gerstner Review Of Seven Chapters Of Constructive Pictures Etc:**

**Review of Seven Chapters of Constructive Pictures** Karl Gerstner, 2003      Karl Gerstner Karl Gerstner, 2003 In The Dysfunction of Ritual in Early Confucianism Michael Ing describes how early Confucians coped with situations where their rituals failed to achieve their intended aims In contrast to most contemporary interpreters of Confucianism Ing demonstrates that early Confucian texts can be read as arguments for ambiguity in ritual failure If as discussed in one text Confucius builds a tomb for his parents unlike the tombs of antiquity and rains fall causing the tomb to collapse it is not immediately clear whether this failure was the result of random misfortune or the result of Confucius straying from the ritual script by building a tomb incongruent with those of antiquity The Liji Record of Ritual one of the most significant yet least studied texts of Confucianism poses many of these situations and suggests that the line between preventable and unpreventable failures of ritual is not always clear Ritual performance in this view is a performance of risk It entails rendering oneself vulnerable to the agency of others and resigning oneself to the need to vary from the successful rituals of past thereby moving into untested and uncertain territory Ing s book is the first monograph in English about the Liji a text that purports to be the writings of Confucius s immediate disciples and included in the earliest canon of Confucian texts called The Five Classics several centuries before the Analects It challenges some common assumptions of contemporary interpreters of Confucian ethics in particular the idea that a cultivated ritual agent is able to recognize which failures are within his sphere of control to prevent and thereby render his happiness invulnerable to ritual failure      **Color in Art (Second) (World of Art)** John Gage, 2023-10-17 A wide ranging and engaging introduction to the place and power of color in life and art by John Gage author of the award winning Color and Culture The complex phenomenon of color has received detailed attention from the perspectives of physics chemistry physiology psychology linguistics and philosophy However the people who work most closely with color artists have rarely been canvassed for their opinions on this mysterious subject John Gage sets out to address this omission by focusing on the thoughts and practices of artists Color in Art is concerned with the history of color but is not itself a history instead each chapter develops a theme from a different scientific discipline as seen from the viewpoint of such diverse artists such as Vincent van Gogh Wassily Kandinsky Sonia Delaunay Bridget Riley and Clifford Possum Tjapaltjarri Drawing on examples through the ages from ancient times to the present the many topics covered include flags synesthesia theosophy theater design film chromotherapy and chromophobia Featuring a new foreword by art writer Kelly Grovier outlining contemporary developments in the study of color and an updated bibliography this new edition of this classic text offers a wide ranging and engaging introduction to the place and power of color in life and art      Colour in Art John Gage, Kelly Grovier, 2023-09-07 The complex phenomenon of colour has received detailed attention from the perspectives of physics chemistry physiology psychology linguistics and philosophy However the people who work most closely with colour artists have rarely been canvassed for their opinions on this mysterious subject John Gage sets out to

address this omission by focusing on the thoughts and practices of artists Colour in Art is concerned with the history of colour but is not itself a history instead each chapter develops a theme from a different scientific discipline as seen from the viewpoint of such diverse artists such as Wassily Kandinsky Vincent van Gogh Sonia Delaunay Bridget Riley and Clifford Possum Tjapaltjarri Drawing on examples through the ages from ancient times to the present the many topics covered include flags synaesthesia Theosophy theatre design film chromotherapy and chromophobia Featuring a new foreword by art writer Kelly Grovier outlining contemporary developments in the study of colour and an updated bibliography this new edition of this classic text offers a wide ranging and engaging introduction to the place and power of colour in life and art
