relates to the range of cultural phenomena that defined and projected Augustan authority including spectacle theater and the visual arts Andrew Feldherr argues that a key to the political as well as literary power of the *Metamorphoses* is the way it manipulates its readers awareness that its stories cannot possibly be true By continually juxtaposing the imaginary and the real Ovid shows how a poem made up of fictions can and cannot acquire the authority and presence of other discursive forms One important way that the poem does this is through narratives that create a double vision by casting characters as both mythical figures and enduring presences in the physical landscapes of its readers This narrative device creates the kind of tensions between identification and distance that Augustan Romans would have felt when experiencing imperial spectacle and other contemporary cultural forms Full of original interpretations *Playing Gods* constructs a model for political readings of fiction that will be useful not only to classicists but to literary theorists and cultural historians in other fields *Sandra Belloni* George Meredith,1896 **In Exile** Billy O'Callaghan,2008 A collection of short stories offering love sorrow hope and quiet desperation *Rhodanthe, Or, The Rose in the Garden of the Soul's Delight* Charles Louis Palms,1917 *Houses and Gardens* Mackay Hugh Baillie Scott,1906 *Sandra Belloni.
