Fata Morgana 1st Edition:

Beyond Adriaan Theodoor Peperzak, 1997 Although Emmanuel Levinas is widely respected as one of the classic thinkers of our century the debate about his place within Continental philosophy continues In *Beyond The Philosophy of Emmanuel Levinas* Adriaan Theodoor Peperzak shows Levinas's thought to be a persistent attempt to point beyond the borders of an economy where orderly interests and ways of reasoning make us feel at home beyond the world of needs beyond the self beyond politics and administration beyond logic and ontology even beyond freedom and autonomy Peperzak's examination begins with a general overview of Levinas's life and thought and shows how issues of ethics politics and religion are intertwined in Levinas's philosophy Peperzak also discusses the development of Levinas's relations with Husserl and Heidegger demonstrating thematically the evolution of both Levinas's anti Heideggerian view of technology and his critical attitude toward nature *Scholars and Prophets* Roland Lardinois, 2017-07-14 The book deals with the long and rich scholarship on India in France since the beginning of 19th Century with particular reference to the work of Louis Dumont It considers the works of scholars and the essayists poets or esotericists who published on India and shows that Dumont has been influenced by both groups The book draws on archives and empirical material **Levinas** Colin Davis, 2013-05-28 In recent years there has been a resurgence of interest in the work of Emmanuel Levinas widely recognized as one of the most important yet difficult philosophers of the 20th century In this much needed introduction Davis unpacks the concepts at the centre of Levinas's thought alterity the Other the Face infinity concepts which have previously presented readers with major problems of interpretation Davis traces the development of Levinas's thought over six decades describing the context in which he worked and the impact of his writings He argues that Levinas's work remains tied to the ontological tradition with which he wants to break and demonstrates how his later writing tries to overcome this dependency by its increasingly disruptive sometimes opaque textual practice He discusses Levinas's theological writings and his relationship to Judaism as well as the reception of his work by contemporary thinkers arguing that the influence of his work has led to a growing interest in ethical issues among poststructuralist and postmodernist thinkers in recent years Comprehensive and clearly written this book will be essential reading for students and researchers in continental philosophy French studies literary theory and theology *The Ethics of Reading According to Emmanuel Lévinas* Roland A. Champagne, 1998 Reading a text is an ethical activity for Emmanuel Levinas His moral philosophy considers written texts to be natural places to discover relations of responsibility in Western philosophical systems which are marked by extreme violence and totalizing hatred This book uses male feminism as its perspective in presenting the applications of Levinas's vision to texts whose readings have presented moral dilemmas for women readers *Levinas and the Crisis of Humanism* Claire Elise Katz, 2013 Reexamining Emmanuel Levinas's essays on Jewish education Claire Elise Katz provides new insights into the importance of education and its potential to transform a democratic society for Levinas's larger philosophical project Katz examines Levinas's Crisis of

Humanism which motivated his effort to describe a new ethical subject Taking into account his multiple influences on social science and the humanities and his various identities as a Jewish thinker philosopher and educator Katz delves deeply into Levinas's works to understand the grounding of this ethical subject

The Palgrave Handbook of German Idealism and Existentialism Jon Stewart, 2020-08-25 This Handbook explores the complex relations between two great schools of continental philosophy German idealism and existentialism While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual the chapters in this collection reveal that the German idealists in fact anticipated many key existentialist ideas A radically new vision of the history of continental philosophy is thereby established one that understands existentialism as a continuous development from German idealism

Key Features Operates at both the macro level and micro level treating both the two schools of thought and the individual thinkers associated with them Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists Meticulously uncovers and documents many little known points of contact between the German idealists and the existentialists Includes often neglected figures such as Jacobi and Trendelenburg This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy Moreover the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures

The Bookseller ,1905 **Emmanuel Levinas: Beyond Levinas** Claire Elise Katz,Lara Trout,2005 Emmanuel Levinas 1905 1995 was one of the foremost thinkers of the twentieth century His work influencing a wide range of intellectuals such as Maurice Blanchot Jacques Derrida Luce Irigaray and Jean Luc Marion **Women and Gender in Jewish Philosophy** Hava Tirosh-Samuelson,2004-06-18 Women and Gender in Jewish Philosophy is the first systematic attempt to interpret the Jewish philosophical tradition in light of feminist philosophy and to engage feminist philosophy from the perspective of Jewish philosophy Written by Jewish women who are trained in philosophy the 13 original essays presented here demonstrate that no analysis of Jewish philosophy historical or constructive can be adequate without attention to gender categories The essays cover the entire Jewish philosophic tradition from Philo through Maimonides to Levinas and they rethink the subdisciplines of Jewish philosophy including metaphysics epistemology ethics political theory and theology This volume offers an invitation for a new conversation between feminist philosophy and Jewish philosophy as well as a novel contribution to contemporary Jewish philosophy Contributors are Leora Batnitzky Jean Axelrad Cahan Idit Dobbs Weinstein Claire Elise Katz Nancy Levene Sandra B Lubarsky Sarah Pessin Randi Rashkover Heidi Miriam Ravven T M Rudavsky Suzanne Last Stone Hava Tirosh Samuelson and Laurie Zoloth Reading Images and Seeing Words ,2021-11-01 The simultaneously tautological and oxymoronic nature of word image relations has become a subject of massive debate in the post modern period This is not only because of the increasing predominance of word image messages within our modern media saturated culture but also because intellectual disciplines are becoming increasingly sensitized to the essentially hybrid nature of the way we construct

meaning in the world The essays in this volume offer an exemplary insight into both aspects of this phenomenon Focussing on both traditional and modern media theatre fiction poetry graphic art cinema the essays of Reading Images and Seeing Words are deeply concerned to show how it is according to signifying codes rhetoric poetics metaphor that meaning and knowledge are produced Not the least value of this collection is the insight it gives into the multiple models of word image interaction and the rich ambiguity of the tautological and oxymoronic relations they embody **Derrida** Christina Howells, 2013-04-24 This book is an unusually readable and lucid account of the development of Derrida's work from his early writings on phenomenology and structuralism to his most recent interventions in debates on psychoanalysis ethics and politics Christina Howells gives a clear explanation of many of the key terms of deconstruction including différance trace supplement and logocentrism and shows how they function in Derrida's writing She explores his critique of the notion of self presence through his engagement with Husserl and his critique of humanist conceptions of the subject through an account of his ambivalent and evolving relationship to the philosophy of Sartre The question of the relationship between philosophy and literature is examined through an analysis of the texts of the 1970s and in particular Glas where Derrida confronts Hegel's totalizing dialectics with the fragmentary and iconoclastic writings of Jean Genet The author addresses directly the vexed questions of the extreme difficulty of Derrida's own writing and of the passionate hostility it arouses in philosophers as diverse as Searle and Habermas She argues that deconstruction is a vital stimulus to vigilance in both the ethical and political spheres contributing significantly to debate on issues such as democracy the legacy of Marxism responsibility and the relationship between law and justice Comprehensive cogently argued and up to date this book will be an invaluable text for students and scholars alike
