## Fatal Frontier:

**The Fatal Frontier** John Jakes, *The Fatal Frontier* Matt Vancil, 2021-05-22 Joni Webb Webber has spent the last fifteen years in the service of Earth. Currently a senior technician aboard the starship Independence she has been tasked with keeping one of the most important ships in the fleet operational by any means necessary so long as it doesn't affect the bottom line or inconvenience a commanding officer. She was just a red shirt after all. Regulations might not specify that a red shirt's life is worth any less than an officer's but at the end of the day regulations are just words on a screen while orders are orders. Still despite the turnover rate of a red shirt it's a better life than being one of the Unassigned or one of the mechanical human-like cogs. Unfortunately when a message comes in that sends the Independence careening off course to investigate the whereabouts of the starship Flagstaff not even Webb is prepared for the depths Command is ready to sink to keep Earth's secrets. **The Empire Review**, 1925 **Approach**, 1956 The naval aviation safety review, **NTSB-AMM**, 1978

**History's Shadow** Steven Conn, 2008-09-15 Who were the Native Americans? Where did they come from and how long ago? Did they have a history and would they have a future? Questions such as these dominated intellectual life in the United States during the nineteenth century. And for many Americans such questions about the original inhabitants of their homeland inspired a flurry of historical investigation, scientific inquiry, and heated political debate. *History's Shadow* traces the struggle of Americans trying to understand the people who originally occupied the continent claimed as their own. Steven Conn considers how the question of the Indian compelled Americans to abandon older explanatory frameworks for sovereignty like the Bible and classical literature and instead develop new ones. Through their engagement with Native American language and culture, American intellectuals helped shape and define the emerging fields of archaeology, ethnology, linguistics, and art. But more important, the questions posed by the presence of the Indian in the United States forced Americans to confront the meaning of history itself, both that of Native Americans and their own, how it should be studied, what drove its processes, and where it might ultimately lead. The encounter with Native Americans, Conn argues, helped give rise to a distinctly American historical consciousness. A work of enormous scope and intellect, *History's Shadow* will speak to anyone interested in Native Americans and their profound influence on our cultural imagination. *History's Shadow* is an intelligent and comprehensive look at the place of Native Americans in Euro-American intellectual history. Examining literature, painting, photography, ethnology, and anthropology, Conn mines the written record to discover how non-Native Americans thought about Indians. Joy S. Kasson, Los Angeles Times. *The Fatal Frontier* Elmore Leonard, John Jakes, Author Loren D. Webb, 2013-01-01 Scholars of British America generally conclude that the early eighteenth century Anglo American empire was commercial in economics liberal in politics and parochial in policy somnambulant in an era of salutary neglect but Stephen Saunders Webb here demonstrates that the American provinces under the spur of war became capitalist coercive and aggressive owing to the vigorous leadership of career army officers trained and nominated to American government by the captain general of the allied armies the first duke of Marlborough and that his influence and that of his legates prevailed through the entire century in America Webb's work follows the duke whom an eloquent enemy described as the greatest statesman and the greatest general that this country or any other country has produced his staff and soldiers through the ten campaigns which by defanging France made the union with Scotland possible and made Great Britain preeminent in the Atlantic world Then Webb demonstrates that the duke's legates transformed American colonies into provinces of empire Marlborough's America fifty years in the making is the fourth volume of The Governors General      *Omnicide* Jason Bahbak Mohaghegh, 2019-06-11 A fragmentary catalogue of poetic derangements that reveals the ways in which mania communicates with an extreme will to annihilation What kind of circumstances provoke an obsessive focus on the most minute object or activity And what causes such mania to blossom into the lethal conviction that everything must be annihilated There is no turning away from the imperative to study this riddle in all its mystifying complexity and its disturbing contemporary resonance to trace the obscure passage between a lone state of delirium and the will to world erasure A fragmentary catalogue of the thousand and one varieties of manic disposition augomania dromomania catoptromania colossomania *Omnicide* enters the chaotic imaginations of the most significant poetic talents of the Middle East in order to instigate a new discourse on obsession entrancement excess and delirium Placing these voices into direct conversation Jason Bahbak Mohaghegh excavates an elaborate network of subterranean ideas and interpretive chambers byways and burrows by which mania communicates with fatality Like secret passages leading from one of the multitudinous details of a bustling Persian miniature to the blank burning immanence of the desert each is a contorted yet effective channel connecting some attractive universe of adoration worship or astonishment to the instinct for all engulfing oblivion through hatred envy indifference rage or forgetting A captivating fractal of conceptual prisms in half storytelling half theoretical prose a rhythmic poetic insidious work that commands submission *Omnicide* absorbs the reader into unfamiliar and estranging landscapes whose every subtle euphoric aspect threatens to become an irresistible invitation to the end of all
