modernist and postmodernist poetics at the edge of Europe She traces the influential role of Greek women writers back to the sexual politics of censorship under the dictatorship 1967-1974 Reading the effects of censorship in cartoons the dictator's speeches the poetry of the Nobel Laureate George Seferis and the younger generation of poets she shows how women poets use strategies which although initiated in response to the regime's press law prove useful in articulating a feminist critique In poetry collections by Rhea Galanaki Jenny Mastoraki and Maria Laina among others she analyzes how the censors' tactics for stabilizing signification are redeployed to disrupt fixed meanings and gender roles As much a literary analysis of culture as a cultural analysis of literature her book explores how censorship consumerism and feminism influence contemporary Greek women's poetry as well as how the resistance to clarity in this poetry trains readers to rethink these cultural practices Only with greater attention to the cultural and formal specificity of writing Van Dyck argues is it possible to theorize the lessons of censorship and women's writing *Kassandra* Deutsches Historisches Museum, 2008 [Kassandra's Kat](#)
